# CONTENTS

PREFACE *xix*

## **Part One Introduction 1**

### **Chapter 1 Introduction to Managerial Economics 3**

- Boeing's Struggle to Retain Market Leadership 4
- The Disney Corporation: Expansion of the Magic Kingdom 5
- In What Size Production Runs Should Toyota Produce Its Cars? 6
- Relationships of Managerial Economics to Other Disciplines 6
- The Basic Process of Decision Making 8
- The Theory of the Firm 10
- The Role of Constraints 12
- What Are Profits? 12
- Reasons for the Existence of Profit 14
- Organizational Factors and "Satisficing" 15

- *Analyzing Managerial Decisions: Shell Gains by Giving Safe-Driving Advice* 16
  - Managerial Interests and the Principal-Agent Problem 16
  - Demand and Supply: A First Look 17
- *Analyzing Managerial Decisions: How Disney Dealt with the Principal-Agent Problem* 18
  - The Demand Side of a Market 20
  - The Supply Side of a Market 21
  - Equilibrium Price 23
  - Actual Price 24
  - What If the Demand Curve Shifts? 25
  - What If the Supply Curve Shifts? 27
  - How Russia Glutted the Aluminum Market: A Case Study 28
- *Concepts in Context: Problems in the Potato Market* 29
  - Summary 30
  - Problems 31

## Chapter 2

### Optimization Techniques 37

- Functional Relationships 38
- Marginal Analysis 40
- Relationships between Total, Marginal, and Average Values 42
- The Concept of a Derivative 45
- How to Find a Derivative 49
- *Concepts in Context: The Allocation of the TANG Brand Advertising Budget* 54
  - Using Derivatives to Solve Maximization and Minimization Problems 58
  - Marginal Cost Equals Marginal Revenue and the Calculus of Optimization 62
- *Analyzing Managerial Decisions: The Optimal Size of a Nursing Home* 63
- *Concepts in Context: An Alleged Blunder in the Stealth Bomber's Design* 65
  - Partial Differentiation and the Maximization of Multivariable Functions 66
- *Analyzing Managerial Decisions: The Effects of Advertising on the Sales of TANG* 67
  - Constrained Optimization 68
  - Lagrangian Multipliers 71
- *Consultant's Corner: Planning to Meet Peak Engineering Requirements* 73
  - Comparing Incremental Costs with Incremental Revenues 74
  - Summary 76
  - Problems 77

## Part Two Demand and Forecasting 81

### Chapter 3 Demand Theory 83

- Introduction 83
- The Market Demand Curve 84
- Industry and Firm Demand Functions 88
- The Price Elasticity of Demand 90
- Point and Arc Elasticities 92
- Using the Demand Function to Calculate the Price Elasticity of Demand 93
- *Concepts in Context: Fur Demand in Russia* 94
- Price Elasticity and Total Money Expenditure 96
- Total Revenue, Marginal Revenue, and Price Elasticity 98
- *Analyzing Managerial Decisions: The Demand for Newsprint* 100
- Using Price Elasticity of Demand: Application to Phillip Morris 102
- Using Price Elasticity of Demand: Public Transit 102
- Determinants of the Price Elasticity of Demand 102
- Uses of the Price Elasticity of Demand 105
- Price Elasticity and Pricing Policy 106
- The Income Elasticity of Demand 107
- Using the Demand Function to Calculate the Income Elasticity of Demand 109
- Cross Elasticities of Demand 110
- *Consultant's Corner: Estimating the Demand for Rail Passenger Business by Amtrak* 111
- The Advertising Elasticity of Demand 113
- The Constant-Elasticity Demand Function 113
- *Analyzing Managerial Decisions: Price Cutting at the London Times* 115
- Summary 116
- Problems 117

### Chapter 4 Consumer Behavior and Rational Choice 123

- Indifference Curves 124
- The Marginal Rate of Substitution 126
- The Concept of Utility 128
- The Budget Line 128
- The Equilibrium Market Basket 131
- *Concepts in Context: Effect of a Time Constraint on Consumer Behavior* 133
- Maximizing Utility: A Closer Look 134

