BRIEF CONTENTS

■ PART I SOME PRELIMINARIES 1

- CHAPTER 1 Managers, Profits, and Markets 2
- CHAPTER 2 Demand, Supply, and Market Equilibrium 36
- CHAPTER 3 Marginal Analysis for Optimal Decisions 86
- CHAPTER 4 Basic Estimation Techniques 120

■ PART II DEMAND ANALYSIS 159

- CHAPTER 5 Theory of Consumer Behavior 160
- CHAPTER 6 Elasticity and Demand 204
- CHAPTER 7 Demand Estimation and Forecasting 243
- Online Topic 1: Estimating and Forecasting Demand for Price-Taking Firms

■ PART III PRODUCTION AND COST ANALYSIS 283

- CHAPTER 8 Production and Cost in the Short Run 284
- CHAPTER 9 Production and Cost in the Long Run 320
- CHAPTER 10 Production and Cost Estimation 371
- Online Topic 2: Linear Programming

■ PART IV PROFIT MAXIMIZATION IN VARIOUS MARKET STRUCTURES 397

- CHAPTER 11 Managerial Decisions in Competitive Markets 398
- CHAPTER 12 Managerial Decisions for Firms with Market Power 453
- CHAPTER 13 Strategic Decision Making in Oligopoly Markets 511

■ PART V ADVANCED TOPICS IN MANAGERIAL ECONOMICS 575

- CHAPTER 14 Advanced Pricing Techniques 576
- Online Topic 3: Pricing Multiple Products Related in Production
- CHAPTER 15 Decisions Under Risk and Uncertainty 624
- CHAPTER 16: Government Regulation of Business 653
- Online Topic 4: The Investment Decision

CONTENTS

■ PART I SOME PRELIMINARIES 1

CHAPTER 1 Managers, Profits, and Markets 2

- 1.1 The Economic Way of Thinking about Business Practices and Strategy 3
 - Economic Theory Simplifies Complexity 3
 - The Roles of Microeconomics and Industrial Organization 5
- 1.2 Measuring and Maximizing Economic Profit 8
 - Economic Cost of Using Resources 8
 - Economic Profit versus Accounting Profit 12
 - Maximizing the Value of the Firm 15
 - The Equivalence of Value Maximization and Profit Maximization 16
 - Some Common Mistakes Managers Make 17
- 1.3 Separation of Ownership and Control 20
 - The Principal-Agent Problem 21
 - Corporate Control Mechanisms 24
- 1.4 Market Structure and Managerial Decision Making 25
 - What Is a Market? 26
 - Different Market Structures 26
 - Globalization of Markets 28
- 1.5 Summary 30
 - Technical Problems 30
 - Applied Problems 31
 - Mathematical Appendix: Review of Present Value Calculations 33
 - Mathematical Exercises 35

CHAPTER 2 Demand, Supply, and Market Equilibrium 36

- 2.1 Demand 37
 - The General Demand Function:
 $Q_d = f(P, M, P_R, T, P_e, N)$ 37
 - Direct Demand Functions: $Q_d = f(P)$ 42
 - Inverse Demand Functions: $P = f(Q_d)$ 44
 - Movements along Demand 45
 - Shifts in Demand 46

- 2.2 Supply 49
 - The General Supply Function:
 $Q_s = f(P, P_i, P_r, T, P_e, F)$ 50
 - Direct Supply Functions: $Q_s = f(P)$ 53
 - Inverse Supply Functions: $P = f(Q_s)$ 54
 - Shifts in Supply 56
- 2.3 Market Equilibrium 58
- 2.4 Measuring the Value of Market Exchange 60
 - Consumer Surplus 61
 - Producer Surplus 63
 - Social Surplus 63
- 2.5 Changes in Market Equilibrium 65
 - Changes in Demand (Supply Constant) 65
 - Changes in Supply (Demand Constant) 66
 - Simultaneous Shifts in Both Demand and Supply 67
 - Predicting the Direction of Change in Airfares:
A Qualitative Analysis 70
 - Advertising and the Price of Potatoes:
A Quantitative Analysis 71
- 2.6 Ceiling and Floor Prices 74
- 2.7 Summary 76
 - Technical Problems 78
 - Applied Problems 83

