SERIES OVERVIEW

Thank you for choosing *Reflect Listening & Speaking*. This information will familiarize you with the series.

Look at the **Scope and Sequence** (Student's Book, pp ii-v). The book is organized into eight units, each of which is based on a high-interest theme within an academic discipline. Each unit features a Listen & Speak and Watch & Speak section, relevant academic skills, three Reflect activities, and a final Unit Task.

Turn to a **Unit Opener**. Notice the path of activities under **In This Unit** and the **Skills** listed to help you and the student know what to expect.

Look at a **Listen & Speak** or **Watch & Speak** section. The audio and video inputs are adapted or taken directly from a variety of sources, including National Geographic. These real-world inputs give students the opportunity to engage with authentic communication and help make the topics more relevant. Before-, during-, and after-viewing activities support students' comprehension and enhance their experience.

WATCH & SPEAK

SCIENCE YOU CAN DO AT HOME

A PREDICT Look at the names of the experiments you will watch. What do you think will happen in each experiment? Tell a partner.

B MAIN HEAR Watch the video and take notes. Check your predictions in activity A. Then take your notes and match the number of the experiment to the name.

C DETAILS Search again. There are two headlines in the steps for each experiment. Copy the headlines.

EXPERIMENT 1

1. Place a glass with water.
2. Drop a coin into the water.
3. Drop a coin into the water.
4. Drop a coin into the water.

EXPERIMENT 2

1. Take a balloon and fill it with water.
2. Put the balloon on your head.
3. Turn on the fan.
4. Make the balloon jump from the water.

EXPERIMENT 3

1. Take a balloon and fill it with water.
2. Put the balloon on your head.
3. Turn on the fan.
4. Make the balloon jump from the water.

D Watch with a partner and discuss the questions.

1. Which experiment did you like the most?
2. How do you think any of these experiments? (1-5, what happened?)
3. Which experiment do you think was the easiest to do?

Notice the three **Reflect** activities in a unit. These activities are placed at transition points in the unit to provide opportunities for personalization and higher-level thinking. In each activity, students are asked to work in-depth with ideas that will be useful to them as they progress towards the Unit Task and through their academic careers.

REFLECT **SPEAKING** **Support your opinions**
 Listen and read about different opinions about the best way to learn a second language. Read the statements and decide if you agree or disagree. Write your answers with a partner.

REFLECT **Read and watch about learning a language**
 You are going to listen to a video that shows about culture and interactive English speakers. Watch the statements and decide if you agree or disagree. Write your answers with a partner.

REFLECT **Discuss your language and culture experiences**
 You are going to watch a video about language and culture. In a group, compare your family name and discuss the traditions.

REFLECT **Compare research for choosing a career**
 You are going to watch a video about career research. Use information if a career possibility would give you a chance to increase a necessary? Complete the chart with reasons why it might be a good idea or a bad idea.

Good idea to become a scientist	Bad idea to become a scientist

Look at a **Unit Task**. Students first listen to a **Model** of the task and complete an activity that follows the same structure as their upcoming speaking task. Step-by-step planning helps students gather and organize their ideas, while Pronunciation and Speaking Skills ensure students can confidently complete the task.

REFLECT **Present a plan to help people**
 You are going to present a plan to help people in your community. Present with each other. You will have some questions and give the class, including and write from the unit.

MODEL Listen to a model presentation about a community plan. Complete the chart. Discuss your answers with a partner and justify your plan.

Plan to help people in your community	Reasons why it is a good idea
1. _____	1. _____
2. _____	2. _____
3. _____	3. _____
4. _____	4. _____
5. _____	5. _____

COMPETENCIES PROMOTED IN *REFLECT*

The content and activities in *Reflect* were developed to support students' global competence, social and emotional learning, and 21st century skills.

Throughout the series, students are exposed to diverse ideas, voices, and perspectives, and asked to think critically about each. In doing so, students develop self-awareness, social awareness, and self-management skills.

THE 4 CS OF 21ST CENTURY SKILLS

Communication	Collaboration	Critical Thinking	Creativity
Engaging in constructive and critical conversations; sharing thoughts, questions, and ideas	Working together to reach a goal; being willing to participate and contribute	Looking at problems in a new way; being able to analyze, interpret, and evaluate	Trying new approaches; developing ideas that demonstrate curiosity, imagination, and flexibility

ASSESSMENT IN *REFLECT*

Regular assessment is an important element of any English-language course. In **Reflect Listening & Speaking**, teachers will find a set of assessment tools to help them support English learners, track their progress, and document their achievements. These same tools, used regularly, will also help build learner confidence, drive motivation, and encourage student ownership of learning.

As you plan your course and assessment, remember to consider the following:

- ▶ Assessment should mirror learning. Tests should reflect clearly communicated curriculum objectives. The structure and format of tasks should reflect what students experience in class.
- ▶ Tests should contribute to learning on the part of both teachers and students. Assessment results should provide teachers with information on which to base instruction, especially modifications that may be needed for individuals or groups of students. And test results should help learners manage their strengths and weaknesses, as well as their progress in learning English.
- ▶ Assessment should motivate learners and help build learner confidence. Just as with class activities, students should receive motivating and constructive feedback during assessment.
- ▶ Testing should take place at regular intervals in order to collect reliable evidence of growth. The more regularly students are assessed through a variety of approaches, the less anxiety they may experience, and the more practiced and confident they will be when taking an assessment.

