Preface xvi

## CHAPTER 1 Alcohol 1

Once Upon a Time . . . 1  
    *Fermentation and Discovery of Distillation* 2  
    *Alcohol Use in America* 3

Why Bother? 4  
    *Theories to Explain Alcohol Use* 5  
    *Myths* 7

Alcohol Problems: The Fly in the Ointment 7  
    *Problems as Sin or Moral Failing* 7  
    *Problems as a Legal Issue* 8  
    *America's Response to Alcohol Problems* 8  
    *A Different Perspective* 10  
    *History of Alcohol Treatment* 11  
    *Public Policy* 15

Alcohol Beverage Industry 18  
    *Advertising—The Basics* 19  
    *Targeting Underage Youth* 20  
    *Targeting Women and Minority Groups* 24  
    *Targeting Developing Countries* 24  
    *Alcohol and the Media* 25

Other Drug Use 26  
    *Tobacco* 26  
    *Marijuana* 29  
    *Points for Reflection* 31

References and Further Readings 31

## CHAPTER 2 Alcohol and Its Costs 33

Who Drinks What, When, and Where 34  
    *Drinking Patterns* 35

Alcohol Problems 40  
    *Abuse and Dependence* 40

*Economic Costs Versus Economic Benefits* 41  
    *Personal Costs* 44

Drugs Other Than Alcohol 49

References and Further Readings 51

## CHAPTER 3 Alcohol and the Body 53

Ingestion and Absorption 53

Blood Alcohol Concentration 55

Breakdown and Removal 56

Alcohol's Acute Effects on the Body 58

*Digestive System* 58

*Circulatory System* 58

*Kidneys* 58

*Liver* 59

*Central Nervous System* 60

Acute Overdose and Toxicity 64

Differences in Women 64

Tolerance 66

Alcohol as an Anesthetic 67

Other Types of Alcohol 67

The Influence of Expectations 68

Advice for the Moderate Drinker 69

*Contraindications to Moderate Use* 70

*Alcohol-Drug Interactions* 71

*Problems Associated with Drinking and Intoxication* 72

*Alcohol Use and Exercise* 74

Drug-Alcohol Comparisons 75

*Route of Administration* 75

*By-products of Metabolism* 77

*Actions in the Brain* 78

In Conclusion 82

References and Further Readings 82

**CHAPTER 4 Alcohol Abuse and Alcohol Dependence 84**

Definitions 84  
     *Early Definitions of Alcoholism* 86  
     *Toward Uniformity in Terminology* 87  
 A Disease? 89  
     *Implications of Disease Classification* 89  
     *Criticisms of the Disease Concept* 90  
 Natural History 92  
     *Jellinek's Phases of Alcoholism* 92  
     *Jellinek's Species of Alcoholism* 95  
     *Current Thinking* 96  
 Guides For Diagnosis 97  
     *National Council on Alcoholism Criteria* 97  
     *Diagnostic Criteria of the American Psychiatric Association* 98  
     *Natural History of Alcoholism: Jellinek Revisited* 102  
 References and Further Readings 104

**CHAPTER 5 Etiology of Alcohol Abuse and Dependence 105**

Public Health Model 105  
 The Agent 106  
 The Host—Genetic Factors 108  
     *Nature and Nurture* 109  
     *Twin and Adoption Studies* 109  
     *Half-Sibling Studies* 111  
     *Studies of Nonalcoholic Blood Relatives* 111  
     *Genetic Markers* 112  
     *Familial Versus Nonfamilial Alcohol Dependence: So What?* 116  
 The Host—Personality and Psychological Makeup 117  
     *Psychological Needs* 117  
     *Early Psychological Approaches* 118  
     *Current Thinking* 120  
 The Environment—Sociological Factors 124  
     *Cultural Differences* 124  
     *Cultural Orientation* 124  
     *Cultures in Flux* 128  
     *Drinking Styles and Alcohol Problems* 130  
     *Influence of Cultural Subgroups* 130  
     *Legal Sanctions and Approaches* 131  
     *Cross-Cultural Comparisons* 133  
     *Cultural Influences on Recovery* 138  
     *Views in the Twenty-First Century* 139  
 References and Further Readings 143