Corner Solutions	135
Representing the Process of Rational Choice	136
Deriving the Individual Demand Curve	137
Deriving the Market Demand Curve	139
Consumer Surplus	140
Summary	142
• <i>Consultant's Corner: The Trade-off between Risk and Return</i>	143
Problems	144

## Chapter 5 Estimating Demand Functions 149

The Identification Problem	150
Consumer Interviews	153
Market Experiments	154
L'eggs: A Market Experiment	154
Regression Analysis	155
Simple Regression Model	157
Sample Regression Line	158
Method of Least Squares	160
Coefficient of Determination	163
Multiple Regression	165
• <i>Consultants Corner: Marketing Plans at the Stafford Company</i>	166
Software Packages and Computer Printouts	168
• <i>Concepts in Context: How the Japanese Motorcycle Makers Used the Coefficient of Determination</i>	170
Interpreting the Computer Printout	171
• <i>Concepts in Context: Color Balance and Shelf-Life Performance of Polaroid Film</i>	173
• <i>Analyzing Managerial Decisions: How Good Are Ward's Projections of Auto Output?</i>	174
Multicollinearity	178
Serial Correlation	179
Further Analysis of the Residuals	181
Summary	182
• <i>Analyzing Managerial Decisions: How Fed Economists Forecast Auto Output</i>	184
Problems	186
Appendix: The Coefficient of Determination and the Concept of Explained Variation	192

## Chapter 6 **Business and Economic Forecasting 197**

- Survey Techniques 198
- Taking Apart a Time Series 199
- How to Estimate a Linear Trend 202
- How to Estimate a Nonlinear Trend 204
- Seasonal Variation 205
- Calculation of Seasonal Variation 206
- *Analyzing Managerial Decisions: Forecasting the Demand for Blood Tests* 208
- Cyclical Variation 209
- Elementary Forecasting Techniques 212
- How Leading Indicators Are Used 214
- *Consultant's Corner: Deciding Whether to Finance the Purchase of an Oil Field* 216
- How Econometric Models Are Used 217
- *Analyzing Managerial Decisions: Forecasting Shipments of Cement by CEMCO* 218
- John Hancock and Timberland: A Case Study 218
- The Purvere Corporation: A Numerical Example 219
- "Study Your Residuals" 221
- Summary 222
- Problems 223
- Appendix: Exponential Smoothing and Forecasting 227
- *Managerial Economics in Context: How to Forecast the Sales of Paper, According to McKinsey* 230

## **Part Three Production and Cost 233**

### Chapter 7 **Production Theory 235**

- The Production Function with One Variable Input 236
- *Analyzing Managerial Decisions: Shaquille O'Neal Goes to Los Angeles* 241
- The Law of Diminishing Marginal Returns 242
- The Optimal Level of Utilization of an Input 242
- The Rondo Corporation: A Numerical Example 244
- *Analyzing Managerial Decisions: How to Determine the Optimal Horsepower for an Oil Pipeline* 245
- The Production Function with Two Variable Inputs 246

- *Analyzing Managerial Decisions: How Nucor Stays on the Production Function* 248
  - Isoquants 249
  - The Marginal Rate of Technical Substitution 251
  - The Optimal Combination of Inputs 254
  - The Beiswanger Company: A Numerical Example 257
  - The Miller Company: Another Numerical Example 259
  - Optimal Lot Size 260
  - What Toyota Taught the World 264
  - Returns to Scale 266
- *Consultant's Corner: Choosing the Size of an Oil Tanker* 267
  - The Output Elasticity 268
  - How Firms Obtain Information About the Production Function: Competitive Benchmarking at Xerox 269
  - Measurement of Production Functions 270
  - Three Types of Statistical Analysis 272
  - The Telephone Industry in Canada: A Case Study 273
  - Poultry Production in the United States: Another Case Study 274
  - Summary 277
  - Problems 278
- Appendix: Lagrangian Multipliers and Optimal Input Combinations 284

