# BRIEF CONTENTS

---

## I

### INTRODUCTION: THINKING LIKE AN ECONOMIST

- 1 Economics and Economic Reasoning 4**
- 2 Trade, Trade-Offs, and Government Policy 21**  
Appendix A: Graphish: The Language of Graphs 44
- 3 The Evolving U.S. Economy in Perspective 53**  
Appendix A: The History of Economic Systems 77
- 4 Supply and Demand 83**
- 5 Using Supply and Demand 106**  
Appendix A: Algebraic Representation of Supply,  
Demand, and Equilibrium 124

## II

### MICROECONOMICS

#### I MICROECONOMICS: THE BASICS

- 6 Describing Supply and Demand: Elasticities 132**
- 7 Taxation and Government Intervention 157**

#### II FOUNDATIONS OF SUPPLY AND DEMAND

- 8 The Logic of Individual Choice: The Foundation  
of Supply and Demand 178**  
Appendix A: Indifference Curve Analysis 197
- 9 Production and Cost Analysis I 203**
- 10 Production and Cost Analysis II 220**  
Appendix A: Isocost/Isoquant Analysis 236

#### III MARKET STRUCTURE AND POLICY

- 11 Perfect Competition 241**
- 12 Monopoly 264**  
Appendix A: The Algebra of Competitive and  
Monopolistic Firms 283
- 13 Monopolistic Competition, Oligopoly, and  
Strategic Pricing 285**
- 14 Real-World Competition and Technology 309**
- 15 Antitrust Policy and Regulation 328**

#### IV FACTOR MARKETS

- 16 Work and the Labor Market 354**  
Appendix A: Derived Demand 377
- 17 Who Gets What? The Distribution of  
Income 384**

**V APPLYING ECONOMIC REASONING TO POLICY**

**18 Government Policy and Market Failures 408**

**19 Politics and Economics: The Case of Agricultural Markets 427**

**20 Microeconomic Policy, Economic Reasoning, and Beyond 442**

**21 International Trade Policy 460**

Appendix A: The Geometry of Absolute Advantage  
and Comparative Advantage 483

**BONUS WEB CHAPTER**

**Nonwage and Asset Income: Rents, Profits,  
and Interest**

# CONTENTS

## INTRODUCTION: THINKING LIKE AN ECONOMIST

### **I Economics and Economic Reasoning 4**

- What Economics Is 4
- A Guide to Economic Reasoning 5
  - Marginal Costs and Marginal Benefits 6
- KNOWING THE TOOLS: Economic Knowledge in One Sentence: TANSTAAFL 7
  - Economics and Passion 7
  - Opportunity Cost 8
  - Economic and Market Forces 9
- BEYOND THE TOOLS: Economics in Perspective 10
- Economic Terminology 11
- Economic Insights 11
  - The Invisible Hand Theory 12
- APPLYING THE TOOLS: Winston Churchill and Lady Astor 13
  - Economic Theory and Stories 13
  - Microeconomics and Macroeconomics 14
- Economic Institutions 14
- APPLYING THE TOOLS: Economics and Market Solutions 15
- Economic Policy Options 15
  - Objective Policy Analysis 16
  - Policy and Social and Political Forces 17
- Conclusion 17
  - Summary 18
  - Key Terms 18
  - Questions for Thought and Review 19

- Problems and Exercises 19*
- Web Questions 20*
- Answers to Margin Questions 20*

### **2 Trade, Trade-Offs, and Government Policy 21**

- The Production Possibilities Model 21
  - A Production Possibility Curve for an Individual 22
- KNOWING THE TOOLS: Dealing with Math Anxiety 23
  - A Production Possibility Curve for a Society 24
- KNOWING THE TOOLS: Production Possibility Curves 25
- BEYOND THE TOOLS: Choices in Context 26
  - Increasing Marginal Opportunity Cost 26
  - Efficiency 27
  - Distribution and Productive Efficiency 28
  - Examples of Shifts in the Production Possibility Curve 28
- Trade and Comparative Advantage 29
  - Markets, Specialization, and Growth 30
  - The Benefits of Trade 30
  - U.S. Textile Production and Trade 33
- Regulating Trade: Institutions, Government, and Trade 33
  - Roles of Government in a Market 34
- BEYOND THE TOOLS: Laissez-Faire Is Not Anarchy 35
  - Market Failures and Government Failures 38
  - Regulating Markets Internationally 38
- APPLYING THE TOOLS: The Emergence of Free Trade Associations 39
  - The Production Possibilities Model and Government Policy 40
- Conclusion 40