**CHAPTER 6 Medical Complications 145**

Visible Signs and Symptoms of Chronic Heavy Drinking 146  
 Gastrointestinal System 147  
     *Irritation, Bleeding, and Malabsorption* 147  
     *Pancreatitis* 148  
     *Gallbladder Disease* 149  
     *Liver Disease* 149  
     *Gastrointestinal Cancers* 152  
 Hematological System 152  
     *Red Blood Cells* 153  
     *White Blood Cells* 154  
     *Platelets* 155  
     *Clotting Factors and DIC* 155  
     *Immune System* 155  
 Cardiovascular System 156  
 Genitourinary System 159  
     *Urinary Tract* 159  
     *Reproductive System and Pregnancy* 160  
 Respiratory System 164  
 Endocrine System 165  
     *Cancer* 167  
 Skin 168  
 Skeletal System 169  
 Nervous System 170  
     *Dependence, Tolerance, Craving, and Withdrawal* 170  
     *Alcohol Idiosyncratic Intoxication* 171  
     *Organic Brain Disease* 172  
     *Nerve and Muscle Tissue Damage* 175  
     *Subdural Hematomas* 176  
     *Miscellaneous CNS Disturbances* 176  
 Neuropsychological Impairment 177  
 Miscellaneous Effects 178  
 Sleep and Sleep Disturbances 179  
     *Sleep Disturbances* 180  
     *Alcohol's Effects on Sleep* 181  
 Blackouts and Memory 182  
     *Description* 182  
     *Alcohol's Effects on Memory* 182  
     *Possible Causes* 183  
 Withdrawal Syndromes 185  
     *Hyperarousal* 185  
     *Alcoholic Hallucinosi*s 186  
     *Convulsive Seizures* 187  
     *Delirium Tremens* 188  
     *Late Withdrawal Phenomenon* 190  
     *Some Cautions* 190  
 References and Further Readings 191

**CHAPTER 7 The Behavior of Dependence 193**

- A Behavioral Composite 193
- How, If Not Why? 194
- Deteriorating Functioning 200
- Family and Friends 201
- Work 203
- Other Drugs of Abuse 204
  - Adolescent Substance Use 206
- A Final Thought 206
- References and Further Readings 207

**CHAPTER 8 Effects of Alcohol Problems on the Family 208**

- The Family's Response 210
  - Stages of Adjustment 210
  - A Family System Perspective 212
- Children in the Family 215
  - Prenatal Influences 216
  - Children in the Home 217
  - Adult Children 219
  - Resiliency 221
  - Genetic Vulnerability 222
  - Alcohol Dependence in Other Family Members 223
  - Current Thinking 224
- Other Substance Use and Its Impact on the Family 226
  - Casualties of the War on Drugs 227
  - Families in Their Communities 228
  - Secondhand Drug Use 228
- References and Further Readings 230

**CHAPTER 9 Evaluation and Treatment Overview 232**

- A Perspective on Treatment 234
- Problems of Use 234
  - Chronic Disease Framework 235
  - Clinical Implications 237
- Screening and Evaluation 238
  - Laboratory Tests 238
  - Screening Instruments 239
  - Web-Based Screening 247
- When Screening is Positive 248
  - Identifying Situations Requiring Medical Attention 248
  - Engaging the Patient 251

- Substance Use History 255
- Making a Referral 258
- Evaluation in a Substance Abuse Treatment Setting 259
- Treatment Planning and Treatment Settings 261

- Treatment of Alcohol Incidents, Abuse, Dependence 264
  - Harm Reduction 264
  - Alcohol Incidents 266
  - Alcohol Abuse 270
  - Alcohol Dependence 271
- References and Further Readings 286

**CHAPTER 10 Treatment Techniques and Approaches 288**

- Individual Counseling 288
  - Observation 289
  - Feedback 291
  - Education 291
  - Self-Disclosure 292
  - Possible Mis-steps 294
  - Problem Identification and Problem Solving 294
  - The Therapeutic Relationship 295
  - Evidence-based Treatment 296
  - Case Management and Administrative Tasks 297
- Group Work 298
  - Group as Therapy 298
  - Types of Groups 299
  - Group Functions 300
- Working with Families 301
  - Family Members Touched by Another's Alcohol Use 302
  - Family Interventions 304
  - Family Involvement in Alcohol Treatment 307
  - Family Issues 310
  - Self-Help for Families 315
- Self-Help 317
  - Alcoholics Anonymous 317
  - Non-Twelve-Step Programs 329
  - Which Self-Help Approach? 332
- Psychosocial Therapies 332
  - Thinking About Different Therapies 332
  - Therapies Used in Substance Abuse Treatment 334
  - Targeted Therapies 338
- Other Approaches 340
  - New Media 340
  - Spiritual Counseling 341
  - Meditation 347
  - Activities Therapy 348