FORMATIVE ASSESSMENT

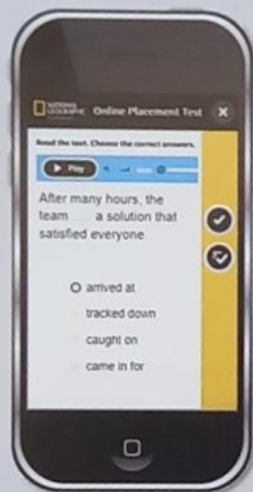

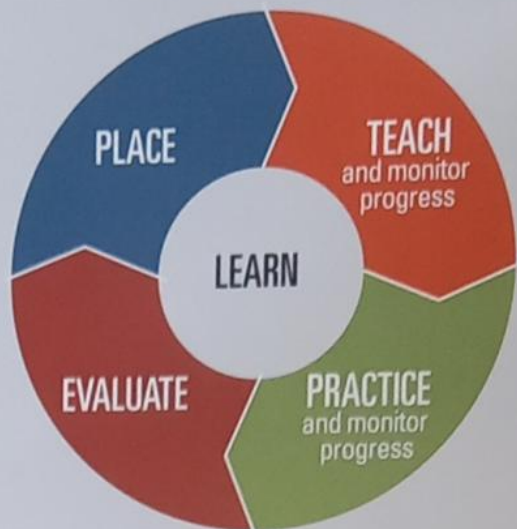

Because accurate assessment reflects not only what students can recognize and produce on written tests, but also how they use language in real contexts, *Reflect* includes numerous opportunities for *performance-based, in-class* formative assessment. The Reflect activities in the Student Book give students regular chances to pause, review, and expand on what they've learned. For each Unit Task, there is a customized rubric to set expectations and evaluate, helping students achieve successful outcomes. **Formative Assessment** tips appear in the **Teacher's Guide** and align directly to Student Book Reflect activities and to each unit's objectives. In addition, student presentations may be assembled as part of an assessment portfolio.

SUMMATIVE ASSESSMENT

Summative assessment is provided in the form of **ExamView**[®] test banks. Banks include test items that allow teachers to create eight Unit Quizzes and one Mastery Test per level. All quizzes and tests are easily generated and customizable.

PLACE, TEACH, PRACTICE, EVALUATE

Place students, adapt instruction, and monitor progress with National Geographic Learning's multi-step approach to assessment.

► PLACE

NGL's new, adaptable **Online Placement Test** reliably assesses listening, reading, and use of English, and helps place students into one of 14 CEFR-aligned levels.

► TEACH

Listening and **Speaking** Skill instruction supports listening comprehension and speaking fluency. The **Teacher's Guide** provides ideas for presenting and expanding on the information in the skill boxes.

Formative assessment ideas for each Reflect activity are included in the Teacher's Guide.

SPEAKING SKILL Give a presentation

When you give a presentation, remember to:

- **Prepare** by making notes to use in your presentation.
- **Practice** your presentation. Say it aloud a few times. Record it on your phone, or do it in front of a mirror.
- **Use sequence words** such as *First of all*, *Secondly*, *In addition*.
- **Make eye contact** with the audience. Don't read from your notes.

FORMATIVE ASSESSMENT

- As you monitor, listen for correct uses of *because* and *so*.
- Take notes on strengths in the use of these adverbs and in vocabulary and note any areas that need improvement. Give some positive feedback. Then write some of the errors on the board and elicit or provide the corrections.
- Put students into new pairs to practice again.

▶ PRACTICE

Listening and **Speaking Skill** boxes are followed by **Apply** activities that give students an opportunity to practice. These activities support informal assessment and help build student competence and confidence.

REFLECT activities encourage students to regularly check their understanding of the concepts in the unit.

LISTENING SKILL Take notes using a wh- question chart

When taking notes, listen for key information. To find key information, listen for facts that answer wh- questions (questions that begin with who, what, when, where, why, or how). You can write wh- words or specific questions you have on one side of the chart. Then listen and write the answers on the other side.

B APPLY With your partner, write wh- questions in the chart about what you might learn. Then watch the video and take notes on the answers to your questions.

Wh- questions	Answers
1. What = <i>Life job</i>	<i>He is a student artist.</i>
2. Where	
3. How	
4. Why	

REFLECT Give your opinion about learning a language

You are going to listen to a radio talk show about native and non-native English speakers. Rank the statements by how strongly you agree. Then share your answers with a partner.

1 = strongly agree 2 = agree 3 = disagree 4 = strongly disagree

- _____ English is the most important second language to learn.
- _____ English speakers do not need to learn a second language.
- _____ People who speak two or more languages are more interesting than people who only speak one language.

Unit 1 | Watch

Watch. Answer the questions.

1. Gregory discovered Ping-Pong when he was _____.

- homeless
- a child
- an adult

2. Gregory _____.

Online Practice reinforces learning with more opportunity to interact with the skills, vocabulary, and ideas from each unit.