Summary	41
Key Terms	41
Questions for Thought and Review	41
Problems and Exercises	42
Web Questions	43
Answers to Margin Questions	43
Appendix A Graphish: The Language of Graphs	44

### 3 The Evolving U.S. Economy in Perspective 53

The U.S. Economy in Historical Perspective	54
How Markets Work	54
What's Good about the Market?	55
Capitalism and Socialism	55
APPLYING THE TOOLS: Tradition and Today's Economy	57
Evolving Economic Systems	57
BEYOND THE TOOLS: The Rise of Markets in Perspective	58
The U.S. Economy	59
Business	60
KNOWING THE TOOLS: The Stock Market	63
Households	64
Government	65
The U.S. Economy and Globalization	67
KNOWING THE TOOLS: Our International Competitors	68
Global Corporations	68
APPLYING THE TOOLS: A World Economic Geography Quiz	69
Global Markets	70
Surviving in a Global Economy	70
APPLYING THE TOOLS: Made in China?	72
Does Globalization Eliminate Jobs?	72
Dealing with Globalization	73
Conclusion	74
Summary	74
Key Terms	75
Questions for Thought and Review	75
Problems and Exercises	76
Web Questions	76
Answers to Margin Questions	76
Appendix A: The History of Economic Systems	77

### 4 Supply and Demand 83

Demand	83
The Law of Demand	84

The Demand Curve	84
Shifts in Demand versus Movements along a Demand Curve	85
Shift Factors of Demand	85
A Review	87
The Demand Table	87
From a Demand Table to a Demand Curve	88
Individual and Market Demand Curves	88
KNOWING THE TOOLS: Six Things to Remember about a Demand Curve	90
Supply	90
The Law of Supply	90
The Supply Curve	91
Shifts in Supply versus Movements along a Supply Curve	92
Shift Factors of Supply	92
A Shift in Supply versus a Movement along a Supply Curve	92
A Review	93
The Supply Table	94
From a Supply Table to a Supply Curve	94
KNOWING THE TOOLS: Six Things to Remember about a Supply Curve	95
Individual and Market Supply Curves	95
The Interaction of Supply and Demand	95
Equilibrium	96
What Equilibrium Isn't	96
Excess Supply	96
Excess Demand	96
Price Adjusts	97
The Graphical Interaction of Supply and Demand	97
Political and Social Forces and Equilibrium	98
Shifts in Supply and Demand	99
BEYOND THE TOOLS: The Supply and Demand for Children	100
The Limitations of Supply/Demand Analysis	100
Conclusion	101
Summary	102
Key Terms	102
Questions for Thought and Review	102
Problems and Exercises	103
Web Questions	104
Answers to Margin Questions	104

### 5 Using Supply and Demand 106

Real-World Supply and Demand Applications	106
The Market for Advertising	106

The Price of a Foreign Currency 108  
 Three Real-World Examples 109  
 KNOWING THE TOOLS: Supply and Demand in Action 111  
     A Review 112  
 Government Intervention in the Market 113  
     Price Ceilings 113  
     Price Floors 115  
     Excise Taxes 117  
     Quantity Restrictions 118  
     Third-Party-Payer Markets 119  
 Conclusion 120  
     Summary 121  
     Key Terms 121  
     Questions for Thought and Review 121  
     Problems and Exercises 122  
     Web Questions 123  
     Answers to Margin Questions 123  
 Appendix A: Algebraic Representation of Supply, Demand,  
 and Equilibrium 124

II

## MICROECONOMICS

### Section I

#### Microeconomics: The Basics

#### 6 Describing Supply and Demand: Elasticities 132

Price Elasticity 132  
     What Information Price Elasticity Provides 133  
     Classifying Demand and Supply as Elastic or  
     Inelastic 133  
     Elasticity Is Independent of Units 134  
 Calculating Elasticities 134  
 KNOWING THE TOOLS: Calculating Elasticity at a Point 136  
     Other Examples 137  
 Elasticity and Supply and Demand Curves 137  
     Elasticity Is Not the Same as Slope 137  
     Elasticity Changes along Straight-Line Curves 137  
 KNOWING THE TOOLS: Geometric Tricks for Estimating  
 Price Elasticity 139  
 Substitution and Elasticity 140  
     Substitution and Demand 140

