## Part 1 Overview of Corporate Finance

### CHAPTER 1

#### INTRODUCTION TO CORPORATE FINANCE 1

##### 1.1 Corporate Finance and the Financial Manager 2

What Is Corporate Finance? 2

The Financial Manager 2

Financial Management Decisions 2

Capital Budgeting 2

Capital Structure 3

Working Capital Management 4

Conclusion 4

##### 1.2 Forms of Business Organization 4

Sole Proprietorship 4

Partnership 5

Corporation 5

A Corporation by Another Name . . . 7

##### 1.3 The Goal of Financial Management 7

Possible Goals 8

The Goal of Financial Management 8

A More General Goal 9

Sarbanes-Oxley 9

##### 1.4 The Agency Problem and Control of the Corporation 10

Agency Relationships 10

Management Goals 10

Do Managers Act in the Stockholders' Interests? 11

Managerial Compensation 11

Control of the Firm 12

Conclusion 12

Stakeholders 12

##### 1.5 Financial Markets and the Corporation 13

Cash Flows to and from the Firm 14

Primary versus Secondary Markets 14

Primary Markets 14

Secondary Markets 15

Dealer versus Auction Markets 15

Trading in Corporate Securities 15

Listing 16

##### 1.6 Summary and Conclusions 16

### CHAPTER 2

#### FINANCIAL STATEMENTS, TAXES, AND CASH FLOW 20

##### 2.1 The Balance Sheet 21

Assets: The Left Side 21

Liabilities and Owners' Equity: The Right Side 21

Net Working Capital 22

Liquidity 23

Debt versus Equity 24

Market Value versus Book Value 24

##### 2.2 The Income Statement 25

GAAP and the Income Statement 26

Noncash Items 27

Time and Costs 27

##### 2.3 Taxes 29

Corporate Tax Rates 30

Average versus Marginal Tax Rates 30

##### 2.4 Cash Flow 32

Cash Flow from Assets 32

Operating Cash Flow 33

Capital Spending 33

Change in Net Working Capital 34

Conclusion 34

A Note about "Free" Cash Flow 35

Cash Flow to Creditors and Stockholders 35

Cash Flow to Creditors 35

Cash Flow to Stockholders 35

An Example: Cash Flows for Dole Cola 37

Operating Cash Flow 37

Net Capital Spending 38

Change in NWC and Cash Flow from Assets 38

Cash Flow to Stockholders and Creditors 38

##### 2.5 Summary and Conclusions 39

## PART 2 Financial Statements and Long-Term Financial Planning

### CHAPTER 3

#### WORKING WITH FINANCIAL STATEMENTS 48

##### 3.1 Cash Flow and Financial Statements: A Closer Look 49

Sources and Uses of Cash 49

The Statement of Cash Flows 51

##### 3.2 Standardized Financial Statements 53

Common-Size Statements 53

Common-Size Balance Sheets 53

Common-Size Income Statements 54

Common-Size Statements of Cash Flows 55

Common-Base Year Financial Statements:

Trend Analysis 55

Combined Common-Size and Base Year Analysis 55

|  |           |
|--|-----------|
| <b>3.3 Ratio Analysis</b>                                    | <b>56</b> |
| Short-Term Solvency, or Liquidity, Measures                  | 57        |
| Current Ratio  | 57        |
| The Quick (or Acid-Test) Ratio                               | 58        |
| Other Liquidity Ratios                                       | 59        |
| Long-Term Solvency Measures                                  | 59        |
| Total Debt Ratio   | 59        |
| A Brief Digression: Total Capitalization versus Total Assets | 60        |
| Times Interest Earned  | 60        |
| Cash Coverage  | 61        |
| Asset Management, or Turnover, Measures                      | 61        |
| Inventory Turnover and Days' Sales in Inventory              | 61        |
| Receivables Turnover and Days' Sales in Receivables          | 62        |
| Asset Turnover Ratios  | 63        |
| Profitability Measures                                       | 63        |
| Profit Margin  | 64        |
| Return on Assets   | 64        |
| Return on Equity   | 64        |
| Market Value Measures  | 65        |
| Price-Earnings Ratio   | 65        |
| Price-Sales Ratio  | 65        |
| Market-to-Book Ratio   | 66        |
| Enterprise Value-EBITDA Ratio                                | 66        |
| Conclusion   | 67        |
| <b>3.4 The DuPont Identity</b>                               | <b>68</b> |
| A Closer Look at ROE   | 68        |
| An Expanded DuPont Analysis                                  | 69        |
| <b>3.5 Using Financial Statement Information</b>             | <b>71</b> |
| Why Evaluate Financial Statements?                           | 71        |
| Internal Uses  | 72        |
| External Uses  | 72        |
| Choosing a Benchmark   | 72        |
| Time Trend Analysis  | 72        |
| Peer Group Analysis  | 72        |
| Problems with Financial Statement Analysis                   | 77        |
| <b>3.6 Summary and Conclusions</b>                           | <b>78</b> |

