# Contents in Brief

Chapter 1	An Evolutionary Approach to Animal Behavior	3
Chapter 2	Understanding the Proximate and Ultimate Causes of Bird Song	29
Chapter 3	The Development of Behavior	63
Chapter 4	The Control of Behavior: Neural Mechanisms	107
Chapter 5	The Organization of Behavior: Neurons and Hormones	149
Chapter 6	Behavioral Adaptations for Survival	183
Chapter 7	The Evolution of Feeding Behavior	219
Chapter 8	Choosing Where to Live	249
Chapter 9	The Evolution of Communication	287
Chapter 10	The Evolution of Reproductive Behavior	329
Chapter 11	The Evolution of Mating Systems	379
Chapter 12	The Evolution of Parental Care	421
Chapter 13	The Evolution of Social Behavior	457
Chapter 14	The Evolution of Human Behavior	507

# Contents

## CHAPTER 1

### An Evolutionary Approach to Animal Behavior 3

Understanding Monogamy 4

Levels of Analysis 8

Proximate and Ultimate Explanations in Biology 9

How to Discover the Causes of Behavior—  
Scientifically 12

Darwinian Theory and Ultimate Hypotheses 14

Darwinian Theory and the Study of Behavior 16

The Problem with Group Selection 21

Testing Alternative Hypotheses 22

Certainty and Science 25

Summary 26

Suggested Reading 27

## CHAPTER 2

### Understanding the Proximate and Ultimate Causes of Bird Song 29

Different Songs: Proximate Causes 30

Social Experience and Song Development 33

The Development of the Underlying Mechanisms of  
Singing Behavior 36

How the Avian Song Control System Works 40

Different Songs: Ultimate Causes 43

The Reproductive Benefits of Song Learning 46

The Benefits of Learning a Dialect 48

Female Preferences and Song Learning 54

Proximate and Ultimate Causes Are Complementary 58

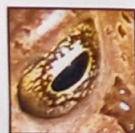

- Summary 59
- Suggested Reading 60

## CHAPTER 3

### The Development of Behavior 63

- The Interactive Theory of Development 64
  - The Nature-or-Nurture Fallacy 68
  - Behavioral Development Requires Both Genes and Environment 69
- What Causes Individuals to Develop Differently? 72
  - Environmental Differences and Behavioral Differences 73
  - Genetic Differences and Behavioral Differences 76
  - Hereditary Differences in the Food Preferences of Garter Snakes 79
  - Single-Gene Effects on Development 82
- Evolution and Behavioral Development 87
- Adaptive Features of Behavioral Development 88
  - Developmental Homeostasis: Protecting Development against Disruption 89
  - The Adaptive Value of Developmental Switch Mechanisms 94
  - The Adaptive Value of Learning 97
- Summary 104
- Suggested Reading 105

## CHAPTER 4

### The Control of Behavior: Neural Mechanisms 107

- How Neurons Control Behavior 109
  - Sensory Receptors and Survival 112
  - Relaying and Responding to Sensory Input 120
  - Central Pattern Generators 122
- The Proximate Basis of Stimulus Filtering 125

- Cortical Magnification in the Tactile Mode 127
- Adaptation and the Proximate Mechanisms of Behavior 131

- Adaptive Mechanisms of Human Perception 134
- Adaptive Mechanisms of Navigation 137
- Adaptive Mechanisms of Migration 141

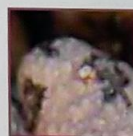

- Summary 146
- Suggested Reading 147

## CHAPTER 5

### The Organization of Behavior: Neurons and Hormones 149

- Neural Command Centers Organize Behavior 150
- Behavioral Schedules 153
  - How Do Circadian Mechanisms Work? 157
  - Long-Term Cycles of Behavior 161
  - The Physical Environment Influences Long-Term Cycles 162
- Changing Priorities in Changing Social Environments 168
  - Hormones and the Organization of Reproductive Behavior 172
  - The Variable Role of Testosterone 176
- Summary 181
- Suggested Reading 181

## CHAPTER 6

### Behavioral Adaptations for Survival 183

- Mobbing Behavior and the Evolution of Adaptations 184
  - The Comparative Method for Testing Adaptationist Hypotheses 190
- The Cost-Benefit Approach to Antipredator Behavior 196
  - The Costs and Benefits of Camouflage 200
- Some Darwinian Puzzles 204

- Optimality Theory and Antipredator Behavior 211
- Game Theory Applied to Social Defenses 213

Summary 216

Suggested Reading 217

## CHAPTER 7

### The Evolution of Feeding Behavior 219

- Optimal Foraging Behavior 220
  - How to Choose an Optimal Mussel 223
  - Criticisms of Optimal Foraging Theory 225

Game Theory and Feeding Behavior 228

More Darwinian Puzzles in Feeding Behavior 231

- Why Do Some Spiders Make Their Webs Conspicuous? 233
- Why Do Humans Consume Alcohol, Spices, and Dirt? 235