Substitution and Supply 141  
     How Substitution Factors Affect Specific Decisions 141  
     Empirical Estimates of Elasticities of Demand and  
     Supply 142  
 Elasticity, Total Revenue, and Demand 143  
     Total Revenue along a Demand Curve 145  
     Elasticity of Individual and Market Demand 145  
 Other Elasticity Concepts 146  
 APPLYING THE TOOLS: Empirically Measuring Elasticities 147  
     Income Elasticity of Demand 147  
     Cross-Price Elasticity of Demand 148  
     Some Examples 149  
 The Power of Supply/Demand Analysis 149  
 KNOWING THE TOOLS: A Review of the Alternative  
 Elasticity Terms 150  
     When Should a Supplier Not Raise Price? 150  
     Elasticity and Shifting Supply and Demand 151  
 Conclusion 152  
     Summary 152  
     Key Terms 153  
     Questions for Thought and Review 153  
     Problems and Exercises 154  
     Web Questions 155  
     Answers to Margin Questions 156

#### 7 Taxation and Government Intervention 157

Producer and Consumer Surplus 157  
 Taxation and Government 158  
 BEYOND THE TOOLS: The Ambiguity of Total Surplus 159  
     How Much Should Government Tax? 160  
     Two Principles of Taxation 161  
 APPLYING THE TOOLS: What Goods Should Be Taxed? 163  
     Who Bears the Burden of a Tax? 163  
     Tax Incidence and Current Policy Debates 165  
 Government Intervention 166  
     Government Intervention as Implicit Taxation 166  
     Rent Seeking, Politics, and Elasticities 169  
 KNOWING THE TOOLS: Elasticity and Whether a Price  
 Increase Is Significant 171  
 Conclusion 173  
     Summary 174  
     Key Terms 174  
     Questions for Thought and Review 174  
     Problems and Exercises 175  
     Web Questions 176  
     Answers to Margin Questions 177

## Section II

### Foundations of Supply and Demand

#### 8 The Logic of Individual Choice: The Foundation of Supply and Demand 178

- Utility Theory and Individual Choice 178
  - Measuring Pleasure 179
  - Total Utility and Marginal Utility 179
  - Diminishing Marginal Utility 180
- Rational Choice and Marginal Utility 181
  - Some Choices 181
- BEYOND THE TOOLS: Psychology and Economics 182
  - The Principle of Rational Choice 183
  - Simultaneous Decisions 183
- Maximizing Utility and Equilibrium 184
  - An Example of Maximizing Utility 184
  - Extending the Principle of Rational Choice 186
- Rational Choice and the Laws of Demand and Supply 186
- KNOWING THE TOOLS: Income and Substitution Effects 187
  - The Law of Supply 188
  - Opportunity Cost 189
- Applying Economists' Theory of Choice to the Real World 190
  - The Cost of Decision Making 190
  - Given Tastes 191
  - Conspicuous Consumption 191
  - Tastes and Individual Choice 191
- APPLYING THE TOOLS: Making Stupid Decisions 192
- Conclusion 192
  - Summary 193
  - Key Terms 194
  - Questions for Thought and Review 194
  - Problems and Exercises 195
  - Web Questions 196
  - Answers to Margin Questions 196
- Appendix A: Indifference Curve Analysis 197

#### 9 Production and Cost Analysis I 203

- The Role of the Firm 204
  - The Firm and the Market 204
  - Firms Maximize Profit 204
- APPLYING THE TOOLS: Value Added and the Calculation of Total Production 205
- APPLYING THE TOOLS: Enron, Accounting Gimmicks, and the Theory of the Firm 206

- The Production Process 206
  - The Long Run and the Short Run 206
  - Production Tables and Production Functions 207
  - The Law of Diminishing Marginal Productivity 207
- The Costs of Production 209
  - Fixed Costs, Variable Costs, and Total Costs 209
  - Average Total Cost, Average Fixed Cost, and Average Variable Cost 210
  - Marginal Cost 211
- Graphing Cost Curves 211
  - Total Cost Curves 211
  - Average and Marginal Cost Curves 211
  - Downward-Sloping Shape of the Average Fixed Cost Curve 212
  - The U Shape of the Average and Marginal Cost Curves 212
  - The Relationship between the Marginal Productivity and Marginal Cost Curves 213
  - The Relationship between the Marginal Cost and Average Cost Curves 213