## Chapter 8

### Technological Change and Industrial Innovation 289

- Technological Change 290
- Labor Productivity 291
- Total Factor Productivity 292
- Using Total Factor Productivity to Track Factory Performance 294
- Research and Development: A Learning Process 296
- Parallel Development Efforts 297
- What Makes for Success? 299
- *Concepts in Context: Parallel Development Efforts at IBM* 300
  - Project Selection 300
  - Innovation 301
  - Time-Cost Trade-offs 302
  - The Learning Curve 304
- *Analyzing Managerial Decisions: The Time-Cost Trade-off Function for Airlines* 306
  - Applications of the Learning Curve 306

Henry Ford's Model T and Douglas Aircraft's DC-9 308  
 Diffusion Models 308

- *Consultant's Corner: How Robots Spread in Japan and the United States* 312

Forecasting the Rate of Diffusion of Numerically Controlled Machine Tools 313

- *Analyzing Managerial Decisions: The Development and Introduction of Canon's Personal Copier* 314

Summary 315

Problems 316

## Chapter 9      **The Analysis of Costs**      321

Introduction 321

Opportunity Costs 322

- *Concepts in Context: How Harley-Davidson Has Reduced Costs* 323

Short-Run Cost Functions 323

Average and Marginal Costs 326

- *Analyzing Managerial Decisions: The Effects of Output on the Cost of Producing Aircraft* 331

Long-Run Cost Functions 332

The Crosby Corporation: A Numerical Example 336

- *Analyzing Managerial Decisions: Should We Continue to Make Autos from Steel?* 337

Economies of Scale in Nursing Homes 338

Measurement of Short-Run Cost Functions: The Choice of a Mathematical Form 341

Nature and Limitations of Available Data 342

Key Steps in the Estimation Process 345

A Hosiery Mill's Short-Run Cost Functions 346

A Transportation Firm's Short-Run Cost Functions 348

Long-Run Statistical Cost Estimation 350

The Long-Run Average Cost Function for Electric Power: A Case Study 352

The Survivor Technique 353

The Importance of Flexibility 355

Economies of Scope 355

- *Concepts in Context: Economies of Scope in Advertising Agencies* 357

Break-Even Analysis 358

Algebraic Break-Even Analysis 360

- *Consultant's Corner: Mr. Martin Gets Chewed Out by the Boss* 361

Profit Contribution Analysis 361

Summary 362  
 Problems 363  
 Appendix: Break-Even Analysis and Operating Leverage 367

## Part Four Market Structure, Strategic Behavior, and Pricing 371

### Chapter 10 Perfect Competition, Monopoly, and Monopolistic Competition 373

Market Structure 373  
 Market Price under Perfect Competition 375  
 Shifts in Supply and Demand Curves 377  
 The Output Decision of a Perfectly Competitive Firm 378  
 Setting Marginal Cost Equal to Price 381  
 • *Consultant's Corner: Forecasting the Price of Salmon* 384  
 Producer Surplus in the Short Run 385  
 Long-Run Equilibrium of the Firm 387  
 The Long-Run Adjustment Process: A Constant-Cost Industry 390  
 The Long-Run Adjustment Process: An Increasing-Cost Industry 391  
 How a Perfectly Competitive Economy Allocates Resources 393  
 Price and Output Decisions under Monopoly 394  
 The Newspaper Industry in Detroit 398  
 The Raleigh Company: A Numerical Example 399  
 • *Analyzing Managerial Decisions: Franchiser versus Franchisee?* 400  
 • *Concepts in Context: Using Patents to Maintain Market Power* 401  
 Two-Part Tariffs 402  
 Bundling 402  
 • *Concepts in Context: Verizon Local Calling Plans* 403  
 Monopolistic Competition 408  
 Price and Output Decisions under Monopolistic Competition 409  
 Advertising Expenditures: A Simple Rule 411  
 Using Graphs to Help Determine Advertising Expenditure 414  
 Advertising, the Price Elasticity of Demand, and Brand Loyalty: The Case of the Retail Coffee Market 415  
 Summary 417  
 Problems 418  
 Appendix: Allocation of Output among Plants 423