## CHAPTER 4

### LONG-TERM FINANCIAL PLANNING AND GROWTH 90

|   |            |
|---|------------|
| <b>4.1 What Is Financial Planning?</b>                      | <b>92</b>  |
| Growth as a Financial Management Goal                       | 92         |
| Dimensions of Financial Planning                            | 92         |
| What Can Planning Accomplish?                               | 93         |
| Examining Interactions                                      | 93         |
| Exploring Options   | 93         |
| Avoiding Surprises  | 93         |
| Ensuring Feasibility and Internal Consistency               | 94         |
| Conclusion  | 94         |
| <b>4.2 Financial Planning Models: A First Look</b>          | <b>94</b>  |
| A Financial Planning Model: The Ingredients                 | 94         |
| Sales Forecast  | 94         |
| Pro Forma Statements  | 95         |
| Asset Requirements  | 95         |
| Financial Requirements                                      | 95         |
| The Plug  | 95         |
| Economic Assumptions  | 96         |
| A Simple Financial Planning Model                           | 96         |
| <b>4.3 The Percentage of Sales Approach</b>                 | <b>97</b>  |
| The Income Statement  | 97         |
| The Balance Sheet   | 98         |
| A Particular Scenario                                       | 100        |
| An Alternative Scenario                                     | 101        |
| <b>4.4 External Financing and Growth</b>                    | <b>104</b> |
| EFN and Growth  | 104        |
| Financial Policy and Growth                                 | 106        |
| The Internal Growth Rate                                    | 106        |
| The Sustainable Growth Rate                                 | 107        |
| Determinants of Growth                                      | 108        |
| A Note about Sustainable Growth Rate Calculations           | 110        |
| <b>4.5 Some Caveats regarding Financial Planning Models</b> | <b>111</b> |
| <b>4.6 Summary and Conclusions</b>                          | <b>112</b> |

## PART 3 Valuation of Future Cash Flows

### CHAPTER 5

#### INTRODUCTION TO VALUATION: THE TIME VALUE OF MONEY 122

|   |            |
|---|------------|
| <b>5.1 Future Value and Compounding</b>         | <b>123</b> |
| Investing for a Single Period                   | 123        |
| Investing for More Than One Period              | 123        |
| A Note about Compound Growth                    | 129        |
| <b>5.2 Present Value and Discounting</b>        | <b>130</b> |
| The Single-Period Case                          | 130        |
| Present Values for Multiple Periods             | 131        |
| <b>5.3 More about Present and Future Values</b> | <b>133</b> |
| Present versus Future Value                     | 134        |
| Determining the Discount Rate                   | 134        |
| Finding the Number of Periods                   | 138        |
| <b>5.4 Summary and Conclusions</b>              | <b>141</b> |

**CHAPTER 6****DISCOUNTED CASH FLOW VALUATION 147**

- 6.1 Future and Present Values of Multiple Cash Flows 148**
  - Future Value with Multiple Cash Flows 148
  - Present Value with Multiple Cash Flows 151
  - A Note about Cash Flow Timing 154
- 6.2 Valuing Level Cash Flows: Annuities and Perpetuities 155**
  - Present Value for Annuity Cash Flows 155
    - Annuity Tables 156
    - Finding the Payment 158
    - Finding the Rate 159
  - Future Value for Annuities 161
  - A Note about Annuities Due 162
  - Perpetuities 163
  - Growing Annuities and Perpetuities 165
- 6.3 Comparing Rates: The Effect of Compounding 165**
  - Effective Annual Rates and Compounding 166
  - Calculating and Comparing Effective Annual Rates 166
  - EARS and APRS 168
  - Taking It to the Limit: A Note about Continuous Compounding 170
- 6.4 Loan Types and Loan Amortization 171**
  - Pure Discount Loans 171
  - Interest-Only Loans 172
  - Amortized Loans 172
- 6.5 Summary and Conclusions 177**