The Adaptive Value and History of a Complex Behavior 238
 

- The Adaptive Value of Honey Bee Dances 242
- The Origin and Modification of Honey Bee Dances 243

Summary 246

Suggested Reading 247

## CHAPTER 8

### Choosing Where to Live 249

- Habitat Selection 250
  - Habitat Preferences of a Territorial Aphid 254
  - The Costs and Benefits of Dispersal 257

Migration 261
 

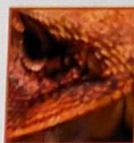

- The Costs of Migration 265
- The Benefits of Migration 268
- Migration as a Conditional Tactic 271

Territoriality 274
 

- Territorial Contests 278

Summary 283

Suggested Reading 284

## CHAPTER 9

### The Evolution of Communication 287

The Origin and Modification of a Signal 288
 

- The Adaptive Value of a Signal 291
- An Adaptationist Hypothesis 293

The History of a Signal-Receiving Mechanism 294

The History of Insect Wings 296

Sensory Exploitation of Signal Receivers 299

Adaptationist Questions about Communication 309

- Why Do Baby Birds Beg So Loudly? 311
- How to Deal with Illegitimate Receivers 317
- Why Settle Disputes with Harmless Threats? 320
- How Can Deception Evolve? 324

Summary 326

Suggested Reading 327

## CHAPTER 10

### The Evolution of Reproductive Behavior 329

The Evolution of Differences in Sex Roles 330
 

- Testing the Evolutionary Theory of Sex Differences 336

Sexual Selection and Competition for Mates 340

- Alternative Mating Tactics 345
- Conditional Mating Strategies 347
- Distinct Mating Strategies 350
- Sperm Competition 352
- Mate Guarding 356

- Sexual Selection and Mate Choice 360**  
 Mate Choice without Material Benefits 363  
 Does Male Courtship Signal Mate Quality? 366  
 Testing the Healthy Mate, Good Genes, and  
 Runaway Selection Theories 369
- Sexual Conflict 371**
- Summary 375**
- Suggested Reading 376**

## CHAPTER 11

### The Evolution of Mating Systems 379

- Is Male Monogamy Adaptive? 380**  
 Male Monogamy in Mammals 384  
 Male Monogamy in Birds 387
- What Do Females Gain from Polyandry? 393**  
 Polyandry and Good Genes 395  
 Polyandry and Material Benefits 402
- The Diversity of Polygynous Mating Systems 404**  
 Female Defense Polygyny 404  
 Resource Defense Polygyny 406  
 Scramble Competition Polygyny 409  
 Lek Polygyny 410
- Summary 418**
- Suggested Reading 419**

## CHAPTER 12

### The Evolution of Parental Care 421

- The Cost-Benefit Analysis of Parental Care 422**  
 Why More Care by Mothers than Fathers? 422  
 Exceptions to the Rule 426  
 Why Do Male Water Bugs Do All the Work? 428
- Discriminating Parental Care 430**  
 Why Adopt Genetic Strangers? 433  
 The History of Interspecific Brood  
 Parasitism 435  
 Why Accept a Parasite's Egg? 439

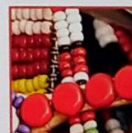

- The Evolution of Parental Favoritism 444**  
 How to Evaluate the Reproductive Value of  
 Offspring 449
- Summary 453**
- Suggested Reading 454**

## CHAPTER 13

### The Evolution of Social Behavior 457

- The Costs and Benefits of Social Life 458**
- The Evolution of Helpful Behavior 463**  
 The Reciprocity Hypothesis 466  
 Altruism and Indirect Selection 470  
 The Importance of Relatedness 472  
 Indirect Selection and the Alarm Call of Belding's  
 Ground Squirrel 472
- The Concept of Inclusive Fitness 473**  
 Inclusive Fitness and the Pied Kingfisher 474  
 Inclusive Fitness and Helpers at the Nest 476  
 The Evolutionary History of Helping at the  
 Nest 481  
 Insect Helpers at the Nest 483
- The Evolution of Eusocial Behavior 488**  
 Haplodiploid Sex Determination and the  
 Evolution of Extreme Altruism 490  
 Testing the Haplodiploid Hypothesis 492  
 Eusociality in the Absence of Very Close  
 Relatedness 497  
 The Ecology of Eusociality 501
- Summary 503**
- Suggested Reading 504**

## CHAPTER 14

### The Evolution of Human Behavior 507

- The Adaptationist Approach to Human Behavior 508**  
 The Sociobiology Controversy 510  
 Arbitrary Culture Theory 513  
 Cultural Evolution Theory 517

<b>Adaptive Mate Preferences</b>	<b>518</b>
Adaptive Mate Preferences of Women	521
Conditional Mate Preferences of Men and Women	525
Sexual Conflict	528
Coercive Sex	532

<b>Adaptive Parental Care</b>	<b>535</b>
Helping Children Marry	538

<b>Applications of Evolutionary Psychology</b>	<b>541</b>
--	------------

<b>Summary</b>	<b>545</b>
