CONTENTS

Prefacevi

Part 1 What Is Economics?

Introduction The Ordinary Business of Life ...1

- Any Given Sunday* 1
- The Invisible Hand 2
- My Benefit, Your Cost 3
- Good Times, Bad Times 4
- Onward and Upward 4
- An Engine for Discovery 4

Chapter...1 • First Principles5

Common Ground 5

Individual Choice: The Core of Economics 6

- Basic principle #1: Resources are scarce 6
- Basic principle #2: The real cost of something is what you must give up to get it 7

For Inquiring Minds: *Got a Penny?* 8

- Basic principle #3: "How much?" is a decision at the margin 8
- Basic principle #4: People usually exploit opportunities to make themselves better off 9

For Inquiring Minds: *Paying for Grades in Florida? Paying for Babies in Quebec?* 10

Individual choice: Summing it up 10

Economics in Action: *A Woman's Work* 10

Interaction: How Economies Work 11

- Principle of interaction #1: There are gains from trade 12
- Principle of interaction #2: Markets move towards equilibrium 13

For Inquiring Minds: *Choosing Sides* 13

- Principle of interaction #3: Resources should be used as efficiently as possible to achieve society's goals 14
- Principle of interaction #4: Markets usually lead to efficiency 15
- Principle of interaction #5: When markets don't achieve efficiency, government intervention can improve society's welfare 16

Economics in Action: *Restoring Equilibrium on the Freeways* 16

A Look Ahead 17

Chapter...2 • Economic Models: Trade-offs and Trade21

Tunnel Vision 21

Models in Economics: Some Important Examples 22

For Inquiring Minds: *Models for Money* 22

Trade-offs: The production possibility frontier 23
Comparative advantage and gains from trade 27

Pitfalls: *Misunderstanding Comparative Advantage* 30
Comparative advantage and international trade 30
Transactions: The circular-flow diagram 31

Economics in Action: *Rich Nation, Poor Nation* 34

Using Models 35

Positive versus normative economics 35
When and why economists disagree 36

For Inquiring Minds: *When Economists Agree* 37

Economics in Action: *Economists in Government* 38

A Look Ahead 38

Chapter 2 Appendix: Graphs in Economics42

Getting the Picture 42

Graphs, Variables, and Economic Models 42

How Graphs Work 42

Two-variable graphs 42
Curves on a graph 44

A Key Concept: The Slope of a Curve 45

The slope of a linear curve 45
Horizontal and vertical curves and their slopes 46
The slope of a nonlinear curve 47
Calculating the slope along a nonlinear curve 48
Maximum and minimum points 49

Graphs That Depict Numerical Information 50

Types of numerical graphs 50
Problems in interpreting numerical graphs 53

Part 2 Supply and Demand

Chapter...3 • Supply and Demand58

Gretzky's Last Game 58

Supply and Demand: A Model of a Competitive Market 59

The Demand Curve 59

The demand schedule and the demand curve 60
Shifts of the demand curve 61
Understanding shifts of the demand curve 62

Economics in Action: *Beating the Traffic* 65

The Supply Curve 65

The supply schedule and the supply curve 66
Shifts of the supply curve 67
Understanding shifts of the supply curve 68

