ABOUT THE AUTHORS

BRAD WILLIAMS is the co-founder of WebDevStudios.com, a cohost on the WP Late Night podcast, and the coauthor of *Professional WordPress* and *Professional WordPress Plugin Development*. Brad has been developing websites for over 15 years, including the last 5 where he has focused on open-source technologies like WordPress. Brad has given presentations at various WordCamps across the country and is a co-organizer of the Philadelphia WordPress Meetup and WordCamp Philly. You can follow Brad online on his personal blog at `http://strangework.com` and on Twitter @williamsba.

DAVID DAMSTRA is a vice president of Professional Services for CU*Answers, a credit union service organization. David manages a team of developers to create websites and web applications for the financial industry. David's team uses WordPress as the foundation for many web projects. David is also a Zend Certified Engineer for PHP5. You can find David online professionally at `http://ws.cuanswers.com` where he focuses on web technology and best practices for web development, especially pertaining to the credit union industry, and personally at `http://mirmillo.com` where he talks about his family and home brewing.

HAL STERN is a Vice President with a major technology company focusing on software architecture for programmable networks and architectures for "big data" applications. Hal began blogging as part of a corporate communications effort at Sun Microsystems, and has been using WordPress to share thoughts on music, sports, food, and New Jersey for the past five years. Hal's affinity for WordPress internals began when he was trying to determine how a mangled URL returned almost-correct content, and that curiosity has turned into his contributions to this book and a WordCamp talk. Hal is online at `http://snowmanonfire.com` and @freeholdhal.

ACKNOWLEDGMENTS

THANK YOU to the love of my life, April, for your endless support, friendship, and continuing to put up with my nerdy ways. Thank you to my awesome nieces, Indiana Brooke and Austin Margaret. Thank you to the entire WordPress community for your support, friendships, motivation, and guidance. Thank you to Michael, Jason, Freddy, and Hannibal for always lurking in the shadows. Last but not least, thank you to my ridiculous zoo: Lecter, Clarice, and Squeaks the Cat (aka Kitty Galore). Your smiling faces and wiggly butts always put a smile on my face.

—Brad Williams
