Foreword	xi
The Report Team	xiii
Acknowledgments	xv
Data Notes and Abbreviations	xvii
Summary	1
1 The Main Findings	9
A New Age of Global Capital	13
Benefits and Risks of Financial Integration	22
Policy Challenges and Emerging Lessons	32
Notes	72
2 The New International Environment	75
The Structural Character of New Private Capital Flows	80
The Structural Forces Driving Private Capital Flows to Developing Countries	85
The Outcome of Structural Changes: Growing Investment in Emerging Markets	104
The Prospects for Private Capital Flows	111
Volatility Arising from the International Environment	124
Conclusion	140
Annex 2.1. Key Deregulations, Financial Innovations, and Technological Advances	144
Notes	148
3 The Benefits of Financial Integration	153
Integration and Growth	153
Diversification Benefits	166
Conclusion	168
Notes	169

4	Challenges of Macroeconomic Management	171
	Capital Inflows and Overheating: The Country Experience	174
	Policy Regimes and Vulnerability	192
	Macroeconomic Management with Growing Financial Integration	196
	Lessons for Macroeconomic Management	214
	Annex 4.1. Monetary and Fiscal Policies during Capital Inflow Episodes	219
	Annex 4.2. Can Sterilization Be Effective?	223
	Notes	226
5	The Effects of Integration on Domestic Financial Systems	229
	Bank Lending and Macroeconomic Vulnerability	236
	Bank Lending and Financial Sector Vulnerability	249
	Financial Sector Reforms in the Context of Integration:	
	Policy Lessons	257
	Annex 5.1. Capital Inflows, Lending Booms, and Banking Crises: Country Episodes	287
	Annex 5.2. Government Guarantees, High Real Interest Rates, and Banking Sector Fragility	289
	Annex 5.3. Risk-Adjusted Capital-Asset Ratios: The BIS Classification of Risky Assets	293
	Annex 5.4. Crisis Management in a Constrained Setting: The Case of Currency Boards	296
	Notes	298
6	Preparing Capital Markets for Financial Integration	303
	The Main Issues	304
	Capital Markets and Financial Integration	313
	Improving Market Infrastructure	323
	The Regulatory Challenges of Financial Integration	340
	Summary and Conclusions	368
	Annex 6.1. G-30 Recommendations and Suggested ISSA Revisions	376
	Annex 6.2. Market Microstructures	378
	Annex 6.3. Construction of the Emerging Markets Index	382
	Notes	385

Bibliography 391

Boxes

1.1	Measuring Financial Integration	17
-----	---------------------------------	----

1.2	What Is Constraining Foreign Capital Inflows to Sub-Saharan Africa?	34
1.3	Best Practice in Market Infrastructure	56
1.4	Principles of the Self-Regulatory Model	58
1.5	International Regulatory Cooperation and Coordination	64
2.1	Are Private Capital Flows a Cyclical and Temporary Phenomenon? The Early Answers	81
2.2	Are the New Private Capital Flows Cyclical or Structural? Recent Empirical Evidence	82
2.3	Pension Funds in Emerging Markets	108
2.4	Pension Reforms and Their Implications for Investments in Emerging Markets	118
2.5	Defined Contribution Pension Plans and International Diversification	122
2.6	Is the Current Investor Base Prone to Herding?	128
2.7	Do Investors Overreact to Changes in Brady Bond Prices?	132
2.8	The Form in Which Foreign Investors Participate in Emerging Markets Will Vary with the Extent of Financial Integration	134
3.1	The Empirical Link between Integration and Deepening	160
4.1	Capital Controls in Chile, Colombia, and Malaysia	179
4.2	Objectives of Capital Controls and Conditions for Effectiveness	198
4.3	Effectiveness of Capital Controls in Chile, Colombia, and Malaysia	201
4.4	Recent Country Experience with Exchange Rate Bands	204
4.5	The Mexican Tesobono Crisis	213
5.1	The Costs of Banking Crises	234
5.2	International Financial Integration and Boom-Bust Cycles	238
5.3	Excessive Bank Lending Tends to Increase the Current Account Deficit	242
5.4	Excessive Bank Lending Can Lead to Underinvestment and Overconsumption	244
5.5	Bank Lending Booms and Overheating: The Importance of Fiscal Policy	247
5.6	Good Bankers Make a Safe and Sound Banking Industry	264
5.7	Containing the Lending Boom: Taxation	274
5.8	Orthodox versus Heterodox Bank Regulations	279
5.9	Infeasible Policies in Banking Crisis Management	282
6.1	Investors' Viewpoint: Risks and Transaction Costs in Emerging Markets	310
6.2	Corporate Governance in India	318
6.3	Clearance, Settlement, and Depository Functions in Thailand	325
6.4	Developing Capital Market Infrastructure in Asia and Latin America	334