Economics in Action: *Down (and Up) on the Farm* 69

Supply, Demand, and Equilibrium 70

Pitfalls: *Bought and Sold?* 71

Finding the equilibrium price and quantity 71

Why do all sales and purchases in a market take place at the same price? 72

Why does the market price fall if it is above the equilibrium price? 72

Why does the market price rise if it is below the equilibrium price? 73

Using equilibrium to describe markets 74

Economics in Action: *The Invisible Hand—Now You See It, Now You Don't* 74

Changes in Supply and Demand 75

What happens when the demand curve shifts 75

What happens when the supply curve shifts 76

Pitfalls: *Which Curve Is It Anyway?* 76

Simultaneous shifts in supply and demand 76

Economics in Action: *Plain Vanilla Gets Fancy* 78

For Inquiring Minds: *Supply, Demand, and Controlled Substances* 79

Competitive Markets—and Others 80

A Look Ahead 81

Chapter...4 • The Market Strikes Back85

Big Country, Small Ideas 85

Why Governments Control Prices 86

Using the Competitive Model 87

Price Ceilings 87

Price ceilings: Five key predictions 88

Comparing the predictions to the facts 92

The distinct nature of housing markets 92

For Inquiring Minds: *Why Rent Control Persists in New York* 93

Economics in Action: *Alternatives to Rent Controls in Canada* 95

Price Floors

Price floors: Five key predictions 96

Comparing the predictions to the facts 98

Economics in Action: *If Minimum Wages Are Not a Good Way of Helping Labour, Then What Is?* 101

Controlling Quantities 103

Canadian agricultural quotas 103

The anatomy of quotas 104

The cost of quotas 106

The future of quotas 106

Economics in Action: *The Atlantic Lobster Fishery* 107

A Surprise Parallel: Taxes 108

Why a tax is like a quota 108

Who pays an excise tax? 109

The revenue from an excise tax 110

The costs of taxation 111

Economics in Action: *When a Canadian Tax Became Too High* 111

A Look Ahead 112

Chapter...5 • Consumer and Producer Surplus117

Making Gains by the Book 117

Consumer Surplus and the Demand Curve 118

Willingness to pay and the demand curve 118

Willingness to pay and consumer surplus 119

How changing prices affect consumer surplus 121

For Inquiring Minds: *I Want a New Drug . . .* 123

Economics in Action: *When Money Isn't Enough* 124

Producer Surplus and the Supply Curve 124

Cost and producer surplus 124

Changes in producer surplus 127

Economics in Action: *Gaining from Disaster* 128

Consumer Surplus, Producer Surplus, and the Gains from Trade 129

The gains from trade 129

The efficiency of markets: A preliminary view 130

A few words of caution 133

Economics in Action: *eBay and Efficiency* 134

Applying Consumer and Producer Surplus:

The Efficiency Costs of a Tax 135

Deadweight loss and elasticities 138

Economics in Action: *In Canada, All That Glitters Is Taxed* 138

A Look Ahead 140

Part 3 Introduction to Macroeconomics

Chapter...6 • Macroeconomics: The Big Picture144

Disappointed Graduates 144

Macroeconomics versus Microeconomics 146

Macroeconomics: The whole is not the sum of its parts 147

Macroeconomics and the role of government policy 147

Macroeconomics and long-run growth 148

Macroeconomics and economic aggregates 148

Economics in Action: *The Great Depression* 149

The Business Cycle 150

For Inquiring Minds: *Defining Recessions and Expansions* 151

Employment and Unemployment 152

Aggregate output 152

Taming the business cycle 154

Economics in Action: *Has the Business Cycle Been Tamed?* 154

Long-Run Economic Growth 155

For Inquiring Minds: *When Did Long-Run Growth Start?* 156

Economics in Action: The Difference a Point Makes 156
Inflation and Deflation 157
Economics in Action: A Fast (Food) Measure of Inflation 159
The Open Economy 159
Economics in Action: The Fluctuating Loonie 161
A Look Ahead 162

▶ Chapter... 7 • Tracking the Macroeconomy165

After the Revolution 165
The National Accounts 166
 The circular-flow diagram, revisited and expanded 166
 Gross domestic product 169
 Calculating GDP 170
For Inquiring Minds: Our Imputed Lives 171
Pitfalls: GDP: What's In and What's Out? 172
For Inquiring Minds: Gross National or Gross Domestic Product? 173
 What GDP Tells Us 174
Economics in Action: The Underground Economy in Canada 174
Real GDP and Aggregate Output 175
 Calculating real GDP 175
 A technical detail: "chained" dollars 176
 What real GDP doesn't measure 177
Economics in Action: Good Decades, Bad Decades 178
The Unemployment Rate 179
 Calculating the unemployment rate 179
 Growth and unemployment 181
Economics in Action: Jobless Recoveries 182
Price Indexes and the Aggregate Price Level 182
 Market baskets and price indexes 183
 The consumer price index 184
 Other price measures 185
For Inquiring Minds: Is the CPI Biased? 186
Economics in Action: Indexing to the CPI 186
A Look Ahead 187

