Information Technology at McGraw-Hill

At McGraw-Hill Higher Education, we publish instructional materials targeted at the higher education market. In an effort to expand the tools of higher learning, we publish texts, lab manuals, study guides, testing materials, software, and multimedia products.

At McGraw-Hill/Irwin (a division of McGraw-Hill Higher Education), we realize that technology has created and will continue to create new mediums for professors and students to use in managing resources and communicating information to one another. We strive to provide the most flexible and complete teaching and learning tools available as well as offer solutions to the changing world of teaching and learning.

McGraw-Hill/Irwin is dedicated to providing the tools for today's instructors and students to successfully navigate the world of Information Technology.

- **Seminar Series**—McGraw-Hill/Irwin's Technology Connection seminar series offered across the country every year demonstrates the latest technology products and encourages collaboration among teaching professionals.
- **McGraw-Hill/Osborne**—This division of The McGraw-Hill Companies is known for its best-selling Internet titles, *Internet & Web Yellow Pages* and the *Internet Complete Reference*. For more information, visit Osborne at www.osborne.com.
- **Digital Solutions**—McGraw-Hill/Irwin is committed to publishing digital solutions. Taking your course online doesn't have to be a solitary adventure, nor does it have to be a difficult one. We offer several solutions that will allow you to enjoy all the benefits of having your course material online. For more information visit www.mhhe.com/solutions/index.mhtml.
