

"Green IT is a social imperative that meets the needs of business. This book guides organizations in applying environmentally sound practices to business and technology decisions—helping them reduce their consumption of resources, energy dependencies, and costs. These issues are real and the time to act is now."

—Adam Warby, CEO, Avanade

GREEN IT

Reduce Your
Information System's
Environmental Impact
While Adding to
the Bottom Line

TOBY J. VELTE
ANTHONY T. VELTE
ROBERT ELSENPETER

Foreword by

*Kelly Cain, Professor of Environmental Science and Management
University of Wisconsin, River Falls*

About the Authors

Toby J. Velte, Ph.D. is an international best-selling author of business technology articles and books. He is co-founder of Velte Publishing, Inc. and the co-author of more than a dozen books published by McGraw-Hill and Cisco Press. Dr. Velte is currently part of Microsoft's North Central practice focused on helping thriving companies with their technology-based initiatives. He works with large organizations to create IT roadmaps that are business focused and practically implemented. He can be reached at tjv@velte.com.

Anthony T. Velte, CISSP, CISA has over 16 years in the information systems industry. He is co-founder of Velte Publishing, Inc. and the co-author of more than a dozen books published by McGraw-Hill and Cisco Press.

Mr. Velte is a Senior Security Engineer for an industry-leading security software company. He frequently speaks at seminars and helps companies large and small protect their information systems infrastructure. He holds a variety of business and technical certifications. He can be reached at atv@velte.com.

Robert Elsenpeter is an award-winning journalist, freelance writer, and author of more than a dozen technology books. He has a bachelor's degree in information technology. He can be reached at rce@velte.com.

Contents at a Glance

Part I Trends and Reasons to Go Green

1	Overview and Issues	3
2	Current Initiatives and Standards	19

Part II Consumption Issues

3	Minimizing Power Usage	45
4	Cooling	63

Part III What You Can Do

5	Changing the Way We Work	81
6	Going Paperless	103
7	Recycling	127
8	Hardware Considerations	151

Part IV Case Studies

9	Technology Businesses	173
10	Other Organizations	197

Part V The Greening Process

11	Datacenter Design and Redesign	215
12	Virtualization	233
13	Greening Your Information Systems	255
14	Staying Green	277

Contents

Foreword	xvii
Acknowledgments	xxi
Introduction	xxiii

Part I Trends and Reasons to Go Green

1 Overview and Issues	3
Problems	3
Toxins	4
Power Consumption	5
Equipment Disposal	6
Your Company's Carbon Footprint	9
Measuring	10
Details	12
Why Bother?	13
Plan for the Future	13
Cost Savings	13
Hardware	14
Power	15
2 Current Initiatives and Standards	19
Global Initiatives	20
United Nations	20
Basel Action Network	23
Basel Convention	24
North America	26
The United States	26
Canada	31
Australia	33
Europe	34
WEEE Directive	34
RoHS	35
National Adoption	35
Asia	39
Japan	39
China	40
Korea	41

Part II Consumption Issues

3	Minimizing Power Usage	45
	Power Problems	45
	Monitoring Power Usage	46
	Servers	47
	Low-Cost Options	47
	Reducing Power Use	49
	Data De-Duplication	49
	Virtualization	49
	Management	50
	Bigger Drives	51
	Involving Your Utility Company	51
	Low-Power Computers	52
	PCs	53
	Linux	53
	Components	54
	Servers	55
	Computer Settings	56
	Storage	57
	Monitors	59
	Power Supplies	61
	Wireless Devices	61
	Software	62
4	Cooling	63
	Cooling Costs	63
	How Much Does Power Cost?	63
	Causes of Cost	64
	Calculating Your Cooling Needs	65
	Reducing Cooling Costs	67
	Economizers	67
	On-Demand Cooling	69
	HP's Solution	69
	Optimizing Airflow	70
	Hot Aisle/Cold Aisle	70
	Raised Floors	71
	Cable Management	71
	Vapor Seal	72
	Prevent Recirculation of Equipment Exhaust	72
	Supply Air Directly to Heat Sources	73
	Fans	73
	Humidity	74
	Adding Cooling	74
	Fluid Considerations	74
	System Design	75
	Datacenter Design	75
	Centralized Control	76
	Design for Your Needs	76
	Put Everything Together	76

Part III What You Can Do

5	Changing the Way We Work	81
	Rethinking Old Behaviors	81
	Starting at the Top	81
	Process Reengineering with Green in Mind	82
	Analyzing the Global Impact of Local Actions	85
	Steps	86
	Water	86
	Recycling	88
	Energy	90
	Pollutants	90
	Teleworkers and Outsourcing	93
	Telecommuting	93
	Outsourcing	96
	How to Outsource	98
6	Going Paperless	103
	Paper Problems	103
	The Environment	104
	Your Costs	104
	Paper and Your Office	106
	Practicality	106
	Storage	107
	Destruction	107
	Going Paperless	108
	Organizational Realities	108
	Changing Over	108
	Paperless Billing	112
	Handheld Computers vs. the Clipboard	113
	Unified Communications	114
	Intranets	115
	What to Include	116
	Building an Intranet	116
	Microsoft Office SharePoint Server 2007	121
	Electronic Data Interchange (EDI)	123
	Nuts and Bolts	124
	Value Added Networks	124
	Advantages	125
	Obstacles	125
7	Recycling	127
	Problems	127
	China	127
	Africa	128
	Materials	130
	Means of Disposal	130
	Recycling	130
	Refurbishing	132
	Make the Decision	133