Part 4: The Economy in the Long Run

▶ Chapter... 8 • Long-Run Economic Growth192

The Bad Old Days 192
Comparing Economies Across Time and Space 193
 Real GDP per capita 193
Pitfalls: Change in Levels versus Rate of Change 194
 Growth rates 195
Economics in Action: The Luck of the Irish 196
The Sources of Long-Run Growth 197

The crucial importance of productivity 197
Explaining growth in productivity 197
Accounting for growth: The aggregate production function 198

Pitfalls: It May Be Diminished . . . But It's Still Positive 199

 What about natural resources? 202

For Inquiring Minds: Measurement Problems and Canada's Relative Productivity 202

Economics in Action: Canada's Slowdown in Productivity Growth 203

Why Growth Rates Differ 204

 Savings and investment spending 205

 Foreign investment 205

 Education 206

 Infrastructure 206

 Research and development 206

For Inquiring Minds: Inventing R&D 207

 Political stability, property rights, and excessive government intervention 207

Economics in Action: The Brazilian Breadbasket 207

Success, Disappointment, and Failure 208

 The East Asian miracle 209

 Latin America's disappointment 210

 Africa's troubles 210

Economics in Action: Are Economies Converging? 211

A Look Ahead 213

▶ Chapter... 9 • Savings, Investment Spending, and the Financial System216

A Hole in the Ground 216

Matching Savings and Investment Spending 217

Pitfalls: Investment versus Investment Spending 217

 The savings–investment spending identity 217

Pitfalls: The Different Kinds of Capital 220

For Inquiring Minds: Who Enforces the Accounting? 221

 The market for loanable funds 222

 Savings, investment spending, and government policy 225

Economics in Action: Budgets and Investment Spending in Canada in the 1990s 226

The Financial System 228

 Three tasks of a financial system 228

 Types of assets 231

 Financial intermediaries 232

Economics in Action: Banks and the South Korean Miracle 234

Financial Fluctuations 234

 The demand for stocks 235

For Inquiring Minds: Leading North American Indexes 236

 Stock market expectations 236

Stock prices and macroeconomics 237

Economics in Action: "Irrational Exuberance" 238

A Look Ahead 239

Part 5 Short-Run Economic Fluctuations

Chapter... 10 • Aggregate Supply and Aggregate Demand242

Shocks to the system 242

Aggregate Supply 243

The short-run aggregate supply curve 244

For Inquiring Minds: What's Truly Flexible, What's Truly Sticky 245

Shifts of the short-run aggregate supply curve 246

The long-run aggregate supply curve 248

From the short run to the long run 250

Pitfalls: Are We There Yet? What the Long Run Really Means 250

Economics in Action: *Prices and Output During the Great Depression* 251

Aggregate Demand 252

Why is the aggregate demand curve downward sloping? 253

Shifts of the aggregate demand curve 254

Pitfalls: Changes in Wealth: A Movement Along, versus a Shift of, the Aggregate Demand Curve 256