CHAPTER 3 Marginal Analysis for Optimal Decisions 86

- 3.1 Concepts and Terminology 87
- 3.2 Unconstrained Maximization 89
 - The Optimal Level of Activity (A^*) 89
 - Marginal Benefit and Marginal Cost 93
 - Finding Optimal Activity Levels with
Marginal Analysis 95
 - Maximization with Discrete Choice Variables 97
 - Sunk Costs, Fixed Costs, and Average Costs
Are Irrelevant 99
- 3.3 Constrained Optimization 101
 - Marginal Benefit per Dollar Spent on
an Activity 101
 - Constrained Maximization 102
 - Optimal Advertising Expenditures: An Example of
Constrained Maximization 104
 - Constrained Minimization 105

- 3.4 Summary 108
 - Technical Problems 108
 - Applied Problems 113
 - Mathematical Appendix: A Brief Presentation of Optimization Theory 116
 - Mathematical Exercises 118

CHAPTER 4 Basic Estimation Techniques 120

- 4.1 The Simple Linear Regression Model 121
 - A Hypothetical Regression Model 121
 - The Random Error Term 122
- 4.2 Fitting a Regression Line 124
- 4.3 Testing for Statistical Significance 127
 - The Relative Frequency Distribution for \hat{b} 128
 - The Concept of a t -Ratio 130
 - Performing a t -Test for Statistical Significance 131
 - Using p -Values to Determine Statistical Significance 133
- 4.4 Evaluation of the Regression Equation 134
 - The Coefficient of Determination (R^2) 135
 - The F -Statistic 136
 - Controlling Product Quality at SLM: A Regression Example 136
- 4.5 Multiple Regression 140
 - The Multiple Regression Model 140
- 4.6 Nonlinear Regression Analysis 140
 - Quadratic Regression Models 141
 - Log-Linear Regression Models 145
- 4.7 Regression Analysis in Managerial Decision Making 148
- 4.8 Summary 149
 - Technical Problems 149
 - Applied Problems 153
 - Statistical Appendix: Problems Encountered in Regression Analysis 156

■ PART II DEMAND ANALYSIS 159

CHAPTER 5 Theory of Consumer Behavior 160

- 5.1 Basic Assumptions of Consumer Theory 161
 - The Consumer's Optimization Problem 161
 - Properties of Consumer Preferences 161
 - The Utility Function 163
- 5.2 Indifference Curves 165
 - Properties 165
 - Marginal Rate of Substitution 166
 - Indifference Maps 168
 - A Marginal Utility Interpretation of MRS 169

- 5.3 The Consumer's Budget Constraint 171
 - Budget Lines 171
 - Shifting the Budget Line 173
- 5.4 Utility Maximization 175
 - Maximizing Utility Subject to a Limited Money Income 175
 - Marginal Utility Interpretation of Consumer Optimization 178
 - Finding the Optimal Bundle of Hot Dogs and Cokes 181
- 5.5 Individual Consumer and Market Demand Curves 182
 - An Individual Consumer's Demand Curve 183
 - Market Demand and Marginal Benefit 184
- 5.6 Substitution and Income Effects 186
 - Substitution Effect 187
 - Income Effect 188
 - Why Demand Slopes Downward 192
- 5.7 Summary 192
 - Technical Problems 193
 - Applied Problems 200
 - Mathematical Appendix: A Brief Presentation of Consumer Theory 201
 - Mathematical Exercises 203

CHAPTER 6 Elasticity and Demand 204

- 6.1 The Price Elasticity of Demand 205
 - Predicting the Percentage Change in Quantity Demanded 207
 - Predicting the Percentage Change in Price 207
- 6.2 Price Elasticity and Total Revenue 208
 - Price Elasticity and Changes in Total Revenue 208
 - Changing Price at Borderline Music Emporium: A Numerical Example 210
- 6.3 Factors Affecting Price Elasticity of Demand 211
 - Availability of Substitutes 211
 - Percentage of Consumer's Budget 212
 - Time Period of Adjustment 212
- 6.4 Calculating Price Elasticity of Demand 213
 - Computation of Elasticity over an Interval 214
 - Computation of Elasticity at a Point 214
 - Elasticity (Generally) Varies along a Demand Curve 218
- 6.5 Marginal Revenue, Demand, and Price Elasticity 220
 - Marginal Revenue and Demand 220
 - Marginal Revenue and Price Elasticity 224
- 6.6 Other Demand Elasticities 225
 - Income Elasticity (E_M) 226
 - Cross-Price Elasticity (E_{XR}) 227

