

# Advanced Machining Processes

NONTRADITIONAL and HYBRID MACHINING PROCESSES

- Water Jet Machining (WJM)
- Electrochemical Machining (ECM)
- Electro Discharge Machining (EDM)
- Hybrid Electrochemical Processes

Hassan El-Hofy

## Advanced Machining Processes

Nontraditional and Hybrid Machining Processes

### Hassan El-Hofy

ISBN 0-07-145334-2

The sponsoring editor for this book was Kenneth P. McCombs and the production supervisor was Sherri Souffrance. It was set in Century Schoolbook by International Typesetting and Composition. The art director for the cover was Anthony Landi.

Printed and bound by RR Donnelley.

This book was printed on recycled, acid-free paper containing a minimum of 50% recycled, de-inked fiber.

McGraw-Hill books are available at special quantity discounts to use as premiums and sales promotions, or for use in corporate training programs. For more information, please write to the Director of Special Sales, McGraw-Hill Professional, Two Penn Plaza, New York, NY 10121-2298. Or contact your local bookstore.