## Chapter 11 Oligopoly 427

- The Emergence of Oligopolistic Industries 428
- Maturity and Decline of Oligopolistic Industries 430
- Collusive Agreements 430
- The Breakdown of Collusive Agreements 432
- Dissension in the OPEC Oil Cartel 433
- *Concepts in Context: Cartels Come in Many Shapes and Sizes* 434
- Price Leadership 435
- *Analyzing Managerial Decisions: Price Cuts for Breakfast* 437
- Ajax, Inc.: A Numerical Example 437
- *Analyzing Managerial Decisions: Cranberries: Where 34 Percent of the Market Producers Are Price Takers* 438
- Summary 439
- Problems 440

## Chapter 12 Game Theory 447

- Two-Person Games 448
- Nash Equilibrium 449
- Carpenter Company and Hanover Corporation: A Numerical Example 451
- The Prisoner's Dilemma 455
- Does Cheating Pay? 456
- A More Sophisticated Analysis 457
- Most-Favored-Customer Clauses 458
- The Thrust and Parry of Oligopolistic Rivalry 460
- The Importance of Commitment 461
- *Consultant's Corner: Using a Price Announcement to Preempt a Market* 462
- When Is a Threat Credible? 463
- The Importance of Entry 465
- The Deterrence of Entry 465
- *Analyzing Managerial Decisions: Difficulties in Formulating Effective Contracts* 467
- Du Pont's Attempt to Deter Entry into the Titanium Dioxide Industry 468
- Advertising to Resist Entry: Maxwell House versus Folgers 468
- Preemptive Strategies: The Case of Wal-Mart Stores 469
- Representing Games with Game Trees 470
- Summary 472
- Problems 473

<b>Chapter 13</b>	<b>Pricing Techniques</b>	<b>477</b>
	Cost-Plus Pricing	478
	Cost-Plus Pricing at Computron, Inc.: A Case Study	479
	Cost-Plus Pricing at Internet Companies and Government-Regulated Industries	480
	Does Cost-Plus Pricing Maximize Profit?	481
	The Clawson Corporation: A Numerical Example	483
	The Multiple-Product Firm: Demand Interrelationships	483
	• <i>Analyzing Managerial Decisions: Pricing Steaks at the Palm Restaurant</i>	484
	Pricing of Joint Products: Fixed Proportions	486
	The Avtech Company: A Numerical Example	488
	Output of Joint Products: Variable Proportions	490
	Price Discrimination	492
	Airline Travel: A Case Study	494
	Price Discrimination: A Pharmaceutical Example	495
	The Different Types of Price Discrimination	497
	Using Coupons and Rebates for Price Discrimination	502
	Tying at IBM, Xerox, and Microsoft	503
	Transfer Pricing	505
	• <i>Concepts in Context: Why Do Women Pay More?</i>	505
	• <i>Analyzing Managerial Decisions: Yield Management at American Airlines</i>	506
	Transfer Pricing: A Perfectly Competitive Market for the Transferred Product	509
	Transfer Pricing in Practice Around the World	510
	• <i>Concepts in Context: Japan's Tax Man Leans on Foreign Firms</i>	510
	The Orion Corporation: A Numerical Example	511
	• <i>Consultant's Corner: Settling Some Strife Over a Pricing Formula</i>	513
	Summary	515
	Problems	516
	• <i>Managerial Economics in Context: A Rocky Road for Caterpillar Tractor</i>	520
<b>Part Five</b>	<b>Risk, Uncertainty, and Incentives</b>	<b>523</b>
<b>Chapter 14</b>	<b>Risk Analysis</b>	<b>525</b>
	Risk and Probability	526
	Probability Distributions and Expected Values	527
	Comparisons of Expected Profit	528

