How to use SearchWise

1

Access SearchWise
Scan QR or open the link

Use the QR code above
or go to the website

2

Enter your topic
Type your research question

You can enter a question,
keywords or a topic

3

View results and suggestions
Explore the findings

Get relevant resources,
summaries and search tips

4

Save and use
Build on the results

Save references, export
citations and use them
in your research

Tip: *The more specific your question, the more accurate and useful the results!*

9

Study Smart at the Library

READ • STUDY • CONNECT

Find a space that works for you

R

Reading & Quiet Study

Use reading rooms and study areas for focused reading, coursework and independent learning.

O

Open Reading Space

At Campus 1, visit the Open Reading Space on the 4th Floor of Building A11.

A comfortable place to learn, focus and grow.

Make the most of your library visit

G

Group Learning

Use available Library spaces for collaborative learning and discussion.

C

Computers

Library computers support catalogue searching, information searching and academic work.

W

Wi-Fi

Connect your own device and study anywhere in the Library.

Learn together. Share ideas.

@

Digital Resources on Campus

Connect through the HaUI network to access IP-authenticated resources such as Gale and Scopus.

!

Tip: Choose the space that fits your task – and ask a librarian whenever you need help.

Library Essentials

What you need to know for a smooth library experience

*Simple Steps
Great Resources
Bright Opportunities*

Library Card

Your key to library services

- Use your student/staff ID card for borrowing and accessing library services.
- Keep your card safe and do not share it with others.

Borrowing & Returning

Access the resources you need

- Borrow books, course materials and other items.
- Check loan periods and renewal options.
- Return items on time to avoid fines and support other users.

Search the Catalog

Find books and more

- Use the Libol online catalog to search for books, e-books and other resources.
- Check item availability, location and loan status.
- Access the catalog via the library website or on-site computers.

Library Computers

Support your study and research

- Use computers for information searching and academic work (Internet, databases, office tools, etc.).
- Follow library rules and use them responsibly.

Digital Resources

A world of knowledge

- Access e-books, e-journals and research databases (e.g. Scopus, EBSCO, Gale, Taylor & Francis, Sage, IEEE Xplore).
- Use on-campus network; off-campus access may require VPN.
- Explore more on the library website.

Get Help

We're here for you

- Ask library staff at the service desk or via email.
- Join training sessions and guides on information skills.
- Contact us when you need support with searching, databases or referencing.

Tips for a Better Library Experience

- ✓ Plan your visit and know what you need.
- ✓ Make use of both print and digital resources.
- ✓ Be respectful and considerate of other users.
- ✓ Explore new resources and services regularly.

*The library is more than a place –
it's a partner in your learning journey.*

Tip: *Start with these 5 steps, and you'll be on your way to a successful academic journey with the support of your library!*

STUDY & RESEARCH SMART

5 Good Academic Habits at HaUI

*Small
Habits
Big Results*

Good information habits will help you succeed in your studies and beyond. Here are five simple tips to get the most out of your time at HaUI Library.

1

Search beyond Google

Use the Library's resources and academic databases (such as Scopus, EBSCO, Gale, IEEE, and more) to find reliable and high-quality information.

2

Check the original source

Always verify the author, publication and evidence. Use trusted academic sources to ensure your information is accurate and credible.

3

Cite what you use

Acknowledge ideas, data and quotations properly. Use a recognised citation style (such as APA, Harvard, etc.) to avoid plagiarism and show academic integrity.

4

Use AI responsibly

AI can support your learning and research, but you remain responsible for the accuracy of your work. Use AI as a learning assistant, not a replacement for your own thinking, analysis and academic integrity.

5

Ask for help early

Librarians are here to support you. Don't hesitate to ask for help with searching, using databases, managing references or any library services.