- 6.7 Summary 230
 - Technical Problems 232
 - Applied Problems 238
 - Mathematical Appendix: Demand Elasticity 239
 - Mathematical Exercises 241

CHAPTER 7 Demand Estimation and Forecasting 243

- 7.1 Direct Methods of Demand Estimation 245
 - Consumer Interviews 245
 - Market Studies and Experiments 248
- 7.2 Specification of the Empirical Demand Function 249
 - A General Empirical Demand Specification 249
 - A Linear Empirical Demand Specification 250
 - A Nonlinear Empirical Demand Specification 251
 - Choosing a Demand Specification 251
- 7.3 Estimating Demand for a Price-Setting Firm 253
 - Estimating Demand for a Pizza Firm: An Example 256
- 7.4 Time-Series Forecasts of Sales and Price 259
 - Linear Trend Forecasting 259
 - A Sales Forecast for Terminator Pest Control 260
 - A Price Forecast for Georgia Lumber Products 262
- 7.5 Seasonal (or Cyclical) Variation 262
 - Correcting for Seasonal Variation by Using Dummy Variables 263
 - The Dummy-Variable Technique: An Example 266
- 7.6 Some Final Warnings 269
- 7.7 Summary 275
 - Technical Problems 276
 - Applied Problems 279
 - Mathematical Appendix: Empirical Elasticities 281
 - Data Appendix: Data for Checkers Pizza 282

Online Topic 1: Estimating and Forecasting Demand for Price-Taking Firms

■ PART III PRODUCTION AND COST ANALYSIS 283

CHAPTER 8 Production and Cost in the Short Run 284

- 8.1 Some General Concepts in Production and Cost 285
 - Production Functions 286
 - Technical Efficiency and Economic Efficiency 286
 - Variable and Fixed Inputs in Production 287
 - Short-Run and Long-Run Production Periods 288
 - Sunk Costs versus Avoidable Costs 290
 - Fixed or Variable Proportions 291

- 8.2 Production in the Short Run 292
 - Total Product 292
 - Average and Marginal Products 293
 - Law of Diminishing Marginal Product 296
 - Changes in Fixed Inputs 297
- 8.3 Short-Run Costs of Production 299
 - Short-Run Total Costs 300
 - Average and Marginal Costs 303
 - General Short-Run Average and Marginal Cost Curves 305
- 8.4 Relations between Short-Run Costs and Production 306
 - Total Costs and the Short-Run Production Function 307
 - Average Variable Cost and Average Product 308
 - Marginal Cost and Marginal Product 309
 - The Graphical Relation between *AVC*, *SMC*, *AP*, and *MP* 309
- 8.5 Summary 312
 - Technical Problems 312
 - Applied Problems 316
 - Mathematical Appendix: Short-Run Production and Cost Relations 317
 - Mathematical Exercises 319

CHAPTER 9 Production and Cost in the Long Run 320

- 9.1 Production Isoquants 321
 - Characteristics of Isoquants 322
 - Marginal Rate of Technical Substitution 323
 - Relation of *MRTS* to Marginal Products 324
- 9.2 Isocost Curves 325
 - Characteristics of Isocost Curves 325
 - Shifts in Isocost Curves 326
- 9.3 Finding the Optimal Combination of Inputs 327
 - Production of a Given Output at Minimum Cost 328
 - The Marginal Product Approach to Cost Minimization 329
 - Production of Maximum Output with a Given Level of Cost 331
- 9.4 Optimization and Cost 333
 - An Expansion Path 333
 - The Expansion Path and the Structure of Cost 335
- 9.5 Long-Run Costs 336
 - Derivation of Cost Schedules from a Production Function 336
- 9.6 Forces Affecting Long-Run Costs 341
 - Economies and Diseconomies of Scale 341
 - Economies of Scope in Multiproduct Firms 346
 - Purchasing Economies of Scale 351
 - Learning or Experience Economies 352