#### KNOWING THE TOOLS: Review of Costs 215

#### Intermission 216

- Summary 216
- Key Terms 217
- Questions for Thought and Review 217
- Problems and Exercises 218
- Web Questions 219
- Answers to Margin Questions 219

#### 10 Production and Cost Analysis II 220

- Making Long-Run Production Decisions 220
- Technical Efficiency and Economic Efficiency 221
- Determinants of the Shape of the Long-Run Cost Curve 221
  - Economies of Scale 221
- APPLYING THE TOOLS: Producing the Mazda Miata 222
  - Diseconomies of Scale 223
  - Constant Returns to Scale 224
  - The Importance of Economies and Diseconomies of Scale 224
- KNOWING THE TOOLS: Distinguishing Diseconomies of Scale from Diminishing Marginal Productivity 225
- Envelope Relationship 225
- APPLYING THE TOOLS: Why Are Textbooks So Long? 227
- Entrepreneurial Activity and the Supply Decision 227
- Using Cost Analysis in the Real World 227
  - Economies of Scope 228

- Learning by Doing and Technological Change 229
- Many Dimensions 231
- Unmeasured Costs 231
- The Standard Model as a Framework 232

APPLYING THE TOOLS: New Approaches in Cost Analysis 233

Conclusion and a Look Ahead 233

- Summary 233
- Key Terms 234
- Questions for Thought and Review 234
- Problems and Exercises 235
- Web Questions 235
- Answers to Margin Questions 236

Appendix A: Isocost/Isoquant Analysis 236

## Section III

### Market Structure and Policy

#### 11 Perfect Competition 241

- A Perfectly Competitive Market 241
  - The Necessary Conditions for Perfect Competition 242
  - The Definition of Supply and Perfect Competition 242

APPLYING THE TOOLS: The Internet and the Perfectly Competitive Model 243

Demand Curves for the Firm and the Industry 244

The Profit-Maximizing Level of Output 245

- Marginal Revenue 246
- Marginal Cost 246
- Profit Maximization:  $MC = MR$  246
- The Marginal Cost Curve Is the Supply Curve 247

APPLYING THE TOOLS: The Broader Importance of the

- $MR = MC$  Equilibrium Condition 248
- Firms Maximize Total Profit 248
- Profit Maximization Using Total Revenue and Total Cost 248

Total Profit at the Profit-Maximizing Level of Output 249

- Determining Profit from a Table of Costs and Revenue 249
- Determining Profit from a Graph 250

APPLYING THE TOOLS: Profit Maximization and Real-World Firms 252

The Shutdown Point 252

Short-Run Market Supply and Demand 253

KNOWING THE TOOLS: Finding Price, Output, and Profit 254

Long-Run Competitive Equilibrium 254

APPLYING THE TOOLS: The Shutdown Decision and the Relevant Costs 255

Adjustment from the Short Run to the Long Run 256  
An Increase in Demand 256

KNOWING THE TOOLS: A Summary of a Perfectly Competitive Industry 257

- Long-Run Market Supply 257
- An Example in the Real World 258

Conclusion 259

- Summary 259
- Key Terms 259
- Questions for Thought and Review 259
- Problems and Exercises 260
- Web Questions 262
- Answers to Margin Questions 262

#### 12 Monopoly 264

The Key Difference between a Monopolist and a Perfect Competitor 264

A Model of Monopoly 265

- Determining the Monopolist's Price and Output Numerically 265

KNOWING THE TOOLS: A Trick in Graphing the Marginal Revenue Curve 267

- Determining the Monopolist's Price and Output Graphically 267
- Comparing Monopoly and Perfect Competition 268
- An Example of Finding Output and Price 269

Profits and Monopoly 269

- A Monopolist Making a Profit 270
- A Monopolist Breaking Even and Making a Loss 270