**CHAPTER 7****INTEREST RATES AND BOND VALUATION 192**

- 7.1 Bonds and Bond Valuation 193**
  - Bond Features and Prices 193
  - Bond Values and Yields 193
  - Interest Rate Risk 197
  - Finding the Yield to Maturity: More Trial and Error 198
- 7.2 More about Bond Features 203**
  - Is It Debt or Equity? 203
  - Long-Term Debt: The Basics 203
  - The Indenture 205
    - Terms of a Bond 205
    - Security 206
    - Seniority 206
    - Repayment 206
    - The Call Provision 207
    - Protective Covenants 207
- 7.3 Bond Ratings 208**
- 7.4 Some Different Types of Bonds 209**
  - Government Bonds 209
  - Zero Coupon Bonds 210
  - Floating-Rate Bonds 211

Other Types of Bonds 212

Sukuk 214

- 7.5 Bond Markets 215**
  - How Bonds Are Bought and Sold 216
  - Bond Price Reporting 216
  - A Note about Bond Price Quotes 217
- 7.6 Inflation and Interest Rates 219**
  - Real versus Nominal Rates 219
  - The Fisher Effect 220
  - Inflation and Present Values 221
- 7.7 Determinants of Bond Yields 222**
  - The Term Structure of Interest Rates 222
  - Bond Yields and the Yield Curve: Putting It All Together 223
  - Conclusion 225
- 7.8 Summary and Conclusions 226**

**CHAPTER 8****STOCK VALUATION 234**

- 8.1 Common Stock Valuation 235**
  - Cash Flows 235
  - Some Special Cases 237
    - Zero Growth 237
    - Constant Growth 237
    - Nonconstant Growth 240
    - Two-Stage Growth 242
  - Components of the Required Return 243
  - Stock Valuation Using Multiples 244
- 8.2 Some Features of Common and Preferred Stocks 246**
  - Common Stock Features 246
    - Shareholder Rights 246
    - Proxy Voting 247
    - Classes of Stock 247
    - Other Rights 248
    - Dividends 248
  - Preferred Stock Features 249
    - Stated Value 249
    - Cumulative and Noncumulative Dividends 249
    - Is Preferred Stock Really Debt? 249
- 8.3 The Stock Markets 250**
  - Dealers and Brokers 250
  - Organization of the NYSE 251
    - Members 251
    - Operations 252
    - Floor Activity 252
  - NASDAQ Operations 253
    - ECNs 254
  - Stock Market Reporting 254
- 8.4 Summary and Conclusions 256**

## PART 4 Capital Budgeting

### CHAPTER 9

#### NET PRESENT VALUE AND OTHER INVESTMENT CRITERIA 266

- 9.1 **Net Present Value** 267
  - The Basic Idea 267
  - Estimating Net Present Value 268
- 9.2 **The Payback Rule** 271
  - Defining the Rule 271
  - Analyzing the Rule 272
  - Redeeming Qualities of the Rule 273
  - Summary of the Rule 274
- 9.3 **The Discounted Payback** 274
- 9.4 **The Average Accounting Return** 277
- 9.5 **The Internal Rate of Return** 279
  - Problems with the IRR 283
    - Nonconventional Cash Flows 283
    - Mutually Exclusive Investments 285
    - Investing or Financing? 287
  - Redeeming Qualities of the IRR 288
  - The Modified Internal Rate of Return (MIRR) 289
    - Method #1: The Discounting Approach 289
    - Method #2: The Reinvestment Approach 289
    - Method #3: The Combination Approach 289
    - MIRR or IRR: Which Is Better? 290
- 9.6 **The Profitability Index** 290
- 9.7 **The Practice of Capital Budgeting** 291
- 9.8 **Summary and Conclusions** 294

### CHAPTER 10

#### MAKING CAPITAL INVESTMENT DECISIONS 305

- 10.1 **Project Cash Flows: A First Look** 306
  - Relevant Cash Flows 306
  - The Stand-Alone Principle 306
- 10.2 **Incremental Cash Flows** 307
  - Sunk Costs 307
  - Opportunity Costs 307
  - Side Effects 308
  - Net Working Capital 308
  - Financing Costs 308
  - Other Issues 309
- 10.3 **Pro Forma Financial Statements and Project Cash Flows** 309
  - Getting Started: Pro Forma Financial Statements 309
  - Project Cash Flows 310
    - Project Operating Cash Flow 310
    - Project Net Working Capital and Capital Spending 311
  - Projected Total Cash Flow and Value 311