6.5	The Anatomy of Bolsa de Mexico's Clearance, Settlement, and Depository System	340
6.6	The Regulator and Market Development	345
6.7	Promoting Domestic Institutional Investors	350
6.8	Effective Governance of SROs in the United Kingdom and the United States	362
6.9	The Role of the State in Capital Markets in Asia and Latin America	365
6.10	Developing Local Bond Markets	374

Text figures

1.1	Private Capital Flows to Developing Countries, 1975–96	10
1.2	Composition of Net Private Capital Flows to Developing Countries, 1980–82 and 1995–96	11
1.3	Concentration of Private Capital Flows, Selected Developing Countries, 1990–95	12
1.4	Composition of Net Overall Private Capital Flows by Region	13
1.5	Large Reversals in Net Private Capital Flows	28
1.6	Sources of Volatility in Emerging Markets	29
1.7	Changes in Volatility of Reserves: 1980–89 and 1992–96	30
1.8	Banks' Share of Financial Intermediation, Selected Developing and Industrial Countries, 1994	46
1.9	Health of Banking Systems	47
1.10	Capital Flows, Lending Booms, and Potential Vulnerability	49
1.11	Official and Private Gross Capital Flows to Low-Income Countries (excluding China and India), 1970–95	67
1.12	Official and Private Gross Capital Flows to the 12 Largest Recipients of Private Capital, 1970–95	69
2.1	Structural Forces Driving Private Capital to Developing Countries	76
2.2	Effects of Policy Reforms in Developing Countries Receiving Large Private Capital Flows	87
2.3	Output and Export Growth, Selected Regions, 1986–90 and 1991–95	88
2.4	Potential Benefits from Portfolio Risk Diversification	90
2.5	Correlations of Returns among Emerging Markets	91
2.6	Institutionalization of Savings	98
2.7	International Diversification of Institutional Investors, Selected Countries, 1990 and 1994	100
2.8	Entry Restrictions for Foreign Investors in Emerging Stock Markets, 1991 and 1994	103
2.9	International and Emerging Market Assets of U.S. Open-End Mutual Funds, 1990–95	107
2.10	Emerging Market Investments of Industrial Country Mutual Funds, 1993–95	108

2.11	International and Emerging Market Assets of U.S. Pension Funds, 1990–94	110
2.12	Developing and Industrial Countries' Growth, 1980–2005	112
2.13	Demographic Structures of Developing and Industrial Countries, 1995	113
2.14	Elderly Dependency Ratios, Selected Industrial Countries, 1990–2030	114
2.15	Pension Fund Assets and International Diversification, Selected Countries	121
2.16	International Interest Rates and Portfolio Flows to Emerging Markets, 1993–96	127
2.17	Excess Volatility in Emerging Markets, Selected Countries and Years	131
2.18	Impact of the Mexican Crisis on Stock Market Prices in Emerging Markets, 1994–95	138
3.1	Initial Financial Depth and Future Growth	158
3.2	Portfolio Equity and Capital Market Development, Selected Countries	159
3.3	Growth in Domestic Trading in Selected Emerging Equity Markets	162
4.1	Change in the Current Account Deficit and the Real Effective Exchange Rate during Inflow Episodes, Selected Countries	187
4.2	Change in Growth and the Composition of Absorption during Inflow Episodes, Selected Countries	190
4.3	Change in the Composition of Absorption and the Real Effective Exchange Rate during Inflow Episodes, Selected Countries	191
5.1	Bank Lending to the Private Sector during Inflow and Pre-inflow Periods, Selected Countries and Years	240
5.2	Stock Prices during Inflow Periods, Selected Countries	248
5.3	Change in Nonperforming Loans	255
5.4	Change in Foreign Currency Exposure	255
5.5	Change in Net Interest Margin	255
5.6	Change in Capital-Asset Ratios	255
5.7	Change in Loan Loss Provisions	255
5.8	Exposure to Sectoral Risks	255
5.9	Macroeconomic and Financial Sector Vulnerabilities during Capital Inflow Episodes, Selected Countries and Years	258
6.1	Factors Affecting Volatility of Asset Prices in Emerging Markets, 1990s	321
6.2	Excess Volatility and Market Development	322
6.3	Settlement and Postsettlement Efficiency, Selected Emerging and Developed Markets, 1995	336
6.4	Bid-Ask Spreads in Emerging and Industrial Country Equity Markets, 1996	372
6.5	Major Types of Trading Systems	379

Text tables

1.1	Net Private Capital Inflows to 20 Developing Countries, 1990s	27	
1.2	Volatility of Private Capital Flows from the United States, 1980s and 1990s	31	
1.3	Volatility of Capital Flows, Selected Countries, 1980s and 1990s	31	
1.4	Surges in Private Capital Flows to 20 Countries: Policy Responses and Outcomes	36
