ISBN 0-07-145304-0

The sponsoring editor for this book was Larry S. Hager and the production supervisor was Pamela A. Pelton. It was set in Palatino by Lone Wolf Enterprises, Ltd. The art director for the cover was Anthony Landi.

Printed and bound by RR Donnelley.

McGraw-Hill books are available at special quantity discounts to use as premiums and sales promotions, or for use in corporate training programs. For more information, please write to the Director of Special Sales, McGraw-Hill Professional, Two Penn Plaza, New York, NY 10121-2298. Or contact your local bookstore.

This book is printed on recycled, acid-free paper containing a minimum of 50% recycled, de-inked fiber.

IMPORTANT NOTICE

The material presented in this publication has been prepared in accordance with generally recognized engineering principles and practices and is for general information only. This information should not be used without first securing competent advice with respect to its suitability for any general or specific application.

The contents of this publication are not intended to be a standard of the Water Environment Federation® (WEF) and are not intended for use as a reference in purchase specifications, contracts, regulations, statutes, or any other legal document.

No reference made in this publication to any specific method, product, process, or service constitutes or implies an endorsement, recommendation, or warranty thereof by WEF.

WEF makes no representation or warranty of any kind, whether expressed or implied, concerning the accuracy, product, or process discussed in this publication and assumes no liability.

Anyone using this information assumes all liability arising from such use, including but not limited to infringement of any patent or patents.

Contents

Preface	xxi
---------------	-----

Chapter 1 Introduction

Introduction	1
Historical Overview	3
Water Pollution Control Act, As Amended	3
Measurement of Benefit and Use	5
Manual of Practice Chapter Contents.....	7
Chapter 2.....	7
Chapter 3	7
Chapter 4	8
Chapter 5	8
Chapter 6	8
Chapter 7	8
Chapter 8	8
Chapter 9	8
Chapter 10	9
Chapter 11	9
Chapter 12	9
Appendix A	9

Appendix B	9
References	9
Suggested Reading	10

Chapter 2 Institutional Issues

Introduction	12
Clean Water Act User-Charge Regulations	13
General Requirements of the Clean Water Act	13
<i>Project-Specific Requirements</i>	13
<i>Management Issues</i>	14
<i>Rate Ordinance Issues</i>	14
<i>Amendments</i>	15
<i>Revolving Fund Loans</i>	15
<i>State and Local Requirements</i>	15
Special Considerations of the Clean Water Act	15
<i>Legislative Authority for Local Ratemaking</i>	16
<i>Contracts and Consistency with User-Charge Regulations</i>	16
<i>Reporting Needs</i>	16
<i>Consolidation because of Economics of Scale</i>	16
Institutional Organization	16
Single Community	17
Independent Authority	17
Special Purpose District	18
Multi-Purpose District	19
Joint Ownership	19
Regional Agencies	20
Other Institutional Considerations	20
Multi-Party Agreements	21
Contract for Service Outside of Local Jurisdiction	21

Privately Owned Utilities and Public-Private Partnerships	22
Selecting the Appropriate Institutional Organization	23
References	24

Chapter 3 Financial Management and Accounting for Wastewater Systems

Introduction	25
Financial Planning and Policies	26
Budgeting	28
Cost Accounting and Financial Reporting	32
Financial Reserves	35
Financial Management and Accounting—Conclusions	37
References	50

Chapter 4 Financing Capital Improvements

Introduction	52
Capital Planning Process	53
Sources of Capital Financing	56
Internal Financing Sources	56
User Charges	56
Special Assessment	57
Ad Valorem Taxes	58
Cost Reductions	59
Depreciation	59
External Financing Sources	60
Debt	60
Equity	60
System Development Charges	62
Grants and Loans	62

Contributions	63
Financing Considerations for Investor-Owned Utilities	64
Establishing Capital Financing Policies	65
Debt Financing	67
General Obligation Bonds	68
Revenue Bonds	68
Special Assessment Bonds	69
Commercial Paper	70
Capital Leasing	70
Certificates of Participation	70
Financing Costs	71
Debt Financing Process	71
Private Placement	72
Negotiated Sale	73
Competitive Sale	73
Summary	73
Reference	74

Chapter 5 Determination of Revenue Requirements

Introduction	75
Approaches to Determining Revenue Requirements	76
Cash Approach	76
Operations and Maintenance Expenses	78
Operations and Maintenance Reserve	80
Debt Service Payments	80
Capital Expenditures	82
Other Cash Requirements	83
Reserve Fund Payments	83
Total Revenue Requirements from Rates	83
Debt Service Coverage	84

Determining the Costs for Allocation to Customer Classes and Rate Design ..	84
Test Year	85
Federal User-Charge Regulations.....	86
Conclusion	87

Chapter 6 Allocating Costs-of-Services to Cost-Causative Components

Introduction to Cost Allocations	90
Legal Guidelines	91
Types of Wastewater Utility Service Functions and Costs.....	93
Cost Allocation Process.....	93
Cost or Activity Centers	94
Cost Components	95
Cost-Causative Factors	95
Fundamental Cost Allocation Approaches	99
Design-Basis Cost Allocation Methodology	100
Design-Basis Allocation of Plant Investment and Payment-in-Lieu-of-Taxes	100
Design-Basis Pattern for Further Cost Allocations.....	104
<i>Payment-in-Lieu-of-Taxes</i>	105
<i>Net Operations and Maintenance Expenses</i>	105
Exceptions for Operations and Maintenance Expense Allocations....	105
Additional Considerations	107
<i>Approach Advantages</i>	107
<i>Approach Limitations</i>	110
Functional Cost Allocation Methodology	110
Functional-Basis Allocation of Net Plant Investment and Payment-in-Lieu-of-Taxes	113
<i>Net Capital Costs</i>	113
<i>Payment-in-Lieu-of-Taxes</i>	115