KNOWING THE TOOLS: Finding a Monopolist's Output, Price, and Profit 271

The Welfare Loss from Monopoly 272

BEYOND THE TOOLS: Monopsony 273

The Price-Discriminating Monopolist 273

Barriers to Entry and Monopoly 274

- Natural Ability 274
- Economies of Scale 274

APPLYING THE TOOLS: Can Price Controls Increase Output and Lower Market Price? 275

Government-Created Monopolies 277

Normative Views of Monopoly 277

Government Policy and Monopoly: Aids Drugs 278

Conclusion 279

Summary 279  
 Key Terms 279  
 Questions for Thought and Review 280  
 Problems and Exercises 280  
 Web Questions 281  
 Answers to Margin Questions 282

Appendix A: The Algebra of Competitive and Monopolistic Firms 283

### 13 Monopolistic Competition, Oligopoly, and Strategic Pricing 285

The Problems of Determining Market Structure 285  
   Classifying Industries 286  
   Determining Industry Structure 287  
   Conglomerate Firms and Bigness 288  
   The Importance of Classifying Industry Structure 288  
 Characteristics of Monopolistic Competition 288  
 APPLYING THE TOOLS: Foreign Competitive Oligopolies 289  
   Many Sellers 289  
   Product Differentiation 289  
   Multiple Dimensions of Competition 290  
   Ease of Entry of New Firms in the Long Run 290  
 Output, Price, and Profit of a Monopolistic Competitor 290  
   Comparing Monopolistic Competition with Perfect Competition 291  
   Comparing Monopolistic Competition with Monopoly 293  
   Advertising and Monopolistic Competition 293  
 Characteristics of Oligopoly 294  
 Models of Oligopoly Behavior 294  
   The Cartel Model 294  
   The Contestable Market Model 297  
   Comparison of the Contestable Market Model and the Cartel Model 297  
   Strategic Pricing and Oligopoly 297  
 Game Theory, Oligopoly, and Strategic Decision Making 298  
 APPLYING THE TOOLS: A Beautiful Mind 299  
   Prisoner's Dilemma and a Duopoly Example 299  
   Duopoly and a Payoff Matrix 301  
 BEYOND THE TOOLS: Game Theory and Experimental Economics 302  
   Oligopoly Models, Structure, and Performance 302  
 KNOWING THE TOOLS: A Comparison of Various Market Structures 303  
 Conclusion 304

Summary 304  
 Key Terms 305  
 Questions for Thought and Review 305  
 Problems and Exercises 306  
 Web Questions 307  
 Answers to Margin Questions 307

### 14 Real-World Competition and Technology 309

The Goals of Real-World Firms and the Monitoring Problem 309  
   Short-Run versus Long-Run Profit 309  
   The Problem with Profit Maximization 310  
 APPLYING THE TOOLS: Who Controls Corporations? 311  
   What Do Real-World Firms Maximize? 312  
 The Lazy Monopolist and X-Inefficiency 312  
   How Competition Limits the Lazy Monopolist 313  
   Motivations for Efficiency Other than the Profit Incentive 313  
 The Fight between Competitive and Monopolistic Forces 314  
   How Monopolistic Forces Affect Perfect Competition 314  
   Economic Insights and Real-World Competition 315  
   How Competitive Forces Affect Monopoly 315  
   Competition and Natural Monopoly 316  
 How Firms Protect Their Monopolies 318  
   Cost/Benefit Analysis of Creating and Maintaining Monopolies 318  
 APPLYING THE TOOLS: Branding 319  
   Establishing Market Position 319  
   Technology 320  
 Technology, Efficiency, and Market Structure 320  
   Perfect Competition and Technology 320  
   Monopolistic Competition and Technology 321  
   Monopoly and Technology 321  
   Oligopoly and Technology 321  
   Network Externalities, Standards, and Technological Lock-In 322  
 Conclusion 323  
   Summary 324  
   Key Terms 324  
   Questions for Thought and Review 324  
   Problems and Exercises 325  
   Web Questions 326  
   Answers to Margin Questions 326

## 15 Antitrust Policy and Regulation 328

Antitrust Policy: Judgment by Performance or Structure? 328

History of U.S. Antitrust Laws 329

The Sherman Antitrust Act 329

The Standard Oil and American Tobacco Cases:

