& POOR'S

Glencoe

New York, New York Columbus, Ohio Chicago, Illinois Woodland Hills, California

About the Author

ROGER LEROY MILLER graduated Phi Beta Kappa from the University of California at Berkeley, where he also won the Department Prize in Economics. He was a Woodrow Wilson Honor Fellow, National Science Foundation Fellow, and Lilly Honor Fellow at the University of Chicago, where he received his Ph.D. in economics in 1968. Now at the Institute for University Studies in Arlington, Texas, Dr. Miller has taught at the University of Washington, the University of

Miami, Clemson University, and the University of Texas. He has also taught methodology to teachers of high school economics for the National Council on Economic Education. Among the more than 200 books he has written or co-authored are works on economics, statistics, law, consumer finance, and government. Dr. Miller also has operated several retail and Internet businesses and served as a consultant to government agencies, private corporations, and law firms.

Contributors

BusinessWeek

BusinessWeek is the most widely read business publication in the world and is the only weekly business news publication in existence. *BusinessWeek* provides incisive and comprehensive interpretation of events by evaluating the news and its implications for the United States, regional, and world economies.

STANDARD & POOR'S

Standard & Poor's is a leading source of data, news, and analyses on regional, national, and global economic developments. Standard & Poor's information is used by industrial firms, financial institutions, and government agencies for setting policy, managing financial positions, planning production, formulating marketing strategies, and a range of similar activities. Standard & Poor's data services represent the single most sophisticated source of information for organizations that need to understand the impact of the path of economic growth and of government fiscal and monetary policies on their activities.