#### 10.4 More about Project Cash Flow 312

- A Closer Look at Net Working Capital 312
- Depreciation 315
  - Modified ACRS Depreciation (MACRS) 315
  - Book Value versus Market Value 316
- An Example: The Majestic Mulch and Compost Company (MMCC) 318
  - Operating Cash Flows 318
  - Change in NWC 318
  - Capital Spending 321
  - Total Cash Flow and Value 321
  - Conclusion 321

#### 10.5 Alternative Definitions of Operating Cash Flow 322

- The Bottom-Up Approach 323
- The Top-Down Approach 323
- The Tax Shield Approach 323
- Conclusion 324

#### 10.6 Some Special Cases of Discounted Cash Flow Analysis 324

- Evaluating Cost-Cutting Proposals 324
- Setting the Bid Price 326
- Evaluating Equipment Options with Different Lives 328

#### 10.7 Summary and Conclusions 330

### CHAPTER 11

#### PROJECT ANALYSIS AND EVALUATION 343

#### 11.1 Evaluating NPV Estimates 344

- The Basic Problem 344
- Projected versus Actual Cash Flows 344
- Forecasting Risk 344
- Sources of Value 345

#### 11.2 Scenario and Other What-If Analyses 346

- Getting Started 346
- Scenario Analysis 347
- Sensitivity Analysis 349
- Simulation Analysis 350

#### 11.3 Break-Even Analysis 351

- Fixed and Variable Costs 351
  - Variable Costs 351
  - Fixed Costs 353
  - Total Costs 353
- Accounting Break-Even 354
- Accounting Break-Even: A Closer Look 355
- Uses for the Accounting Break-Even 356

#### 11.4 Operating Cash Flow, Sales Volume, and Break-Even 357

- Accounting Break-Even and Cash Flow 357
- The Base Case 357

|  |     |
|--|-----|
| Calculating the Break-Even Level                       | 358 |
| Payback and Break-Even                                 | 358 |
| Sales Volume and Operating Cash Flow                   | 358 |
| Cash Flow, Accounting, and Financial Break-Even Points | 359 |
| Accounting Break-Even Revisited                        | 359 |
| Cash Break-Even  | 360 |
| Financial Break-Even                                   | 360 |
| Conclusion   | 360 |

|                                    |     |
|------------------------------------|-----|
| 11.5 Operating Leverage            | 362 |
| The Basic Idea                     | 362 |
| Implications of Operating Leverage | 362 |
| Measuring Operating Leverage       | 362 |
| Operating Leverage and Break-Even  | 364 |

## PART 5 Risk and Return

### CHAPTER 12

#### SOME LESSONS FROM CAPITAL MARKET HISTORY 374

|  |     |
|--|-----|
| 12.1 Returns   | 375 |
| Dollar Returns   | 375 |
| Percentage Returns                                     | 377 |
| 12.2 The Historical Record                             | 379 |
| A First Look   | 379 |
| A Closer Look  | 381 |
| 12.3 Average Returns: The First Lesson                 | 385 |
| Calculating Average Returns                            | 385 |
| Average Returns: The Historical Record                 | 385 |
| Risk Premiums  | 386 |
| The First Lesson                                       | 386 |
| 12.4 The Variability of Returns: The Second Lesson     | 387 |
| Frequency Distributions and Variability                | 387 |
| The Historical Variance and Standard Deviation         | 388 |
| The Historical Record                                  | 390 |
| Normal Distribution                                    | 391 |
| The Second Lesson                                      | 392 |
| 2008: The Bear Growled and Investors Howled            | 392 |
| Using Capital Market History                           | 394 |
| More on the Stock Market Risk Premium                  | 394 |
| 12.5 More about Average Returns                        | 396 |
| Arithmetic versus Geometric Averages                   | 396 |
| Calculating Geometric Average Returns                  | 396 |
| Arithmetic Average Return or Geometric Average Return? | 399 |
| 12.6 Capital Market Efficiency                         | 400 |
| Price Behavior in an Efficient Market                  | 400 |
| The Efficient Markets Hypothesis                       | 401 |
| Some Common Misconceptions about the EMH               | 402 |
| The Forms of Market Efficiency                         | 403 |
| 12.7 Summary and Conclusions                           | 404 |