Judging Market Competitiveness by

Performance 330

The Clayton Act and the Federal Trade Commission Act 331

The ALCOA Case: Judging Market Competitiveness by Structure 331

Judging Markets by Structure and Performance:

The Reality 332

APPLYING THE TOOLS: Wal-Mart, State Laws, and Competition 333

Recent Antitrust Enforcement 334

Three Modern Antitrust Cases 334

The IBM Case 334

APPLYING THE TOOLS: Nefarious Business Practices 335

The AT&T Case 336

The Microsoft Case 338

Assessment of Antitrust Policy 341

Mergers, Acquisitions, and Takeovers 341

Acquisitions and Takeovers 342

Mergers 342

Recent Merger Activity and

Deacquisitions 344

Assessment of Mergers and Acquisitions 345

International Competition and Antitrust Policy in Other Countries 345

APPLYING THE TOOLS: Antitrust Agencies in Some Other Countries 346

APPLYING THE TOOLS: Accounting, Fraud, and Government Regulation 347

Regulation, Government Ownership, and Industrial Policies 347

Regulation 347

Government Ownership 349

Industrial Policies 349

Conclusion 350

Summary 350

Key Terms 351

Questions for Thought and Review 351

Problems and Exercises 352

Web Questions 352

Answers to Margin Questions 353

## Section IV Factor Markets

### 16 Work and the Labor Market 354

The Supply of Labor 355

KNOWING THE TOOLS: Income and Substitution Effects 356

Real Wages and the Opportunity Cost of Work 356

The Supply of Labor and Nonmarket Activities 357

Income Taxation, Work, and Leisure 357

The Elasticity of the Supply of Labor 358

Immigration and the International Supply of Labor 359

The Derived Demand for Labor 359

Factors Influencing the Elasticity of Demand for Labor 360

Labor as a Factor of Production 360

Shift Factors of Demand 361

The Role of Other Forces in Wage Determination 362

Imperfect Competition and the Labor Market 363

Monopsony 364

Union Monopoly Power 364

Bilateral Monopoly 365

Downsizing, Upsizing, and X-Inefficiency 365

Political and Social Forces and the Labor Market 365

BEYOND THE TOOLS: Nonwage Income and Property Rights 366

Fairness and the Labor Market 367

Job Discrimination and the Labor Market 368

BEYOND THE TOOLS: Democracy in the Workplace 369

The Evolution of Labor Markets 371

Conclusion: The Labor Market and You 372

Summary 374

Key Terms 375

Questions for Thought and Review 375

Problems and Exercises 375

Web Questions 376

Answers to Margin Questions 377

Appendix A: Derived Demand 377

### 17 Who Gets What? The Distribution of Income 384

Ways of Considering the Distribution of Income 385

The Share Distribution of Income 385

The Lorenz Curve 385

U.S. Income Distribution over Time 386

Defining Poverty	387
The Official Definition of Poverty	388
Debates about the Definition of Poverty	388
The Costs of Poverty	389
International Dimensions of Income Inequality	389
KNOWING THE TOOLS: The Gini Coefficient	390
Comparing Income Distribution across Countries	390
Income Distribution among Countries	391
The Total Amount of Income in Various Countries	391
The Distribution of Wealth	392
A Lorenz Curve of the Distribution of Wealth	392
How Much Wealth Do the Wealthy Have?	392
Socioeconomic Dimensions of Income Inequality	393
Income Distribution According to Socioeconomic Characteristics	393
Income Distribution According to Class	394
Income Distribution and Fairness	396
Philosophical Debates about Equality and Fairness	396
BEYOND THE TOOLS: What Should Be the Goal of Economic Policy?	397
Fairness and Equality	397
Fairness as Equality of Opportunity	398
The Problems of Redistributing Income	398
Three Important Side Effects of Redistributive Programs	398
Politics, Income Redistribution, and Fairness	399
Income Redistribution Policies	399
Taxation to Redistribute Income	399
Expenditure Programs to Redistribute Income	401
APPLYING THE TOOLS: From Welfare to Work	402

