Contents

List of Figures, Tables, and Photos xv

Foreword xxiii

Acknowledgments xxvii

Part 1. Setting the Stage

Chapter 1. Introduction 3

Rationale and Approach 5

Synopsis of Previous Studies 6

Chapter 2. Pumas Past and Present 9

Puma Phylogeny 9

Puma Distribution and Status 15

Pumas in the Southwest 16

Taxonomy 16

Description 18

Statistic 21

Chapter 3. Our Outdoor Laboratory 23

Physiography and Geology 26

Climate 27

Flora 29

Fauna 30

History of Human Use 33

History of Puma Exploitation 36

Chapter 4. Studying Wild Pumas	39
<i>Life Afield</i>	39
<i>To Catch a Puma</i>	42
<i>Monitoring Desert Mule Deer and Desert Bighorn Sheep</i>	51
<i>Radiotelemetry</i>	54
<i>Investigating the Dead</i>	58
<i>Overview of Analytical and Statistical Methods</i>	59

Part 2. Puma Life History Strategies and Population Dynamics

Chapter 5. A Puma Population in the Desert	63
<i>Research Hypotheses and Predictions</i>	63
<i>Terms for Pumas</i>	64
<i>Counting Pumas</i>	65
Chapter 6. Puma Population Structure	69
<i>Sex Structure</i>	69
Cubs	69 • Subadults 73 • Adults 73
<i>Age Structure</i>	75
The Population	75 • Adult Pumas 78
<i>Summary</i>	80
<i>Statistics</i>	81
Chapter 7. Reproduction	83
<i>Natality</i>	83
<i>Timing of Births</i>	88
<i>Mating, Gestation, and Birth Intervals</i>	91
<i>Puberty and First Litters</i>	93
<i>Parental Investment</i>	96
<i>Reproductive Success</i>	96
Females	98 • Males 103
<i>Summary</i>	110
<i>Statistics</i>	111

Chapter 8. Mortality and Survival 115*Human-Caused Mortality* 115*Natural Mortality* 117

Cubs 117 • Subadults 122 • Adults 127

Why Do Pumas Kill Other Pumas? 139*Summary* 142*Statistics* 143**Chapter 9. Independence of Puma Progeny, and Philopatry, Emigration, and Immigration 145***Independence of Progeny* 146*Philopatry and Dispersal* 148*Emigration* 153*Recruitment of Progeny and Immigrants* 154*Summary* 154**Chapter 10. Puma Population Density, Growth, and Metapopulation Structure 157***Experimentally Removing Pumas* 157*Density* 160*Rates of Population Increase* 169*Metapopulation Dynamics* 175*Summary* 179**Part 3. Puma Behavior and Social Organization****Chapter 11. How Should Desert Pumas Behave? 183***Two-Strategies Hypothesis* 183*Self-Limiting Hypothesis* 184**Chapter 12. Adult Home Range Characteristics 189***Delineating the Home Range* 189*Seasonal and Annual Home Range* 191*Birth-Interval Home Range* 192

Lifetime Home Range 195

What Factors Influence Adult Home Range Size? 195

Home Range Size, Prey Abundance, and Puma Density 201

Does Prey Abundance Affect Home Range Size? 202 • Does Puma Density Affect Home Range Size? 204 • Does Home Range Size Reflect an Attempt at Population Self-Limitation? 210

Adult Home Range Fidelity 211

Method 1—Fidelity Index 213 • Method 2—Distances between Mean Locations 214 • Home Range Shifts in Pumas 216 • Homing by Translocated Pumas 222 • Benefits of Fidelity and the Two-Strategies Hypothesis 223 • Fidelity in Desert Pumas and the Self-Limiting Hypothesis 225

Summary 225

Statistic 227

Chapter 13. Subadult Ranging Behavior 231

Philopatry in Females 232

Female Dispersal 233

Male Dispersal 236

Frustrated Dispersal 239

Why Do Pumas Disperse? 240

Transient Behavior in Pumas 244

Summary 245

Statistic 246

Chapter 14. Interactions between Pumas 247

Spatial Relationships 247

Home Range Overlap Indices 249 • Nearest-Neighbor Analysis 254

Spatiotemporal Relationships 255

Direct Interactions 257

Associations between Independent Pumas 260 • Associations between Family Members 267

Communication among Pumas 269

Vocalizations 269 • Chemical Communication 272

Summary 276

Statistics 277

Chapter 15. Adaptive Significance of Puma Social Organization 281

The Social Structure of Desert Pumas 281

Female Structure 282 • Male Structure 283

The Self-Limiting Hypothesis 284

Land Tenure and Territoriality 285 • Do Desert Pumas Exhibit Land Tenure or Territoriality? 286

The Two-Strategies Hypothesis 288

Female Strategy 288 • Male Strategy 290

Pumas and Other Big Cats—Similar Strategies? 294

Summary 297

Part 4. Puma-Prey Relationships

Chapter 16. Puma Diet 301

Patterns of Pumas and Prey 301

Puma Diet on the San Andres Mountains 302

Summary 308

Chapter 17. Pumas and Desert Mule Deer 311

Hypotheses, Predictions, and Terms 311

Characteristics of Dead Deer 312

Fates of Radio-Collared Deer 314

Mule Deer Population Dynamics 321

Puma Predation and Mule Deer Population Growth 322

Some Behavioral Interactions between Deer and Pumas 331

Did Puma Predation Limit the Deer Population? 332

Did Pumas Limit Their Own Density and Not Harm Their Food Supply? 333

Cases of Pumas and Other Carnivores Limiting Prey Populations 335

What Limits the Puma Population? 336

How Would a Puma Population Respond to a Prey Crash? 337

Summary 338

Statistics 339

Chapter 18. Pumas and Desert Bighorn Sheep 341

Hypothesis and Predictions 341

Pre-history, History, and Threats 342

Sheep Population Characteristics during Our Research 346

Fates of Radio-Collared Sheep 347

Survival Rates and Agent-Specific Mortality 350

Did Puma Predation Limit the Sheep Population? 354

Finale of the Sheep Population 354

Pumas and Other Sheep Populations 356

Summary 357

Statistic 357

Chapter 19. Synthesis: Pumas and Weather Modulate Large-Mammal Population Dynamics on the San Andres Mountains 359

Part 5. Pumas and People

Chapter 20. Conservation and Management of Wild Pumas 365

Threats to Pumas 367

Habitat Loss 367 • Puma Overkill 371

Alleviating Threats 377

Habitat Conservation 378 • Preventing Unnecessary Overkill 383 •

Adaptive Management—Involving People 384

Summary 395

Statistic 395

Chapter 21. Epilogue 397

Appendix 1. Morphological Measurements of Pumas At Least 3.5 Months Old on the San Andres Mountains, New Mexico, 1985–1995 399

<i>Appendix 2. Reproductive Chronology of Mated Pairs of Pumas on the San Andres Mountains, New Mexico, 1987–1994</i>	413
<i>Appendix 3. Methods and Estimates of Annual Home Range Size for Pumas on the San Andres Mountains, New Mexico</i>	415
<i>Appendix 4. A Deterministic, Discrete Time Model That Simulated Mule Deer Population Dynamics in the Treatment Area, San Andres Mountains, New Mexico, 1987–1995. See Chapter 17 for its application.</i>	419