### CHAPTER 13

#### RETURN, RISK, AND THE SECURITY MARKET LINE 412

|   |     |
|---|-----|
| 13.1 Expected Returns and Variances                               | 413 |
| Expected Return   | 413 |
| Calculating the Variance  | 415 |
| 13.2 Portfolios   | 416 |
| Portfolio Weights   | 417 |
| Portfolio Expected Returns  | 417 |
| Portfolio Variance  | 418 |
| 13.3 Announcements, Surprises, and Expected Returns               | 420 |
| Expected and Unexpected Returns                                   | 420 |
| Announcements and News  | 420 |
| 13.4 Risk: Systematic and Unsystematic                            | 422 |
| Systematic and Unsystematic Risk                                  | 422 |
| Systematic and Unsystematic Components of Return                  | 422 |
| 13.5 Diversification and Portfolio Risk                           | 423 |
| The Effect of Diversification: Another Lesson from Market History | 423 |
| The Principle of Diversification                                  | 424 |
| Diversification and Unsystematic Risk                             | 425 |
| Diversification and Systematic Risk                               | 426 |
| 13.6 Systematic Risk and Beta                                     | 426 |
| The Systematic Risk Principle                                     | 427 |
| Measuring Systematic Risk   | 427 |
| Portfolio Betas   | 429 |
| 13.7 The Security Market Line                                     | 430 |
| Beta and the Risk Premium   | 430 |
| The Reward-to-Risk Ratio  | 431 |
| The Basic Argument  | 432 |
| The Fundamental Result  | 434 |
| The Security Market Line  | 435 |
| Market Portfolios   | 435 |
| The Capital Asset Pricing Model                                   | 435 |
| 13.8 The SML and the Cost of Capital: A Preview                   | 438 |
| The Basic Idea  | 438 |
| The Cost of Capital   | 438 |
| 13.9 Summary and Conclusions                                      | 439 |

## PART 6 Cost of Capital and Long-Term Financial Policy

### CHAPTER 14

#### COST OF CAPITAL 449

- 14.1 The Cost of Capital: Some Preliminaries 450**
  - Required Return versus Cost of Capital 450
  - Financial Policy and Cost of Capital 451
- 14.2 The Cost of Equity 451**
  - The Dividend Growth Model Approach 451
    - Implementing the Approach 451*
    - Estimating g 452*
    - Advantages and Disadvantages of the Approach 453*
  - The SML Approach 453
    - Implementing the Approach 454*
    - Advantages and Disadvantages of the Approach 454*
- 14.3 The Costs of Debt and Preferred Stock 455**
  - The Cost of Debt 455
  - The Cost of Preferred Stock 456
- 14.4 The Weighted Average Cost of Capital 457**
  - The Capital Structure Weights 457
  - Taxes and the Weighted Average Cost of Capital 458
  - Calculating the WACC for Eastman Chemical 459
    - Eastman's Cost of Equity 459*
    - Eastman's Cost of Debt 461*
    - Eastman's WACC 462*
  - Solving the Warehouse Problem and Similar Capital Budgeting Problems 462
  - Performance Evaluation: Another Use of the WACC 465
- 14.5 Divisional and Project Costs of Capital 466**
  - The SML and the WACC 467
  - Divisional Cost of Capital 468
  - The Pure Play Approach 468
  - The Subjective Approach 469
- 14.6 Flotation Costs and the Weighted Average Cost of Capital 470**
  - The Basic Approach 471
  - Flotation Costs and NPV 472
  - Internal Equity and Flotation Costs 473
- 14.7 Summary and Conclusions 474**

### CHAPTER 15

#### RAISING CAPITAL 483

- 15.1 The Financing Life Cycle of a Firm: Early-Stage Financing and Venture Capital 484**
  - Venture Capital 484
  - Some Venture Capital Realities 485
  - Choosing a Venture Capitalist 485
  - Conclusion 486
- 15.2 Selling Securities to the Public: The Basic Procedure 486**

#### 15.3 Alternative Issue Methods 487

#### 15.4 Underwriters 489

- Choosing an Underwriter 490
- Types of Underwriting 490
  - Firm Commitment Underwriting 490*
  - Best Efforts Underwriting 491*
  - Dutch Auction Underwriting 491*
- The Aftermarket 491
- The Green Shoe Provision 492
- Lockup Agreements 492
- The Quiet Period 492

#### 15.5 IPOs and Underpricing 493

- IPO Underpricing: The 1999–2000 Experience 493
- Evidence on Underpricing 493
- Why Does Underpricing Exist? 498