Government policies and aggregate demand 256

Economics in Action: *Moving Along the Aggregate Demand Curve, 1981–1982* 257

The Multiplier 258

The AS–AD model 262

Short-run macroeconomic equilibrium 262

Shifts of the SRAS curve 263

Shifts of aggregate demand: Short-run effects 264

Long-run macroeconomic equilibrium 264

Economics in Action: *Supply Shocks versus Demand Shocks in Practice* 268

Macroeconomic Policy 269

For Inquiring Minds: Keynes and the Long Run 270

Policy in the face of demand shocks 270

Responding to supply shocks 271

Economics in Action: *The End of the Great Depression* 272

A Look Ahead 272

Chapter... 11 • Income and Expenditure ...277

Be a Patriot and Spend 277

Consumer Spending 278

Current disposable income and consumer spending 278

Shifts of the aggregate consumption function 281

Economics in Action: *Famous First Forecasting*

Failures 282

Investment Spending 284

The interest rate and investment spending 284

Inventories and unplanned investment spending 286

Economics in Action: *A Tale of Two Investment Spending Slumps* 287

Behind Shifts of the Aggregate Demand Curve: The Income–Expenditure Model 288

Planned aggregate spending and real GDP 289

Income–expenditure equilibrium 291

Pitfalls: Income–Expenditure Equilibrium versus Short-Run Macroeconomic Equilibrium 292

The multiplier process and inventory adjustment 293

Economics in Action: *Bad Times in Buenos Aires* 296

A Look Ahead 297

Chapter 11 Appendix: Deriving the Multiplier Algebraically300

Chapter... 12 • Fiscal Policy301

A Bridge to Prosperity? 301

Fiscal Policy: The Basics 302

Taxes, purchases of goods and services, government transfers, and borrowing 303

For Inquiring Minds: Investment Tax Credits 305

The government budget and total spending 305

Expansionary and contractionary fiscal policy 306

A cautionary note: Lags in fiscal policy 307

A second caution: Deficits and debt 308

Economics in Action: *Canadian versus Japanese Fiscal Policy in the Early 1990s* 309

Fiscal Policy and the Multiplier 310

Multiplier effects of an increase in government purchases of goods and services 311

Multiplier effects of changes in government transfers and taxes 312

How taxes affect the multiplier 313

Other factors affecting the multiplier: Allowing for trade 314

Economics in Action: *Can the Provinces Engage in Discretionary Fiscal Policy?* 314

