## NOTICE TO THE READER

Publisher does not warrant or guarantee any of the products described herein or perform any independent analysis in connection with any of the product information contained herein. Publisher does not assume, and expressly disclaims, any obligation to obtain and include information other than that provided to it by the manufacturer.

The reader is expressly warned to consider and adopt all safety precautions that might be indicated by the activities described herein and to avoid all potential hazards. By following the instructions contained herein, the reader willingly assumes all risks in connection with such instructions.

The publisher makes no representation or warranties of any kind, including but not limited to, the warranties of fitness for particular purpose or merchantability, nor are any such representations implied with respect to the material set forth herein, and the publisher takes no responsibility with respect to such material. The publisher shall not be liable for any special, consequential or exemplary damages resulting, in whole or in part, from the readers' use of, or reliance upon, this material.

## DEDICATION

The author would like to dedicate this book to his sons, Matthew and Joshua, for their continued support and understanding during the writing of this textbook.

# CONTENTS

PREFACE ix  
SAFETY GUIDELINES xii

## SECTION ONE INTRODUCTION TO TRANSPORTATION, ENERGY, AND POWER TECHNOLOGY 1

**CHAPTER 1 ■ Transportation, Energy, and Power Technology 2**  
Introduction 2  
Transportation, Energy, and Power Technology 3  
Systems of Technology 7  
Making Decisions about Technology 9  
Careers in Transportation, Energy, and Power 11  
Summary 17  
Review 18  
Chapter Activities 18

## SECTION TWO TRANSPORTATION TECHNOLOGY 21

**CHAPTER 2 ■ Introduction to Transportation Technology 22**  
Introduction 22  
Transportation Technology 23  
Technological Systems in Transportation 27  
Need for Transportation in Society 31  
Summary 35  
Review 36  
Chapter Activities 36

**CHAPTER 3 ■ Introduction to Land Transportation 39**  
Introduction 39

## vi ■ CONTENTS

Land Transportation Technology	40
Specialized Land Transportation Networks and Needs	45
Support Technology for Land Transportation	47
Summary	48
Review	49
Chapter Activities	49

### CHAPTER 4 ■ Modes of Land Transportation 53

Introduction	53
Bus Transportation Systems	54
Trucking Transportation	57
Automobiles for Transportation	59
Pipeline Transportation	64
Rail Transportation	66
Recreational Transportation	68
Summary	69
Review	70
Chapter Activities	70

### CHAPTER 5 ■ Introduction to Marine Transportation 75

Introduction	75
Marine Transportation	76
Marine Terms and Definitions	80
Marine Waterways	84
Summary	86
Review	86
Chapter Activities	87

### CHAPTER 6 ■ Marine Transportation Technology 89

Introduction	89
Support Facilities	90
Types of Vessels, Boats, and Other Craft	94
Associated Technology	100
Summary	103
Review	104
Chapter Activities	104

### CHAPTER 7 ■ Air Transportation 109

Introduction	109
Air Transportation	110
Aviation Principles	116
Aircraft Control, Parts, Systems, and Design	121

Summary	126
Review	127
Chapter Activities	127

### CHAPTER 8 ■ Space Transportation Systems 129

Introduction	129
The Need for Space Transportation	130
Spinoffs from Space Research	135
Space Environment	137
Technological Fundamentals	138
Summary	144
Review	145
Chapter Activities	145

## SECTION THREE ENERGY TECHNOLOGY 149

### CHAPTER 9 ■ Introduction to Energy Technology 150

Introduction	150
Energy Technology	151
Forms of Energy	151
Energy Terminology	161
Energy Supply and Demand	164
Summary	167
Review	168
Chapter Activities	168

### CHAPTER 10 ■ Fossil Fuel Energy Resources 172

Introduction	172
Coal Energy Resources	173
Petroleum Energy Resources	182
Natural Gas Energy Resources	187
Summary	190
Review	191
Chapter Activities	191

### CHAPTER 11 ■ Solar Energy

#### Resources 194

Introduction	194
Solar Principles	195
Solar Energy Systems	202
Summary	211
Review	212
Chapter Activities	212

### CHAPTER 12 ■ Renewable Energy

#### Resources 220

Introduction	220
Hydroelectric Energy Resources	221
Wind Energy Resources	223
Biomass and Wood Energy Resources	227
Ocean Thermal Energy Conversion (OTEC)	233
Geothermal Energy Resources	234
Summary	236
Review	237
Chapter Activities	237

### CHAPTER 13 ■ Nuclear Energy 241

Introduction	241
Nuclear Energy	242
Nuclear Chemistry	244
Types of Nuclear Reactors	248
Nuclear Waste Management	251
Nuclear Fusion	253
Summary	255
Review	255
Chapter Activities	256

### CHAPTER 14 ■ Energy Conservation 258

Introduction	258
Principles of Energy Conservation	259
Energy Conservation — Residential/Commercial Sector	266
Energy Conservation — Transportation Sector	272

Summary	272
Review	274
Chapter Activities	274

## SECTION FOUR POWER TECHNOLOGY 279

### CHAPTER 15 ■ Mechanical Power Systems 280

Introduction	280
Defining Mechanical Power	281
Converter Efficiency	282
Measuring Mechanical Power	284
Altering Mechanical Power	288
Controlling Mechanical Power	291
Summary	294
Review	294
Chapter Activities	295

### CHAPTER 16 ■ Heat Engine Design 299

Introduction	299
Types of Engines	300
Heat Engine Parts and Systems	302
Combustion Requirements	306
Four-stroke Engine Design	309
Two-cycle Engine Design	312
Diesel Engine Design	314

Rotary Engine Design (Wankel) 316  
Continuous Combustion Engine Designs 317  
Summary 321  
Review 322  
Chapter Activities 322

**CHAPTER 17 ■ Electrical Power 326**

Introduction 326  
Basic Electricity 327  
Basic Circuits 331  
Magnetism 335  
Solid-state Components 338  
Summary 340  
Review 341  
Chapter Activities 341

**CHAPTER 18 ■ Small Gas Engines 343**

Introduction 343  
Small Gas Engine Applications 344  
Basic Engine Design Variations 344  
Mechanical Parts 346  
Engine Systems 351  
Troubleshooting Small Gas Engines 357  
Summary 358  
Review 359  
Chapter Activities 359

**CHAPTER 19 ■ Fluid Power 363**

Introduction 363  
Fluid Power Principles 364  
Force and Pressure 365  
Fluid Characteristics 369  
Fluid Power Components 370  
Summary 375  
Review 376  
Chapter Activities 377

**SECTION FIVE**  
**THE FUTURE 379**

**CHAPTER 20 ■ Future Transportation, Energy, and Power Technology 380**

Introduction 380  
Forecasting Future Technology 381  
Future Technology in Transportation 383  
Future Technology in Energy 387  
Future Technology in Power 389  
The Systems Model and the Future 392  
Summary 392  
Review 393  
Chapter Activities 393

**APPENDIXES 396**

Appendix A — Mathematical Appendix 396  
Appendix B — Metric Decimal Prefixes 398  
Appendix C — Energy Content of Fuels 398

**GLOSSARY 399**

**INDEX 408**