#### 15.6 New Equity Sales and the Value of the Firm 499

#### 15.7 The Costs of Issuing Securities 500

- The Costs of Selling Stock to the Public 500
- The Costs of Going Public: A Case Study 504

#### 15.8 Rights 504

- The Mechanics of a Rights Offering 504
- Number of Rights Needed to Purchase a Share 505
- The Value of a Right 506
- Ex Rights 508
- The Underwriting Arrangements 509
- Effects on Shareholders 509

#### 15.9 Dilution 510

- Dilution of Proportionate Ownership 510
- Dilution of Value: Book versus Market Values 510
  - A Misconception 511*
  - The Correct Arguments 512*

#### 15.10 Issuing Long-Term Debt 512

#### 15.11 Shelf Registration 513

#### 15.12 Summary and Conclusions 514

### CHAPTER 16

#### FINANCIAL LEVERAGE AND CAPITAL STRUCTURE POLICY 521

#### 16.1 The Capital Structure Question 522

- Firm Value and Stock Value: An Example 522
- Capital Structure and the Cost of Capital 523

#### 16.2 The Effect of Financial Leverage 524

- The Basics of Financial Leverage 524
  - Financial Leverage, EPS, and ROE: An Example 524*
  - EPS versus EBIT 525*
- Corporate Borrowing and Homemade Leverage 527

#### 16.3 Capital Structure and the Cost of Equity Capital 528

- M&M Proposition I: The Pie Model 528

|  |  |            |
|--|--|------------|
|  | The Cost of Equity and Financial Leverage: M&M Proposition II          | 529        |
|  | Business and Financial Risk  | 531        |
| <b>16.4</b>                            | <b>M&amp;M Propositions I and II with Corporate Taxes</b>              | <b>532</b> |
|  | The Interest Tax Shield  | 533        |
|  | Taxes and M&M Proposition I  | 533        |
|  | Taxes, the WACC, and Proposition II                                    | 534        |
|  | Conclusion   | 535        |
| <b>16.5</b>                            | <b>Bankruptcy Costs</b>  | <b>537</b> |
|  | Direct Bankruptcy Costs  | 538        |
|  | Indirect Bankruptcy Costs  | 538        |
| <b>16.6</b>                            | <b>Optimal Capital Structure</b>                                       | <b>539</b> |
|  | The Static Theory of Capital Structure                                 | 539        |
|  | Optimal Capital Structure and the Cost of Capital                      | 540        |
|  | Optimal Capital Structure: A Recap                                     | 541        |
|  | Capital Structure: Some Managerial Recommendations                     | 543        |
|  | Taxes  | 543        |
|  | Financial Distress   | 543        |
| <b>16.7</b>                            | <b>The Pie Again</b>   | <b>543</b> |
|  | The Extended Pie Model   | 544        |
|  | Marketed Claims versus Nonmarketed Claims                              | 545        |
| <b>16.8</b>                            | <b>The Pecking-Order Theory</b>  | <b>545</b> |
|  | Internal Financing and the Pecking Order                               | 545        |
|  | Implications of the Pecking Order                                      | 546        |
| <b>16.9</b>                            | <b>Observed Capital Structures</b>                                     | <b>547</b> |

## PART 7 Short-Term Financial Planning and Management

### CHAPTER 18

#### SHORT-TERM FINANCE AND PLANNING 593

- 18.1 **Tracing Cash and Net Working Capital** 594
- 18.2 **The Operating Cycle and the Cash Cycle** 595
  - Defining the Operating and Cash Cycles 596
    - The Operating Cycle* 596
    - The Cash Cycle* 596
  - The Operating Cycle and the Firm's Organizational Chart 597
  - Calculating the Operating and Cash Cycles 598
    - The Operating Cycle* 599
    - The Cash Cycle* 600
  - Interpreting the Cash Cycle 601
- 18.3 **Some Aspects of Short-Term Financial Policy** 601
  - The Size of the Firm's Investment in Current Assets 602
  - Alternative Financing Policies for Current Assets 603
    - An Ideal Case* 603
    - Different Policies for Financing Current Assets* 603
  - Which Financing Policy Is Best? 606
  - Current Assets and Liabilities in Practice 607
- 18.4 **The Cash Budget** 608
  - Sales And Cash Collections 608
  - Cash Outflows 609
  - The Cash Balance 609
- 18.5 **Short-Term Borrowing** 610
  - Unsecured Loans 611
    - Compensating Balances* 611
    - Cost of a Compensating Balance* 611
    - Letters of Credit* 612
  - Secured Loans 612
    - Accounts Receivable Financing* 612
    - Inventory Loans* 613
  - Other Sources 613
- 18.6 **A Short-Term Financial Plan** 614
- 18.7 **Summary and Conclusions** 615