- 9.7 Relations between Short-Run and Long-Run Costs 355
 - Long-Run Average Cost as the Planning Horizon 356
 - Restructuring Short-Run Costs 357
- 9.8 Summary 360
 - Technical Problems 361
 - Applied Problems 365
 - Mathematical Appendix: Production and Cost Relations with Two Variable Inputs 367
 - Mathematical Exercises 370

CHAPTER 10 Production and Cost Estimation 371

- 10.1 Specification of the Short-Run Production Function 372
- 10.2 Estimation of a Short-Run Production Function 374
- 10.3 Short-Run Cost Estimation: Some Problems with Measuring Cost 378
 - Correcting Data for the Effects of Inflation 378
 - Problems Measuring Economic Cost 379
- 10.4 Estimation of a Short-Run Cost Function 380
 - Estimation of Typical Short-Run Costs 380
 - Estimation of Short-Run Costs at Rockford Enterprises: An Example 383
- 10.5 Summary 386
 - Technical Problems 386
 - Applied Problems 388
 - Mathematical Appendix: Empirical Production and Cost Relations 389
 - Mathematical Exercises 395

Online Topic 2: Linear Programming

■ **PART IV PROFIT MAXIMIZATION IN VARIOUS MARKET STRUCTURES 397**

CHAPTER 11 Managerial Decisions in Competitive Markets 398

- 11.1 Characteristics of Perfect Competition 400
- 11.2 Demand Facing a Price-Taking Firm 401
- 11.3 Profit Maximization in the Short Run 403
 - The Output Decision: Earning Positive Economic Profit 404
 - The Output Decision: Operating at a Loss or Shutting Down 409
 - The Irrelevance of Sunk Costs, Fixed Costs, and Average Costs 413

- Short-Run Supply for the Firm and Industry 415
- Producer Surplus and Profit in Short-Run Competitive Equilibrium 416
- 11.4 Profit Maximization in the Long Run 418
 - Profit-Maximizing Equilibrium for the Firm in the Long Run 418
 - Long-Run Competitive Equilibrium for the Industry 419
 - Long-Run Supply for a Perfectly Competitive Industry 421
 - Economic Rent and Producer Surplus in Long-Run Equilibrium 426
- 11.5 Profit-Maximizing Input Usage 429
 - Marginal Revenue Product and the Hiring Decision 429
 - Average Revenue Product and the Shutdown Decision 432
- 11.6 Implementing the Profit-Maximizing Output Decision 433
 - General Rules for Implementation 433
 - Profit Maximization at Beau Apparel: An Illustration 435
- 11.7 Summary 441
 - Technical Problems 441
 - Applied Problems 447
 - Mathematical Appendix: Profit Maximization for Price-Taking Firms 450

CHAPTER 12 Managerial Decisions for Firms with Market Power 453

- 12.1 Measurement of Market Power 455
 - Market Definition 456
 - Elasticity of Demand 456
 - The Lerner Index 457
 - Cross-Price Elasticity of Demand 458
- 12.2 Barriers to Entry 458
 - Economies of Scale 459
 - Barriers Created by Government 459
 - Essential Input Barriers 462
 - Brand Loyalties 463
 - Consumer Lock-In 463
 - Network Externalities (or Network Effects) 464
 - Sunk Costs as a General Barrier to Entry 465
- 12.3 Profit Maximization under Monopoly: Output and Pricing Decisions 467
 - Demand and Marginal Revenue for a Monopolist 468
 - Maximizing Profit at Southwest Leather Designs: An Example 469
 - Short-Run Equilibrium: Profit Maximization or Loss Minimization 471
 - Long-Run Equilibrium 474

- 12.4 Profit-Maximizing Input Usage 478
- 12.5 Monopolistic Competition 481
 - Short-Run Equilibrium 482
 - Long-Run Equilibrium 482
- 12.6 Implementing the Profit-Maximizing Output and Pricing Decision 485
 - General Rules for Implementation 487
 - Maximizing Profit at Aztec Electronics: An Example 489
- 12.7 Multiplant Firms 493
 - Multiplant Production at Mercantile Enterprises 494
- 12.8 Summary 498
 - Technical Problems 499
 - Applied Problems 505
 - Mathematical Appendix: Profit Maximization for a Monopoly 508

