**McGraw-Hill**

*The McGraw-Hill Companies*

*All-Star* is a four-level, standards-based series for English learners featuring a picture-dictionary approach to vocabulary building. "Big picture" scenes in each unit provide springboards to a wealth of activities developing all of the language skills. Each *All-Star Workbook* unit provides 20 pages of supplementary exercises for its corresponding Student Book unit. The Workbook activities offer students further practice in developing the language, vocabulary, and life-skill competencies taught in the Student Book. Answers to the Workbook activities are available in the Teacher's Edition.

## Features

- ★ **Wide range of exercises** can be used by students working independently or in groups, in the classroom, with a tutor, or at home. Each lesson includes at least one activity which allows students to interact, usually by asking and answering questions.
- ★ **Alternate application lessons** complement the Student Book application lesson, inviting students to tackle work, family, and/or community extension activities in each unit. Each application lesson concludes with a *Take It Outside* activity or a *Take It Online* activity, or both. *Take It Outside* activities encourage students to use the language skills they've learned in the unit to interact with others outside of the classroom. *Take It Online* activities offer suggestions for web-based activities. These activities help students build computer skills while expanding on the content and the language skills they learned in the unit.
- ★ **Student Book page references** at the top of each Workbook page show how the two components support one another.
- ★ **Practice tests** at the end of each unit provide practice answering multiple-choice questions such as those found on the CASAS tests. Students are invited to chart their progress on these tests on a bar graph on the inside back cover.
- ★ **Spotlight: Reading** lessons appear at the end of every unit, offering supplementary reading practice which builds on the reading strategies introduced in the Student Book.
- ★ **Spotlight: Writing** lessons appear at the end of every unit, offering supplementary writing practice which builds on the writing strategies introduced in the Student Book.

## Alternate Application Lessons (work, family, community)

Equipped for the Future (EFF) is a set of standards for adult literacy and lifelong learning, developed by The National Institute for Literacy ([www.nifl.gov](http://www.nifl.gov)). The organizing principle of EFF is that adults assume responsibilities in three major areas of life—as workers, as parents, and as citizens. These three areas of focus are called "role maps" in the EFF documentation.

Lesson 6 in each unit of the Student Book provides a real-life application relating to one of the learners' roles. The Workbook includes two lessons, each of which addresses the other roles. This allows you, as the teacher, to customize the unit to meet the needs of your students. You can teach any or all of the application lessons in class. For example, if all your students work, you may choose to focus on the work applications. If your students have diverse interests and needs, you may have them work in small groups on different applications. If your program provides many hours of classroom time each week, you have enough material to cover all three roles.

# Contents

## Unit 1 Skills and Abilities

Lesson 1: What skills do you want to learn? .....	2
Lesson 2: Skills for Success .....	4
Lesson 3: Are you listening? .....	6
Lesson 4: How well do you write? .....	8