- How to Construct a Decision Tree 529
- Should Tomco Oil Corporation Drill a Well? 531
- *Concepts in Context: Bidding for the SS Kuniang* 534
- The Expected Value of Perfect Information 534
- Evaluating an Investment in a New Chemical Plant: A Case Study 536
- *Consultant's Corner: Choosing Areas for Research Regarding Pollution Costs* 537
- Measuring Attitudes toward Risk: The Utility Approach 538
- Constructing a Utility Function 538
- *Analyzing Managerial Decisions: Should Maxwell House Have Increased Its Price?* 540
- Using a Utility Function 542
- Attitudes toward Risk: Three Types 543
- The Standard Deviation and Coefficient of Variation: Measures of Risk 545
- *Analyzing Managerial Decisions: Deciding Whether to Buy an Option on a New Flight-Safety System* 548
- Adjusting the Valuation Model for Risk 548
- Certainty Equivalence and the Market for Insurance 551
- The Use of Risk-Adjusted Discount Rates 552
- Simulation Techniques 553
- Application of the Maximin Rule 556
- *Concepts in Context: Using Simulation Techniques in the Computer Industry* 557
- Summary 559
- Problems 560

## Chapter 15 Auctions 565

- A Short History of Auctions 567
- Types of Auction Mechanisms 568
- Auction Mechanism and Revenue Generation 569
- Bidding Strategies 571
- *Analyzing Managerial Decisions: Auction Design at Freemarkets, Inc.* 574
- Strategies for Sellers 577
- Value of Information 579
- *Analyzing Managerial Decisions: The Use of Sophisticated Pricing within an Auction Format* 582
- *Analyzing Managerial Decisions: The Winner's Curse in Bidding for Oil Rights* 586
- Summary 588
- Problems 588

Regulation of Environmental Pollution	658
External Economies and Diseconomies	659
The Genesis of the Pollution Problem	659
The Optimal Level of Pollution Control	660
Forms of Government Regulation	663
Effects of Regulation-Induced Cost Increase on Price and Output	665
• <i>Concepts in Context: Buying and Selling the Right to Emit Nitrogen Oxides</i>	666
• <i>Analyzing Managerial Decisions: Auctioning Off Spectrum Rights: Australia and the United States</i>	668
Public Goods	669
• <i>Concepts in Context: Entrance Fees to National Parks</i>	670
Summary	670
Problems	672

## Chapter 18

### Managerial Economics: Taking a Global View 679

Foreign Trade	680
Comparative Advantage	682
Changes in Comparative Advantage	684
Using Demand and Supply Curves to Determine Which Country Will Export a Product	685
Analyzing the Gains from Trade	687
Exchange Rates	690
Determinants of Exchange Rates	693
Tariffs and Quotas	695
The Effects of a Quota: The Case of the Wilton Company's Product	696
• <i>Concepts in Context: Sweetening with Corn, Not Sugar</i>	697
The Presence of Protectionism	697
• <i>Concepts in Context: Why Bridgestone Paid \$2.6 Billion for Firestone</i>	698
Strategic Trade Policy	699
Airbus versus Boeing: Strategic Trade Policy in Action	700
International Trade Disputes	702
• <i>Analyzing Managerial Decisions: Is Airbus Playing by the Rules?</i>	703
Making Direct Investments Abroad	704
Establishing a Plant Abroad: Time-Cost Trade-offs	704
Channels of International Technology Transfer	706
• <i>Analyzing Managerial Decisions: Seagram Makes Vodka in Ukraine</i>	707
Choice among Transfer Channels	708
• <i>Consultant's Corner: Reorganizing a Firm's Global R and D Network</i>	709

Strategic Alliances 709

Summary 711

Problems 712

• *Managerial Economics in Context: NAFTA: A Historic Agreement* 713

## **Appendix A     Discounting and Present Values     A-1**

Present Value of a Series of Payments A-3

The Use of Periods Other Than a Year A-5

Determining the Internal Rate of Return A-6

## **Appendix B     The Normal, $t$ , and $F$ Distributions     A-9**

Brief Answers to Odd-Numbered End-of-Chapter Questions  
and Problems A-14

Brief Answers to “Consultant’s Corner” A-47

Brief Answers to “Managerial Economics in Context” A-54