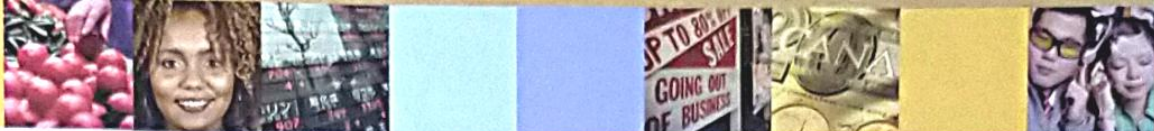

The Budget Balance 315

The budget balance as a measure of fiscal policy 316

The business cycle and the cyclically adjusted budget balance 317

Should the budget be balanced? 319

Economics in Action: *Stability Pact—or Stupidity Pact?* 320

Long-Run Implications of Fiscal Policy 321

Pitfalls: *Deficits versus Debt* 321

Deficits, surpluses, and debt 321

Problems posed by rising government debt 322

Deficits and debt in practice 323

For Inquiring Minds: *What Happened to the Debt from World War II?* 324

Is the debt war over? The problem of an aging population 325

Economics in Action: *Argentina's Creditors Take a Haircut* 327

A Look Ahead 329

Chapter 12 Appendix: Taxes and the Multiplier333

▶ Chapter... 13 • Money, Banking, and the Bank of Canada335

A Waggon-Way Through the Air 335

The Meaning of Money 336

What is money? 336

Pitfalls: *Plastic and the Money Supply* 336

Roles of money 337

Types of money 337

Measuring the money supply 338

For Inquiring Minds: *What's with All the Currency?* 339

Economics in Action: *The History of the Canadian Dollar* 340

The Monetary Role of Banks 341

What banks do 341

The problem of bank runs 342

For Inquiring Minds: *Is Banking a Con?* 342

Bank regulation 343

Economics in Action: *It's a Wonderful Banking System* 344

Determining the Money Supply 345

How banks create money 345

Reserves, bank deposits, and the money multiplier 347

The money multiplier in reality 347

Economics in Action: *Multiplying Money Down* 349

Central Banks 349

The functions of a central bank 350

The structure of the Bank of Canada 351

The Bank of Canada's Tools of Monetary Control 352

Reserve requirements 352

The Bank Rate 352

Open-market operations 354

Deposit switching 356

Economics in Action: *Interest Rate Targets versus Money Supply Targets* 357

A Look Ahead 358

▶ Chapter... 14 • Monetary Policy362

Eight Times a Year 362

The Demand for Money 363

The opportunity cost of holding money 363

The money demand curve 365

Prices and the demand for money 365

Shifts of the real money demand curve 367

The velocity approach to money demand 368

Economics in Action: *A Yen for Cash* 369

Money and Interest Rates 370

The equilibrium interest rate 370

Pitfalls: *The Target versus the Market* 371

Two models of interest rates? 371

Monetary policy and the interest rate 372

For Inquiring Minds: *Long-Term Interest Rates* 373

Economics in Action: *The Bank of Canada Takes Action* 374

Monetary Policy and Aggregate Demand 375

Expansionary and contractionary monetary policy 375

Monetary policy and the multiplier 379

Inflation targeting 380

Economics in Action: *The Bank of Canada, Inflation Targeting, and the Output Gap, 1992–2005* 383

Money, Output, and Prices in the Long Run 385

Short-run and long-run effects of an increase in the money supply 386

Monetary neutrality 387

A caveat about monetary neutrality 388

Economics in Action: *International Evidence of Monetary Neutrality* 389

A Look Ahead 390

Chapter 14 Appendix: The Relationship Between the Liquidity Preference Model of Interest Rate Determination and the Loanable Funds Model394

Part 6 The Supply Side and the Medium Run

▶ Chapter... 15 • Labour Markets, Unemployment, and Inflation398

The Naturally Churning Economy 398

The Nature of Unemployment 399

Frictional unemployment 400

Structural unemployment 403

Seasonal unemployment 405

Cyclical unemployment 406

Changes in the natural rate of unemployment 406

Economics in Action: *The Unemployment Rate Gap, Canada versus United States* 412

Unemployment and the Business Cycle 414

The output gap and the unemployment rate 414
Okun's law 416

Pitfalls: When Is a "Law" Not a Law? 416

Economics in Action: *Jobless Recoveries* 417

Why Doesn't the Labour Market Move Quickly to Equilibrium? 418

Misperceptions 418
Sticky wages 419

Economics in Action: *Sticky Wages During the Great Depression* 420

Unemployment and Inflation: The Phillips Curve 420

The short-run Phillips curve 420
Inflation expectations and the short-run Phillips curve 422

For Inquiring Minds: The Aggregate Supply Curve and the Short-Run Phillips Curve 423

The long-run Phillips curve 424
The natural rate, revisited 426

Economics in Action: *From the Scary Seventies to the New Millennium* 426

A Look Ahead 427

Chapter... 16 • Inflation, Disinflation, and Deflation431

Hourly Wages 431

Money and Inflation 432

Money and prices, revisited 432

For Inquiring Minds: Indexing to Inflation 435

The inflation tax 435
The logic of hyperinflation 436

Economics in Action: *Money and Prices in Brazil, 1985-1995* 437

Effects of Inflation 438

Winners and losers from unexpected inflation 438
Expected inflation and interest rates 439
The costs of inflation 440

Pitfalls: What Interest Rate for Money Demand? 441
The optimal rate of inflation 442

Economics in Action: *Inflation and Interest Rates in Canada* 444

Moderate Inflation and Disinflation 445

Causes of moderate inflation 445
The problem of disinflation 446
Supply shocks 446

