Preface xiii

About the Authors xix

## PART 1 The Nature of Human Language

### INTRODUCTION

#### Brain and Language 3

##### The Human Brain 4

The Localization of Language

in the Brain 5

*Aphasia* 6

*Brain Imaging Technology* 12

*Brain Plasticity and Lateralization  
in Early Life* 14

*Split Brains* 15

*Other Experimental Evidence  
of Brain Organization* 16

##### The Autonomy of Language 18

Other Dissociations of Language  
and Cognition 19

*Laura* 20

*Christopher* 20

Genetic Basis of Language 21

##### Language and Brain Development 22

The Critical Period 22

A Critical Period for Bird Song 25

The Development of Language  
in the Species 26

Summary 28

References for Further Reading 29

Exercises 30

## PART 2 Grammatical Aspects of Language

### CHAPTER 1

#### Morphology: The Words of Language 36

Dictionaries 38

Content Words and Function Words 38

Morphemes: The Minimal Units of Meaning 40

Bound and Free Morphemes 43

*Prefixes and Suffixes* 43

*Infixes* 45

*Circumfixes* 45

Roots and Stems 46

Bound Roots 47

Rules of Word Formation 47

Derivational Morphology 48

Inflectional Morphology 50

The Hierarchical Structure of Words 53

Rule Productivity 56

*Exceptions and Suppletions* 58

*Lexical Gaps* 59

Other Morphological Processes 60

*Back-Formations* 60

*Compounds* 60

“Pullet Surprises” 63

Sign Language Morphology 63

Morphological Analysis: Identifying  
Morphemes 64

Summary 67

References for Further Reading 68

Exercises 68

## CHAPTER 2

### Syntax: The Sentence Patterns of Language 77

---

What the Syntax Rules Do 78

What Grammaticality Is Not Based On 82

Sentence Structure 83

Constituents and Constituency Tests 84

*Syntactic Categories* 86

*Phrase Structure Trees and Rules* 89

Heads and Complements 102

*Selection* 103

*What Heads the Sentence* 105

Structural Ambiguities 109

More Structures 111

Sentence Relatedness 115

Transformational Rules 115

*The Structural Dependency  
of Rules* 117

*Further Syntactic Dependencies* 120

UG Principles and Parameters 124

Sign Language Syntax 127

Summary 128

References for Further Reading 129

Exercises 130

## CHAPTER 3

### The Meaning of Language 139

---

What Speakers Know about Sentence

Meaning 140

Truth 140

Entailment and Related Notions 141

Ambiguity 142

Compositional Semantics 144

Semantic Rules 144

*Semantic Rule I* 145

*Semantic Rule II* 145

When Compositionality Goes Awry 146

*Anomaly* 147

*Metaphor* 149

*Idioms* 150

Lexical Semantics (Word Meanings) 152

Theories of Word Meaning 153

*Reference* 154

*Sense* 155

Lexical Relations 156

Semantic Features 159

*Evidence for Semantic Features* 160

*Semantic Features and Grammar* 160

Argument Structure 163

*Thematic Roles* 164

Pragmatics 167

Pronouns 167

*Pronouns and Syntax* 168

*Pronouns and Discourse* 169

*Pronouns and Situational Context* 169

Deixis 170

More on Situational Context 172

*Maxims of Conversation* 172

*Implicatures* 174

*Speech Acts* 175

Summary 176

References for Further Reading 178

Exercises 178

## CHAPTER 4

### Phonetics: The Sounds of Language 189

---

Sound Segments 190

Identity of Speech Sounds 191

The Phonetic Alphabet 192

Articulatory Phonetics 195

Consonants 195

*Place of Articulation* 195

*Manner of Articulation* 197

*Phonetic Symbols for American  
English Consonants* 204

Vowels 206

*Tongue Position* 206

*Lip Rounding* 208

|  |   |

| Exercises   | 319 |

## CHAPTER 7

### Language Acquisition 324

---

|   |     |
|---|-----|
| <b>Mechanisms of Language Acquisition</b>               | 325 |
| Do Children Learn through Imitation?                    | 325 |
| Do Children Learn through Correction and Reinforcement? | 326 |
| Do Children Learn Language through Analogy?             | 327 |
| Do Children Learn through Structured Input?             | 329 |
| Children Construct Grammars                             | 330 |
| The Innateness Hypothesis                               | 330 |
| Stages in Language Acquisition                          | 332 |
| <i>The Perception and Production of Speech Sounds</i>   | 333 |
| <i>Babbling</i>   | 334 |
| <i>First Words</i>                                      | 335 |
| <i>Segmenting the Speech Stream</i>                     | 336 |
| <i>The Development of Grammar</i>                       | 339 |
| <i>Setting Parameters</i>                               | 354 |

### *The Acquisition of Signed Languages* 355

|   |     |
|---|-----|
| <b>Knowing More Than One Language</b>                 | 357 |
| Childhood Bilingualism                                | 357 |
| <i>Theories of Bilingual Development</i>              | 358 |
| <i>Two Monolinguals in One Head</i>                   | 360 |
| <i>The Role of Input</i>                              | 360 |
| <i>Cognitive Effects of Bilingualism</i>              | 361 |
| Second Language Acquisition                           | 361 |
| <i>Is L2 Acquisition the Same as L1 Acquisition?</i>  | 361 |
| <i>Native Language Influence in L2 Acquisition</i>    | 363 |
| <i>The Creative Component of L2 Acquisition</i>       | 364 |
| <i>Is There a Critical Period for L2 Acquisition?</i> | 365 |
| Summary   | 366 |
| References for Further Reading                        | 368 |
| Exercises   | 369 |

## CHAPTER 8

### Language Processing: Humans and Computers 375

---

|  |     |
|--|-----|
| <b>The Human Mind at Work:</b>                 |     |
| <b>Human Language Processing</b>               | 375 |
| Comprehension                                  | 377 |
| <i>The Speech Signal</i>                       | 378 |
| <i>Speech Perception and Comprehension</i>     | 379 |
| <i>Bottom-up and Top-down Models</i>           | 381 |
