ACKNOWLEDGEMENTS

In the preparation and completion of this textbook, we have received guidance, encouragement and support from a number of people. Without their assistance and support, this textbook might not be completed.

First of all, we would like to take this chance to express the deepest gratitude to the Management Board of Hanoi University of Industry (HaUI), who have created favorable conditions for us to design and complete this textbook.

Our gratitude also goes to the Management Board and all the staff members of Faculty of Foreign Languages at HaUI for their valuable guidance, excellent suggestions, and constant encouragement and contribution. This textbook would not have been completed without their help and contribution.

We also owe a great debt of gratitude to the Dean and lecturers of Faculty of Garment Technology and Fashion Design at HaUI, including Assoc. Prof. Nguyen Thi Le and MA. Do Thi Thuy. Without their useful assistance and constructive feedback, we could not manage to finish our project.

Preface

English for Garment Technology and Fashion Design series are aimed to develop the ability to communicate in English for the students specialized in Garment Technology and Fashion Design at Hanoi University of Industry. Different from other general English textbooks, the topics and activities designed in the series have been carefully selected to match the interests and meet the needs of the students who are studying and going to work in Garment Technology and Fashion Design field. As a component of a blended learning program package, the series are used chiefly for face-to-face lessons which operate along with an integrated program of online learning tasks. To address the diversity in the interests, English proficiency levels and learning styles of the student population, excessive care has been taken to allow flexibility in selecting and adapting classroom activities in response to students' current learning needs with high priority placed on speaking skills. A nice mixture of pair, group and individual activities with authentic materials and close-to-real-life situations are intended to stimulate and maintain students' learning motivation throughout the courses.

This book, ***English for Garment Technology and Fashion Design 6***, is the last book in the series which has been developed for 3rd year students majored in Garment Technology and Fashion Design at Hanoi University of Industry, who have completed the first 5 books in the series. This book consists of 7 units covering essential topics of the field: Unit 1- *Working in Fashion Industry*, Unit 2- *Working Conditions in Garment Factories*, Unit 3 - *Meetings*, Unit 4- *Working with Specifications and Samples*, Unit 5 - *Reports*, Unit 6 - *Preparation for a Job Interview* and Unit 7- *A Job Interview*. Each unit comprises a warm-up activity and four or five motivational and encouraging pair-work, group-work or individual activities. Before face-to-face lessons, students are required to complete all the related online learning tasks which help develop necessary language knowledge (related vocabulary and structures) and skills for oral interactions and language practices in face-to-face classes. The check list at the end of each lesson facilitates students' learning reflection and develops their ability to monitor their own learning. By the end of the course, students are expected to develop not only English language skills but also exploratory, argumentative, analytical, problem solving, and teamwork skills which are indispensable for their success in study at the University and their work after graduation.

The authors are English lecturers at Hanoi University of Industry including Dr. Tran Thi Duyen, Dr. Tran Ngoc Duc, MA. Le Thi Huong Thao, MA. Phan Thanh Quyen and BA. Pham Thi Hong. With all our passionate enthusiasm and tremendous efforts spent on designing this book, we hope that teachers and students will be using it with full enjoyment and gaining great success in mastering English for Garment Technology and Fashion Design.

Scope and sequence

	Language focus	Wordpower	Focus on communication