Economics in Action: *The Great Disinflation of the 1980s* 447

Deflation 448

Effects of unexpected deflation 448

Effects of expected deflation 448

Economics in Action: *Japan's Trap* 449

A Look Ahead 450

Part 7 Events and Ideas

Chapter... 17 • The Making of Modern Macroeconomics453

Purge the Rottenness? 453

Classical Macroeconomics 454

Money and the price level 454
The business cycle 455

Economics in Action: *When Did the Business Cycle Begin?* 455

The Great Depression and the Keynesian Revolution 456

Keynes's theory 457

For Inquiring Minds: The Politics of Keynes 458

Policy to fight recessions 459

Economics in Action: *The End of the Great Depression* 459

Challenges to Keynesian Economics 460

The revival of monetary policy 460
Monetarism 461
Inflation and the natural rate of unemployment 463
The political business cycle 464

Economics in Action: *The Bank of Canada's Flirtation with Monetarism* 464

Rational Expectations, Real Business Cycles, and New Classical Macroeconomics 465

Rational expectations 465
Real business cycles 466

For Inquiring Minds: Supply-Side Economics 466

Economics in Action: *Total Factor Productivity and the Business Cycle* 467

The Modern Consensus 468

Is expansionary monetary policy helpful in fighting recessions? 468
Is fiscal policy effective in fighting recessions? 469
Can monetary and/or fiscal policy reduce unemployment in the long run? 469
Should fiscal policy be used in a discretionary way? 469
Should monetary policy be used in a discretionary way? 469
The clean little secret of macroeconomics 471

Economics in Action: *After the Bubble* 471

A Look Ahead 472

Part 8 The Open Economy

Chapter... 18 • International Trade475

A Rose by Any Other Nation 475

Comparative Advantage and International Trade 476

Production possibilities and comparative advantage, revisited 477

The gains from international trade 479

Pitfalls: *The Pauper Labour Fallacy* 480

Sources of comparative advantage 481

For Inquiring Minds: *Does Trade Hurt Poor Countries?* 481

For Inquiring Minds: *Increasing Returns and International Trade* 482

Economics in Action: *The Comparative Advantage of Canada* 483

Supply, Demand, and International Trade 484

The effects of imports 484

The effects of exports 487

International trade and factor markets 488

Economics in Action: *Trade, Wages, and Land Prices in the Nineteenth Century* 490

The Effects of Trade Protection 490

The effects of a tariff 491

The effects of an import quota 493

Economics in Action: *Trade Protection in Canada* 493

The Political Economy of Trade Protection 494

Arguments for trade protection 494

International trade agreements and the World Trade Organization 499

For Inquiring Minds: *The Multilateral Agreement on Investment* 500

The globalization controversy 500

Economics in Action: *Are WTO Policies Biased Against the Environment?* 501

A Look Ahead 502

Capital Flows and the Balance of Payments 508

Balance of payments accounts 508

For Inquiring Minds: *GDP, GNP, and the Current Account* 511

Modelling private international capital flows 511

Underlying determinants of international capital flows 514

For Inquiring Minds: *Twin Deficits?* 515

Economics in Action: *The Golden Age of Capital Flows* 515

The Role of the Exchange Rate 516

Understanding exchange rates 516

Pitfalls: *Which Way Is Up?* 517

The equilibrium exchange rate 517

Inflation and real exchange rates 520

Purchasing power parity 522

For Inquiring Minds: *Burgernomics* 523

Economics in Action: *The Loonie and the Deficit* 524

Exchange Rate Policy 525

Exchange rate regimes 525

How can an exchange rate be held fixed? 526

For Inquiring Minds: *From Bretton Woods to the Euro* 527

The exchange rate regime dilemma 528

Economics in Action: *China Pegs the Yuan* 529

Exchange Rates and Macroeconomic Policy 530

Devaluation and revaluation of fixed exchange rates 530

Monetary policy under floating exchange rates 531

International business cycles 532

Economics in Action: *The Joy of a Devalued Pound* 533

To See More 534