Pharmacotherapy 351  
     Disulfiram (Antabuse) 351  
     Anticraving Agents 353  
 Treatment Matching 355  
     Project MATCH 355  
     Project Combine 356  
     Looking Ahead 357  
 References and Further Readings 357

**CHAPTER 11 Special Populations 359**

Adolescents 359  
     Physical Changes and Developmental Issues 360  
     Alcohol and Other Drug Use 366  
     Associated Problems 370  
     Working with Adolescents 378  
     Guidelines for the General Clinician 381  
     Treatment 384  
     Nicotine: The Elephant in the Room 394  
 College Students 396  
     Patterns of Alcohol and Other Drug Use 396  
     Problems Associated with Substance Use 400  
     Student Athletes: A Special Case 404  
     Perceived Benefits of Drinking 407  
     Natural History of Collegians' Alcohol Use 408  
     Environmental Risk Factors 410  
     Campus Initiatives to Reduce Risk 411  
     Impetus to Institutional Action 414  
     Impediments to Campus Programs 415  
     Campus Initiatives 416  
     Intervention and Treatment 419  
     Closing Thoughts 423  
 The Elderly 424  
     Stresses of Aging 425  
     Patterns of Alcohol and Other Drug Use 432  
     Alcohol Use and Health Status 436  
     Alcohol Problems 436  
     Working with the Elderly 443  
 Women 446  
     Gender Differences 446  
     Differences Among Women 448  
     Natural History of Alcohol and Other Drug Problems 450  
     Assessment and Treatment 454  
 The Workplace 461  
     Some Basic Statistics 461  
     Drug Use and the Workplace 464  
     High-Risk Factors 466

The Workplace Response 467  
 Workplace Interventions 467  
 Implications for Treatment 468  
 Other Special Populations 470  
 References and Further Readings 472

**CHAPTER 12 Other Psychiatric Considerations 476**

Suicide Evaluation and Prevention 476  
     Statistics and High-Risk Factors 477  
     How to Ask About Suicide 478  
     Responding to Suicidal Patients 479  
 Mental Status Examination 482  
 Major Categories of Co-Occurring Psychiatric Illness 482  
     Mood Disorders 483  
     Disorders Involving Psychosis 486  
     Anxiety Disorders 489  
     Personality Disorders 491  
     Antisocial Personality Disorder 491  
     Borderline Personality Disorder 492  
     Attention-Deficit/Hyperactivity Disorder 492  
     Psychiatric Disorders Due to a General Medical Condition 493  
     Drug Problems in Combination with Alcohol Abuse or Dependence 495  
     Other Addictive Behaviors 495  
     Clinical Considerations 496  
     Homelessness, Alcohol Use, and Chronic Mental Illness 496  
 Psychotropic Medications 497  
     Antipsychotic Medications 499  
     Antidepressant Medications 501  
     Mood Stabilizers 504  
     Anti-Anxiety Agents 505  
 References and Further Readings 506

**CHAPTER 13 Drugs of Abuse Other Than Alcohol 508**

Drug Use Patterns 508  
     Demographic Factors 510  
 Social Costs 511  
     Crime and Incarceration 512  
     Health Problems 513  
 Public Perceptions and Public Policies 514  
     Legal Status 514  
     Early Control Efforts 515

Is It Time to Rethink Prohibition as a Drug Policy? 516	Blocking Agents 586
Sources of Drugs 520	Looking Ahead: Vaccines 588
Plants: Poppies, Coca, and Cannabis Sativa 520	Pregnancy and the Use of Drugs Other Than Alcohol 588
Illicit Drug Labs 521	Epidemiology 589
Prescription Drugs 521	Cocaine-Exposed Infants 589
Reducing Drug Diversion 523	Opiate-Exposed Infants 590
Basic Pharmacological Concepts 524	Methadone Use in Pregnancy 592
Withdrawal 525	Policy and Legal Issues 593
Abuse Potential 526	International Comparisons 594
Problems 528	References and Further Readings 596
Classification Schemas for Drugs of Abuse 530	<b>CHAPTER 14 Odds 'n Ends 599</b>
Licit Versus Illicit 530	Beyond Counseling 599
DEA Schedule 530	Educational Activities 599
Pharmacological Effects 532	Training Others 601
Major Classes of Commonly Abused Drugs 532	Prevention 603
Nicotine 532	The Real World 612
Opiates 539	Being a Professional Colleague 614
Sedative-Hypnotics (Central Nervous System Depressants) 545	Selecting a Professional Position 618
Stimulants 548	Being a Professional 620
Hallucinogens and Dissociatives 551	Certification and Licensure 621
Cannabinoids 555	Snapshot of the Workforce 623