CHAPTER 13 Strategic Decision Making in Oligopoly Markets 511

- 13.1 Decision Making When Rivals Make Simultaneous Decisions 513
 - The Prisoners' Dilemma 516
 - Decisions with One Dominant Strategy 518
 - Successive Elimination of Dominated Strategies 520
 - Nash Equilibrium: Making Mutually Best Decisions 522
 - Super Bowl Advertising: An Example of Nash Equilibrium 524
 - Best-Response Curves and Continuous Decision Choices 526
- 13.2 Strategy When Rivals Make Sequential Decisions 533
 - Making Sequential Decisions 533
 - First-Mover and Second-Mover Advantages 536
 - Strategic Moves: Commitments, Threats, and Promises 538
- 13.3 Cooperation in Repeated Strategic Decisions 541
 - One-Time Prisoners' Dilemma Decisions 541
 - Punishment for Cheating in Repeated Decisions 543
 - Deciding to Cooperate 544
 - Trigger Strategies for Punishing Cheating 546
 - Pricing Practices That Facilitate Cooperation 547
 - Explicit Price-Fixing Agreements and Cartels 550
 - Tacit Collusion 554
- 13.4 Strategic Entry Deterrence 555
 - Limit Pricing 555
 - Capacity Expansion as a Barrier to Entry 559
- 13.5 Summary 561
 - Technical Problems 562
 - Applied Problems 566
 - Mathematical Appendix: Derivation of Best-Response Curves for Continuous Simultaneous Decisions 570
 - Mathematical Exercises 573

PART V ADVANCED TOPICS IN MANAGERIAL ECONOMICS 575

CHAPTER 14 Advanced Pricing Techniques 576

- 14.1 Price Discrimination: Capturing Consumer Surplus 577
 - The Trouble with Uniform Pricing 577
 - Types of Price Discrimination 579
 - Conditions for Profitable Price Discrimination 580
- 14.2 First-Degree (or Perfect) Price Discrimination 581
- 14.3 Second-Degree Price Discrimination Methods 583
 - Two-Part Pricing 585
 - Declining Block Pricing 593
- 14.4 Third-Degree Price Discrimination 595
 - Allocation of Sales in Two Markets to Maximize Revenue 595
 - Profit Maximization with Third-Degree Price Discrimination 598
- 14.5 Pricing Practices for Multiproduct Firms 603
 - Pricing Multiple Products Related in Consumption 604
 - Bundling Multiple Products 607
- 14.6 Cost-Plus Pricing 610
 - Practical and Conceptual Shortcomings 611
- 14.7 Summary 615
 - Technical Problems 615
 - Applied Problems 618
 - Mathematical Appendix: Two-Part Pricing with Two Identical Groups of Buyers 622

Online Topic 3: Pricing Multiple Products Related in Production

CHAPTER 15 Decisions Under Risk and Uncertainty 624

- 15.1 Distinctions between Risk and Uncertainty 625
- 15.2 Measuring Risk with Probability Distributions 626
 - Probability Distributions 626
 - Expected Value of a Probability Distribution 627
 - Dispersion of a Probability Distribution 628
- 15.3 Decisions under Risk 631
 - Maximization of Expected Value 631
 - Mean-Variance Analysis 633
 - Coefficient of Variation Analysis 634
 - Which Rule Is Best? 634
- 15.4 Expected Utility: A Theory of Decision Making under Risk 636
 - A Manager's Utility Function for Profit 637
 - Deriving a Utility Function for Profit 639
 - Maximization of Expected Utility 641

- 15.5 Decisions under Uncertainty 644
 - The Maximax Criterion 644
 - The Maximin Criterion 646
 - The Minimax Regret Criterion 646
 - The Equal Probability Criterion 647
- 15.6 Summary 647
 - Technical Problems 648
 - Applied Problems 651
 - Mathematical Appendix: Decisions under Risk 652