### CHAPTER 19

#### CASH AND LIQUIDITY MANAGEMENT 626

- 19.1 **Reasons for Holding Cash** 627
  - The Speculative and Precautionary Motives 627
  - The Transaction Motive 627
  - Compensating Balances 627
  - Costs of Holding Cash 627
  - Cash Management versus Liquidity Management 628

#### 19.2 **Understanding Float** 628

- Disbursement Float 628
- Collection Float and Net Float 629
- Float Management 630
  - Measuring Float* 630
  - Some Details* 631
  - Cost of the Float* 631
  - Ethical and Legal Questions* 633
- Electronic Data Interchange and Check 21: The End of Float? 634

#### 19.3 **Cash Collection and Concentration** 635

- Components of Collection Time 635
- Cash Collection 635
- Lockboxes 635
- Cash Concentration 637
- Accelerating Collections: An Example 638

#### 19.4 **Managing Cash Disbursements** 639

- Increasing Disbursement Float 639
- Controlling Disbursements 640
  - Zero-Balance Accounts* 640
  - Controlled Disbursement Accounts* 641

#### 19.5 **Investing Idle Cash** 641

- Temporary Cash Surpluses 641
  - Seasonal or Cyclical Activities* 641
  - Planned or Possible Expenditures* 641
- Characteristics of Short-Term Securities 642
  - Maturity* 642
  - Default Risk* 642
  - Marketability* 642
  - Taxes* 642
- Some Different Types of Money Market Securities 643

#### 19.6 **Summary and Conclusions** 644

#### 19A **Determining the Target Cash Balance** 649

- The Basic Idea 649
- The BAT Model 650
  - The Opportunity Costs* 651
  - The Trading Costs* 652
  - The Total Cost* 652
  - The Solution* 652
  - Conclusion* 654
- The Miller–Orr Model: A More General Approach 654
  - The Basic Idea* 654
  - Using the Model* 654
- Implications of the BAT and Miller–Orr Models 655
- Other Factors Influencing the Target Cash Balance 656

**CHAPTER 20****CREDIT AND INVENTORY MANAGEMENT 659****20.1 Credit and Receivables 660**

Components of Credit Policy 660

The Cash Flows from Granting Credit 660

The Investment in Receivables 661

**20.2 Terms of the Sale 661**

The Basic Form 662

The Credit Period 662

*The Invoice Date* 662*Length of the Credit Period* 662

## CHAPTER 24

### OPTIONS AND CORPORATE FINANCE 777

#### **24.1 Options: The Basics 778**

- Puts and Calls 778
- Stock Option Quotations 779
- Option Payoffs 780

#### **24.2 Fundamentals of Option Valuation 783**

- Value of a Call Option at Expiration 783
- The Upper and Lower Bounds on a Call Option's Value 784

*The Upper Bound 784*

*The Lower Bound 784*

A Simple Model: Part I 786

*The Basic Approach 786*

*A More Complicated Case 786*

Four Factors Determining Option Values 787

#### **24.3 Valuing a Call Option 788**

- A Simple Model: Part II 788
- The Fifth Factor 789
- A Closer Look 790

#### **24.4 Employee Stock Options 791**

- ESO Features 791
- ESO Repricing 792
- ESO Backdating 793

- 24.5 Equity as a Call Option on the Firm's Assets** 794  
     Case I: The Debt Is Risk-Free 794  
     Case II: The Debt Is Risky 794
- 24.6 Options and Capital Budgeting** 796  
     The Investment Timing Decision 796  
     Managerial Options 798  
         Contingency Planning 799  
         Options in Capital Budgeting: An Example 800  
         Strategic Options 801  
         Conclusion 801
- 24.7 Options and Corporate Securities** 801  
     Warrants 801  
         The Difference between Warrants and Call Options 802  
         Earnings Dilution 802  
     Convertible Bonds 803  
         Features of a Convertible Bond 803  
         Value of a Convertible Bond 803  
     Other Options 805  
         The Call Provision on a Bond 805  
         Put Bonds 805  
         Insurance and Loan Guarantees 806
- 24.8 Summary and Conclusions** 806

