Contents

Preface x

About the Author xii

Acknowledgments xiii

Chapter 1

Data Communications: An Introduction 2

An Overview of the Data Communications Industry 4

- The Data Communications Industry* 4
- Political Influences in the Data Communications
Industry* 4
- Employment Perspective* 5

A Modern Definition of Data Communications 5

- Bits and Bytes and Data Encoding* 6
- Digital and Analog Data* 8
- Digital and Analog Transmission* 9
- Modern Analog and Digital Transmission
Devices* 10
- Parallel and Serial Transmission* 12
- Asynchronous and Synchronous Data
Transmission* 14
- Simplex, Half-Duplex, and Full-Duplex
Transmission* 15

Common Data Communications Media Options 16

Data Transmission Security 19

Data Communications Standards 19

- General Types of Standards* 20
- Standards Organizations and Standards-Making
Processes* 20
- Standards and the Internet* 23

Data Communications Models 24

- Layered Architectures and Protocols* 24
- An Introduction to the OSI Model* 25
- Layers of the OSI Model* 25
- The TCP/IP Model* 29
- Data Encapsulation in a Layered
Architecture* 30
- Business Perspective for Using
OSI and Internet Models* 32

Government Regulations and Data Communications 32

Data Communications into the Future 34

Chapter 2

Local Area Networks: An Introduction 40

Professional Perspective and Business Purpose 42 Technology Overview 43

Servers, LAN Services, and Clients 44

- Servers and LAN Services* 44
- Clients* 45

LAN Configurations 49

- Mainframes and Terminals* 49
- Peer-to-Peer Local Area Networks* 50
- Client-dominant Local Area Networks* 51
- Client/Server Local Area Networks* 52
- Distributed Processing Local Area Networks* 53
- Connecting Computers to a LAN* 55

Media Types and Connectors 55

- Coaxial Media and Connectors* 55
- Twisted-Pair Media and Connectors* 58
- Fiber-Optic Media and Connectors* 61
- Wireless Media and Connectors* 64

Network Interface Cards 66

- How Network Interface Cards Work* 66
- Card Types* 68
- NIC Performance and Manageability* 70
- Network Interface Card Vendors* 73

Chapter 3

Local Area Networks: Topologies and Architectures 80

LAN Topologies 82

- Physical and Logical Topologies* 82

LAN Architectures 89

- Ethernet* 90
- Token Ring* 93
- Wireless* 95
- FDDI* 101
- ATM* 103

Chapter 4

Local Area Networks: Connectivity 112

LAN Devices 114

- Repeaters* 114
- Hubs* 114
- Bridges* 116
- Switches* 122
- Routers* 129

Gateways	132
Other Connectivity Terms and Devices	134
LAN Backbones	136
Backbone Design: A Layered Approach	136
Backbone Design: Access Layer Plus Distribution Layer	137
Backbone Design: Access Layer, Distribution Layer, and Core Layer Combined	138
Backbone Design with Redundancy for Fault Tolerance and Load Balancing	139
Rack-mounted Backbone Hardware versus Chassis-based Backbone Hardware	139
Network Backbone Data Transmission Architectures	141
LAN Protocols	143
Communications Protocols	143
Network Management	152

Chapter 5

Network Operating Systems 158

An Introduction to Network Operating Systems	160
Common Features	161
Recent History	162
Business Perspective	163
Network Operating Systems in Today's Market	168
Novell NetWare	168
Microsoft's Network Operating Systems	173
Linux	178
UNIX	180
NOS Management Utilities and Add-on Programs	182
Utilities and Additional Products	182
Other Management Services and Products	185

Chapter 6

Data Storage and Storage Networks 192

Business Perspective on Network Data Storage	194
Direct Attached Storage	194
Network Attached Storage	196
NAS Protocols	197
NAS Terminology	199
NAS Implementation and Management	202
Advanced NAS Technologies to Consider	205
Storage Area Networks	206
Historical Reasons for SANs	206
Contemporary Reasons for SANs	207
The SCSI Protocol	207
Fibre Channel SANs	210
IP Storage Networks	213

Metropolitan Area and Wide Area Network

SANs	221
Fibre Channel versus IP Storage in Metropolitan Area Networks and Wide Area Networks	221
SAN Backups	222
High Availability	223

Chapter 7

Voice Networks 228

Voice Networks: A Brief Introduction	230
Business Purpose	231
Data over POTS	232
Private Branch Exchange	235
Business Purpose and Features	235
PBX Technology	237
PBX Switching Topologies and Design Considerations	240
IP-Private Branch Exchange	243
Business Purpose	243
Topologies	244
Voice over IP	246
Computer-Telephony Integration	250
Business Purpose and Features	250
Cellular Wireless Voice Networks	252
Anatomy of a Cellular Wireless Connection	253
Cellular Wireless Access Methods	253
Cellular Topologies and Connectivity to the PSTN	256
Cellular Wireless Carrier Services	258

Chapter 8

Wide Area Networks 266

Connectivity to Remote Networks	268
Circuit-Switched Carrier Services	269
Dedicated-Circuit Carrier Services	273
Packet-Switched Carrier Services	276
The Internet as a WAN Backbone	284
Other High-Speed Carrier Services	285
Data Communication through the Carrier	293
Multiplexing	293
WAN Management Issues	296
Quality of Service	297
Circuit Capacity and Circuit Upgrades	297

Chapter 9

Network Security 302

Business Perspective on Network Security	304
Components of a Comprehensive Security Plan	304

Potential Vulnerabilities	306
<i>Social Engineering</i>	306
<i>Eavesdropping and Data Interception</i>	307
<i>Security Attacks</i>	307
<i>Dial-in Security</i>	311
<i>Malicious Programs</i>	311
Securing Your Network	313
<i>Physical Security</i>	313
<i>Firewalls</i>	314
<i>Network Address Translation</i>	318
<i>Proxy Servers</i>	319
<i>Perimeter Networks</i>	321
<i>Network Security with VLANs</i>	326
<i>Wireless LAN and MAN/WAN Security</i>	326
Securing Your Data	328
<i>Physical Security</i>	328
<i>Virtual Private Networks</i>	329
<i>Encryption</i>	330
<i>Security Protocols</i>	335

Chapter 10

The Internet 342

An Introduction to the Internet	344
<i>Brief History</i>	344
<i>Internet Topology</i>	346
<i>Internet Governance</i>	348

Accessing Information on the Internet	349
<i>The Origin of the Domain Name System</i>	349
<i>Name Servers</i>	350
<i>Internet Domains</i>	351
<i>Internet Protocols</i>	353
<i>Internet Applications</i>	354
The Future of the Internet	357
<i>Internet2</i>	358
<i>The Next-Generation Internet Protocol</i>	361
<i>Impact on the Organization</i>	366