CHAPTER 16 Government Regulation of Business 653

- 16.1 Market Competition and Social Economic Efficiency 654
 - Efficiency Conditions for Society 655
 - Social Economic Efficiency under Perfect Competition 656
- 16.2 Market Failure and the Case for Government Intervention 659
- 16.3 Market Power and Public Policy 661
 - Market Power and Allocative Inefficiency 661

- Market Power and Deadweight Loss 662
- Promoting Competition through Antitrust Policy 663
- Natural Monopoly and Market Failure 665
- Regulating Price under Natural Monopoly 667
- 16.4 The Problem of Negative Externality 670
 - Pollution: Market Failure and Regulation 673
- 16.5 Nonexcludability 680
 - Common Property Resources 680
 - Public Goods 683
- 16.6 Information and Market Failure 684
 - Imperfect Information about Prices 684
 - Imperfect Information about Product Quality 685
 - Information as a Public Good 686
- 16.7 Summary 688
 - Technical Problems 689
 - Applied Problems 695

Online Topic 4: The Investment Decision

APPENDIX: STATISTICAL TABLES 697

ANSWERS TO TECHNICAL PROBLEMS 701

INDEX 734

ILLUSTRATIONS IN THE TENTH EDITION

- 1.1 Managerial Economics: The Right R_x for Doctors
- 1.2 The Sarbanes-Oxley Act: Will It Close the GAAP between Economic and Accounting Profit?
- 1.3 Is Baseball Going Broke? Accounting Profits vs. Market Values
- 1.4 Managerial Strategy: Maximize Profit or Maximize Market Share?
- 1.5 Internet Spurs Globalization of Services
- 2.1 Effects of Changes in Determinants of Demand
- 2.2 Do Buyers Really Bid Up Prices?
- 2.3 Did Globalization Kill U.S. Manufacturing?
- 3.1 Is Cost-Benefit Analysis Really Useful?
- 3.2 Seattle Seahawks Win on "Bang Per Buck" Defense
- 4.1 R&D Expenditures and the Value of the Firm
- 4.2 Do Auto Insurance Premiums Really Vary with Costs?
- 5.1 To Fly Fast or To Fly Far: Trade-offs in the Market
- 5.2 "We're Number One" (in MU/P) and That's Not Bad
- 6.1 Texas Calculates Price Elasticity
- 6.2 Empirical Elasticities of Demand
- 7.1 Demand for Imported Goods in Trinidad and Tobago: A Log-Linear Estimation
- 7.2 Estimating the Demand for Corporate Jets
- 7.3 Forecasting New-Home Sales: A Time-Series Forecast
- 8.1 Employing More and Better Capital Boosts Productivity in U.S. Petroleum and Chemical Industries
- 8.2 Implicit Costs and Household Decision Making
- 9.1 Downsizing or Dumbsizing: Optimal Input Choice Should Guide Restructuring Decisions
- 9.2 Declining Minimum Efficient Scale (MES) Changes the Shape of Semiconductor Manufacturing
- 9.3 Scale and Scope Economies in the Real World
- 11.1 Chevron Focuses on Profit Margin: Can It Maximize Profit Anyway?
- 11.2 Government Bailouts Threaten Recovery of Global Semiconductor Market
- 12.1 Is Microsoft a Monopoly?
- 12.2 Quasi-Fixed Costs and Pricing Decisions by Stainless Steel Makers
- 12.3 Can Monopolistic Competitors Protect Their Profits? Only Time Will Tell
- 13.1 How Can Game Theory Be Used in Business Decision Making? Answers from a Manager
- 13.2 Mr. Nash Goes to Hollywood
- 13.3 How to Avoid Price Wars and Stay Out of Jail Too
- 13.4 Does OPEC Cheating on Quotas Matter?
- 14.1 Sometimes It's Hard to Price-Discriminate
- 14.2 Computer Printers and Replacement Cartridges: Pricing Multiple Products That Are Complements
- 14.3 The "Untimely" Death of Cost-Plus Pricing
- 15.1 Lowering Risk by Diversification
- 15.2 Floating Power Plants Lower Risks and Energize Developing Nations
- 16.1 Taming Negative Externality with Congestion Pricing
- 16.2 Comparison Pricing in Health Care Off to a Slow Start