## CHAPTER 25

### OPTION VALUATION 816

- 25.1 Put-Call Parity** 817  
     Protective Puts 817  
     An Alternative Strategy 817  
     The Result 818  
     Continuous Compounding: A Refresher Course 819
- 25.2 The Black-Scholes Option Pricing Model** 822  
     The Call Option Pricing Formula 822  
     Put Option Valuation 825  
     A Cautionary Note 826
- 25.3 More about Black-Scholes** 827  
     Varying the Stock Price 827  
     Varying the Time to Expiration 830  
     Varying the Standard Deviation 831  
     Varying the Risk-Free Rate 832  
     Implied Standard Deviations 832
- 25.4 Valuation of Equity and Debt in a Leveraged Firm** 835  
     Valuing the Equity in a Leveraged Firm 835  
     Options and the Valuation of Risky Bonds 836

- 25.5 Options and Corporate Decisions: Some Applications** 838  
     Mergers and Diversification 838  
     Options and Capital Budgeting 839
- 25.6 Summary and Conclusions** 841

## CHAPTER 26

### MERGERS AND ACQUISITIONS 848

- 26.1 The Legal Forms of Acquisitions** 849  
     Merger or Consolidation 849  
     Acquisition of Stock 850  
     Acquisition of Assets 850  
     Acquisition Classifications 851  
     A Note about Takeovers 851  
     Alternatives to Merger 852
- 26.2 Taxes and Acquisitions** 852  
     Determinants of Tax Status 852  
     Taxable versus Tax-Free Acquisitions 852
- 26.3 Accounting for Acquisitions** 853  
     The Purchase Method 853  
     Pooling of Interests 854  
     More about Goodwill 854
- 26.4 Gains from Acquisitions** 855  
     Synergy 855  
     Revenue Enhancement 856  
         Marketing Gains 856  
         Strategic Benefits 857  
         Market Power 857  
     Cost Reductions 857  
         Economies of Scale 857  
         Economies of Vertical Integration 858  
         Complementary Resources 858  
     Lower Taxes 858  
         Net Operating Losses 858  
         Unused Debt Capacity 859  
         Surplus Funds 859  
         Asset Write-Ups 859  
     Reductions in Capital Needs 859  
     Avoiding Mistakes 860  
     A Note about Inefficient Management 861
- 26.5 Some Financial Side Effects of Acquisitions** 861  
     EPS Growth 861  
     Diversification 862

- 26.6 The Cost of an Acquisition** 863
  - Case I: Cash Acquisition 863
  - Case II: Stock Acquisition 864
  - Cash versus Common Stock 864
- 26.7 Defensive Tactics** 865
  - The Corporate Charter 865
  - Repurchase and Standstill Agreements 866
  - Poison Pills and Share Rights Plans 866
  - Going Private and Leveraged Buyouts 867
  - Other Devices and Jargon of Corporate Takeovers 867
- 26.8 Some Evidence on Acquisitions: Does M&A Pay?** 869
- 26.9 Divestitures and Restructurings** 870
- 26.10 Summary and Conclusions** 871

## CHAPTER 27

### LEASING 880

- 27.1 Leases and Lease Types** 881
  - Leasing versus Buying 881
  - Operating Leases 882
  - Financial Leases 882
    - Tax-Oriented Leases* 883
    - Leveraged Leases* 883
    - Sale and Leaseback Agreements* 883
- 27.2 Accounting and Leasing** 883
- 27.3 Taxes, the IRS, and Leases** 885
- 27.4 The Cash Flows from Leasing** 886
  - The Incremental Cash Flows 886
  - A Note about Taxes 887
- 27.5 Lease or Buy?** 888
  - A Preliminary Analysis 888
  - Three Potential Pitfalls 888

NPV Analysis 889

A Misconception 889

### **27.6 A Leasing Paradox** 891

### **27.7 Reasons for Leasing** 892

Good Reasons for Leasing 892

*Tax Advantages* 892

*A Reduction of Uncertainty* 893

*Lower Transactions Costs* 893

*Fewer Restrictions and Security Requirements* 893

Dubious Reasons for Leasing 893

*Leasing and Accounting Income* 893

*100 Percent Financing* 894

*Low Cost* 894

Other Reasons for Leasing 894

### **27.8 Summary and Conclusions** 895