## Section V

### Applying Economic Reasoning to Policy

#### 18 Government Policy and Market Failures 408

Market Failures 408

KNOWING THE TOOLS: Pareto Optimality and the Perfectly Competitive Benchmark	409
Externalities	409
A Negative Externality Example	410
A Positive Externality Example	411
Alternative Methods of Dealing with Externalities	411
APPLYING THE TOOLS: Common Resources and the Tragedy of the Commons	412
Direct Regulation	412
Incentive Policies	412
Voluntary Reductions	414
The Optimal Policy	415
Public Goods	415
Informational Problems	417
Policies to Deal with Informational Problems	418
A Market in Information	418
Licensing of Doctors	419
The Informational Alternative to Licensure	419
APPLYING THE TOOLS: Licensure and Surgery	420
Government Failure and Market Failures	421
Conclusion	422
Summary	422
Key Terms	423
Questions for Thought and Review	423
Problems and Exercises	424
Web Questions	425
Answers to Margin Questions	425

#### 19 Politics and Economics: The Case of Agricultural Markets 427

The Nature of Agricultural Markets	427
APPLYING THE TOOLS: The Cost of a Box of Wheaties	428
The Good/Bad Paradox in Agriculture	428
The Long-Run Decline of Farming	428
The Short-Run Cyclical Problem Facing Farmers	429
The Difficulty of Coordinating Farm Production	430
Ways around the Good/Bad Paradox	430
The General Rule of Political Economy	430
Four Price Support Options	431
Supporting the Price by Regulatory Measures	432
Providing Economic Incentives to Reduce Supply	434
Subsidizing the Sale of the Good	434
Buying Up and Storing, Giving Away, or Destroying the Good	435
Which Group Prefers Which Option?	435
Economics, Politics, and Real-World Policies	436
Interest Groups	436

APPLYING THE TOOLS: Changes in U.S. Agricultural Policy 437

International Issues 437

Conclusion 437

Summary 438

Answers to Margin Questions 440

## 20 Microeconomic Policy, Economic Reasoning, and Beyond 442

Economists' Differing Views about Social Policy 443

How Economists' Value Judgments Creep into Policy Proposals 443

The Need for a Worldview 445

Agreement among Economists about Social Policy 445

Economists' Cost/Benefit Approach to Government Regulation 446

The Value of Life 446

Comparing Costs and Benefits of Different Dimensions 447

Putting Cost/Benefit Analysis in Perspective 448

The Problem of Other Things Changing 448

The Cost/Benefit Approach in Context 449

KNOWING THE TOOLS: Economic Efficiency and the Goals of Society 450

Failure of Market Outcomes 450

Distribution 450

Consumer Sovereignty and Rationality Problems 452

APPLYING THE TOOLS: Elasticity and Taxation to Change Behavior 453

Inalienable Rights 453

Government Failure 454

APPLYING THE TOOLS: The Conventional Policy Wisdom among Economists 455

Conclusion 456

Summary 457

Key Terms 457

Questions for Thought and Review 457

Problems and Exercises 458

Web Questions 459

Answers to Margin Questions 459

## 21 International Trade Policy 460

Patterns of Trade 460

Increasing but Fluctuating World Trade 460

Differences in the Importance of Trade 461

What and with Whom the United States Trades 461

Debtor and Creditor Nations 461

The Principle of Comparative Advantage 462

BEYOND THE TOOLS: International Issues in Perspective 463

APPLYING THE TOOLS: The Gains to International Traders 464

The Gains from Trade 464

Dividing Up the Gains from Trade 465

Varieties of Trade Restrictions 466

Tariffs and Quotas 466

Voluntary Restraint Agreements 468

Embargoes 469

Regulatory Trade Restrictions 469

Nationalistic Appeals 469

Reasons for Trade Restrictions 469

APPLYING THE TOOLS: Hormones and Economics 470

Unequal Internal Distribution of the Gains from Trade 470

Haggling by Companies over the Gains from Trade 472

Haggling by Countries over Trade Restrictions 472

Specialized Production 473

APPLYING THE TOOLS: The Antiglobalization Forces 474

Macroeconomic Aspects of Trade 475

National Security 475

International Politics 475

Increased Revenue Brought in by Tariffs 476

Why Economists Generally Oppose Trade Restrictions 476

Free Trade Increases Total Output 476

International Trade Provides Competition 476

Restrictions Based on National Security Are Often Abused or Evaded 477

Trade Restrictions Are Addictive 477

Institutions Supporting Free Trade 477

APPLYING THE TOOLS: Dumping 478

Conclusion 479

Summary 479

Key Terms 480