<i>Operations and Maintenance Expenses</i>	115
Exceptions for Operations and Maintenance Expense Allocations	115
<i>Approach Advantages</i>	118
<i>Approach Limitations</i>	119
Summary	120
Suggested Reading	120

Chapter 7 Distribution of Costs-of-Service to Customer Classes

Introduction	121
Customer Classes	123
Classification Factors	123
Classification Approaches	126
Units of Service	129
Wastewater Volumes	129
Wastewater Strengths	133
Customer Service	133
Other Units of Service	133
Plant Balance Analysis	134
Summary of Customer Class Units of Service	134
Unit Costs and Distribution of Costs to Customer Classes	138
Communal and Specific Costs	141
Return on Investment	141
Summary	142
Reference	142
Suggested Reading	142

Chapter 8 Development and Design of a Schedule of Rates and Charges

Introduction	144
Selection of Rate Forms	144

Rate Components	146
<i>Fixed Charges</i>	146
<i>Volume Rates</i>	147
<i>Constituent Rates</i>	147
<i>Advantages</i>	148
<i>Disadvantages</i>	148
Rate Evaluation Matrix	148
Determination of Billing Units	148
Development of the Rate Schedule	149
Systemwide Uniform Volume Rates	152
Industrial Waste Surcharges and Pretreatment	152
Uniform Rates by Customer Class	153
Bill Impact Analysis	157
Wholesale and Contract Customers	160
Policy-Based Adjustments	161
Low-Income Affordability	161
Economic Development and Business Retention	162
Rate Transitioning	162
Implementation Issues	162
Data and Billing System Constraints	162
Ordinances	163
Summary	163
Reference	163

Chapter 9 Rates for Reuse or Reclaimed Water

Introduction	165
What Is Reclaimed Water Used For?	166
Reclaimed Water: Water Supply or Wastewater Disposal	166
Pricing Issues	168
Cost of Reclaimed Water	168

Reclaimed Water Quality	169
Retrofitting	169
Nutrient Value	169
Reliability	170
Market Value	170
Peaking Factors	171
Public Opinion	171
Ratemaking Approaches	172
Rate Approaches	173
Compile Data	173
Organize Data	173
Determine User-Charge Revenue Requirements	174
Cost Allocation	174
Rate Structure Design	175
Fixed Service Charge	176
Commodity Rates	176
Percentage of Water Price	177
Negotiated Rates	178
System Development Charge	178
References	179

Chapter 10 System Development Charges

Introduction	181
Planning and Legal Requirements	183
Planning	183
Legal Guidelines	184
<i>Right of Local Governments to Regulate Development</i>	185
<i>Regulation versus Taxation</i>	185
<i>Banberry Factors (Standards of Reasonableness)</i>	185
<i>Rational Nexus</i>	186

<i>Good Faith Intent</i>	186
System Development Charge Calculation	187
Fee Structure	187
<i>Buy-In Approach</i>	187
System Valuation	189
Capacity Determination	190
<i>Marginal or Incremental Approach</i>	191
<i>Combined Fee Approach</i>	192
Fee Schedule	193
<i>Scaling Measures</i>	193
<i>Geographic Area</i>	195
Local On-Site Facilities Charges Approaches	195
Program Evaluation	196
References	197
Suggested Reading	198

Chapter 11 Implementation Rate Studies

Introduction	200
Planning for Implementation	200
Implementation Requirements	200
Stakeholder Interests Influencing Implementation	201
Implementation Plans	203
Phased Approach	203
Initial Review of Implementation Requirements	205
Evaluating Planning Needs	205
<i>Ratemaking Objectives</i>	205
<i>Implementation Issues and Concerns</i>	206
<i>Implementation Constraints</i>	206
Determine the Implementation Approach	206
<i>Staff Meetings</i>	207
<i>Legal Briefings</i>	207
<i>Workshops and Worksessions</i>	207

Briefings with Elected Officials	207
Public Outreach Programs	207
Citizens' Advisory Committee Meetings	208
Develop Implementation Plan	208
Plan Elements	208
Communication Protocols	208
Stakeholder Involvement	208
Resource Requirements	209
Rate Study Implementation	209
Ongoing Implementation	209
Scheduling	209
Execute Implementation Plan	210
Rate Study Implementation	210
Rate Study Initiation	210
Rate Analysis	211
Rate Adoption	212
Ongoing Implementation	212
Billing System Modifications	212
Customer Service Requirements	213
Monitoring Results	214
Future Updates	214
Conclusion	215
Reference	216

Chapter 12 Affordability

Introduction	217
Affordability Standards	218
Affordability Thresholds	220
U.S. Environmental Protection Agency	220
Other Thresholds	221
Opportunities for Enhancing Affordability	223

Cost Reduction	223
Rate Structure	224
Targeted Low-Income Program	226
Expand Customer Base	227
Monitoring Affordability	228
Overview of Affordability	229
Conclusions	230
References	231

Appendix A Utility Approach to Cost Allocation

Introduction	233
Utility Approach	234
Revenue Requirements Definition	235
Revenue Requirements Comparison	236
Depreciation	237
Return	237
Risk	239
Design-Basis Cost Allocation Methodology	240
Allocation of Net Plant Investment and Payment-in-Lieu-of-Taxes to Cost Components	240
Payment-in-Lieu-of-Taxes	240
Depreciation	240
Operations and Maintenance Expenses	244
Return	245
Units of Service	245
Unit Costs-of-Service	248
Distribution of Costs to Customer Classes	251
Comparison of Differential and System Rates of Return	254
Summary	255

Appendix B Municipal Utility Case Law

Overview of Municipal Utility Case Law	257
Suggested Readings	263
Index	267
